This catalog is current as of the time of printing. The College reserves the right to make changes in course content, equipment, materials, organizational policy, tuition, and curriculum as circumstances dictate, subsequent to publication. The College expects its students to have knowledge of the information presented in this catalog and in other publications.

The College is in compliance with the following: Title IV (The Civil Rights Act), Title IX (Discrimination on the Basis of Sex), The Equal Credit Opportunity Act (Discrimination in Lending), and The Age Discrimination Act. City College, 2000 W. Commercial Blvd., Fort Lauderdale, FL; 7001 N.W. 4th Blvd., Gainesville, FL; 6565 Taft Street, Hollywood, FL, and 9300 S. Dadeland Blvd., Miami, FL, admits students of any race, color, national and ethnic origin to all rights, privileges, programs, and activities generally accorded or made available to students at the institution. It does not discriminate on the basis of race, color, or national and ethnic origin in administration of its educational policies, admission policies, scholarship and loan programs, and athletic and other institutionally administered programs.
A Message From the President

Welcome! At City College, it is our vision to provide you with an “Extraordinary Educational Experience.” Our administrative and academic teams strive to deliver an environment that allows you to succeed academically, personally, and professionally.

We are glad that you have chosen to pursue your goals and dreams at City College. Our qualified and experienced staff and faculty are here to support you with services in financial aid, career advising, career training, tutoring, library services, and job placement assistance. Please take advantage of the many opportunities afforded to you at the College. Education is the key to reaching your goals, and we are committed to your success. We look forward to seeing you at graduation!

R. Esther Fike Curry
President

AVMA Committee on Veterinary Technician Education and Activities (CVTEA)
The Associate of Science, Veterinary Technology program at the City College Hollywood and City College Gainesville campuses is accredited by the AVMA as a program for educating veterinary technicians

State License

City College is licensed by the Commission for Independent Education, 325 W. Gaines Street, Suite 1414, Tallahassee, FL 32399-0400. Information regarding the College may be obtained by contacting the Executive Director, Commission for Independent Education, Department of Education, Tallahassee, Florida, (888) 224-6684.

Approvals

- The College is authorized by the U.S. Department of Homeland Security to accept and enroll non-immigrant students.
- City College is approved by the Florida State Approving Agency (SAA) to train veterans and other eligible persons under the Veterans Administration Assistance Program.
- The Associate of Science in Anesthesia Technology program is approved by the American Society of Anesthesia Technologists and Technicians (ASATT).

State Authorization Reciprocity Agreement (“SARA”)

City College is authorized under State Authorization Reciprocity Agreement (“SARA”). Colleges and universities that are SARA members may provide online education to residents of SARA member states.

Non-discrimination Statement

City College admits students of any race, color, national and ethnic origin to all rights, privileges, programs, and activities generally accorded or made available to students at the institution. It does not discriminate on the basis of race, color, national and ethnic origin in administration of its educational policies, admission policies, scholarship and loan programs, and athletic and other institutionally administered programs.

Note: Students will be notified of any accreditation, curricular or fee changes made at the institution.
College Background

History

City College was originally established in 1984 as Draughon's College of Business, a branch of Draughon's Junior College of Business founded in 1896 in Paducah, Kentucky. In May 1988, City College, Inc. established a branch campus in Gainesville, Florida. The College received approval from the State Board of Independent Colleges and Universities (SBICU) to offer Associate of Science degrees at the Fort Lauderdale campus in Fall 1989, and at the Gainesville campus in Fall 1991.

In June 1997, City College expanded its educational facilities to include a branch in Miami, Florida. In July 1999 the College received approval from SBICU to offer Bachelor of Science degrees. Quality education continues to be the goal of City College. "Your Job Tomorrow Is Our Job Today!" City College is committed to providing our students with an Extraordinary Educational Experience.

In August 2011, City College established a branch campus in Hollywood, Florida. The first students started October 3, 2011. Initial programs offered at the campus were Emergency Medical Services, Allied Health, and Business.

The campus continues to grow and in 2014 two new programs were added, Veterinary Technology and Cardiovascular Sonography.

Philosophy

City College is dedicated to the training and education of men and women for a full life and a successful career in a number of fields. The College offers its students a quality education in an atmosphere of personalized attention. City College considers the student as an individual and strives to be aware at all times of the needs of each member of its student body. The College seeks to give students an understanding of and respect for their own and others' ideas and thoughts. Graduates of City College are imbued with the belief that they should understand and practice their responsibilities to family, individuals and community by becoming effective and contributing citizens.

Mission

The mission of City College is to educate and train students in their chosen major for employment in specific career fields. The College awards Associate of Science and Bachelor of Science degrees based on the student's successful completion of required coursework.

Goals and Objectives

The following goals are integral to the mission of the College:

- To maintain employer satisfaction within the community by providing professionally trained and educated graduates for industry, business, health care and government.
- To encourage students to realize the importance of reaching personal and professional goals through self-motivation, individual growth, and the pursuit of excellence.
- To prepare students for employment in specific career fields.
- To facilitate entry of graduates into their chosen careers.
- To offer sound educational programs at the Associate's and Bachelor's Degree levels.
- To continually evaluate and appraise every facet of the College's programs to ensure relevance to the needs of the employment community, effective preparation of students for success in career and compatibility with the College's standards.

Fort Lauderdale - Main Campus

The College is located at 2000 W. Commercial Blvd., Fort Lauderdale, FL and occupies approximately 50,000 square feet of two story atrium building. Lecture classrooms and computer labs are available for all programs. Specialized labs are as follows:

Allied Health labs are equipped to simulate a professional environment. Students practice skills on practice arms, torsos and other manikin equipment. Labs include an eye wash station, sharps container and biohazardous waste containers.

Anesthesia Technology lab is a simulation operating room theater. Essential anesthesia equipment used for patient safety and surgical procedures is readily available for scenario based training with the Anesthesia Technology students.

Broadcasting labs include a working TV studio, and radio station. Additional resource labs with industry equipment allow the students to learn to record, edit, direct, produce and create high quality audio and video programs.

Emergency Medical Services lab has an ambulance simulator, manikins and equipment to allow for simulation of real-life scenarios.

Surgical Technology lab has a "sub-sterile" room where a 3 bay sink is in place that emulates actual operating room equipment. Also in this room are instrumentation, supplies and other material that is used to simulate a real world environment.

Gainesville - Non-Main Campus

The College is located primarily at 7001 NW. 4th Blvd., Gainesville, FL and occupies a building of approximately 21,500 square feet. In addition, the Veterinary Technology program lab (separate educational center) is located at 2400 SW. 13th St., Gainesville, FL. This facility is 10,000 square feet and houses lab equipment, cages, and lab classrooms. Lecture classrooms and computer labs are available for all programs. Specialized labs are as follows:

Allied Health labs are equipped to simulate a professional environment. Students practice skills on practice arms, torsos and other manikin equipment. Labs include an eye wash station, sharps container and biohazardous waste containers.

The Emergency Medical Services laboratory has an ambulance simulator, manikins and equipment to allow for simulation of real-life scenarios.

Veterinary Technology labs reflect a veterinary facility. The students practice on both models and life animals. There is an x-ray machine, surgical room, and equipment to support basic surgical and non- surgical procedures.
**Hollywood - Non-Main Campus**

The College is located at 6565 Taft St., Hollywood, FL and occupies approximately 16,500 square feet on the second and third floors of the building. Lecture classrooms and computer labs are available for all programs. Specialized labs are as follows:

Allied Health labs are equipped to simulate a professional environment. Students practice skills on practice arms, torsos and other manikin equipment. Labs include an eye wash station, sharps container and biohazardous waste containers.

Cardiovascular Sonography has an ultrasound laboratory with industry standard ultrasound machines.

Veterinary Technology labs reflect a veterinary facility. The students practice on both models and life animals. There is an x-ray machine, surgical room, and equipment to support basic surgical and non-surgical procedures.

**Miami - Non-Main Campus**

The College is located at 9300 S. Dadeland Blvd., Miami, FL and occupies approximately 24,000 square feet in two buildings in the Dadeland Towers office park. Lecture classrooms and computer labs are available for all programs. Specialized labs are as follows:

Allied Health labs are equipped to simulate a professional environment. Students practice skills on practice arms, torsos and other manikin equipment. Labs include an eye wash station, sharps container and biohazardous waste containers.

Anesthesia Technology lab is a simulation operating room theater. Essential anesthesia equipment used for patient safety and surgical procedures is readily available for scenario based training with the Anesthesia Technology students.

The Emergency Medical Services laboratory has an ambulance simulator, manikins and equipment to allow for simulation of real-life scenarios. Lab include an eye wash station, sharps container and biohazardous waste containers.

Surgical Technology lab has a “sub-sterile” room where a 3 bay sink is in place that emulates actual operating room equipment. Also in this room are instrumentation, supplies and other material that is used to simulate a real world environment.

Admissions Policies and Procedures

City College welcomes applications from qualified students who desire an education which will enrich their lives and equip them with the skills to begin productive careers and become industry professionals. A “rolling admissions” policy governs most of City College programs. Most degree programs commence quarterly.

Application Procedures

1. Contact the Admissions Department for an appointment. The telephone numbers are:
   - Fort Lauderdale: (954) 492-5353
   - Gainesville: (352) 335-4000
   - Hollywood: (954) 744-1777
   - Miami: (305) 666-9242
2. Complete a City College Application for Admissions. An Admissions Representative will assist each applicant in completing the necessary admissions paperwork.
3. Provide proof of high school graduation, via a standard high school diploma or GED.
4. Students who have prior college experience will complete a transcript request for each college attended.
5. Students requesting financial aid assistance through the College must submit the Federal Financial Aid Application online.
6. Students entering the College must meet the criteria listed under both Entrance Requirements and Programmatic Entrance Requirements.
7. Non-US citizens, who are permanent residents of the United States, must submit a copy of their permanent residence document.

Entrance Requirements

1. Proof of Graduation: In order to gain admission into City College, a prospective student must provide proof of graduation in the form of one of the following.
   a. An official high school transcript from an institution whose academic rigor, accreditation and academic standards are deemed appropriate by City College. Transfer students and high school graduates must request their official transcript of grades. Official transcripts must be received in a sealed envelope. The transcript must adhere to the issuing institutions requirements for an official transcript (i.e. seal, signatures, etc.).
   b. Passing General Equivalency Diploma (GED) test scores. Applicants who have taken the GED exam must submit evidence of a satisfactory performance on the exam to the Admissions Department.

   In the event the student cannot provide 1a or 1b, the student may provide:
   c. An official transcript from a post-secondary school whose accreditation is recognized by the US Department of Education or by a NACES approved International school – that demonstrates completion of an Associate, Bachelor, Masters, or higher degree.

   Certificates of attendance and/or completion, exceptional Student diplomas, or Special Student diplomas are not considered qualifying documents for admission. Students who have a non-US High School Diploma should refer to the section on “International High School and College Transcripts” for U.S. High School equivalency requirements. Please note: All transcripts must be submitted in English.

2. Admissions Entrance Examination (on-ground program applicants): In order to ensure a successful experience at City College, a placement test is mandatory for all applicants, applying to an on-ground program, with no previous successful postsecondary education or standardized test scores (see Admissions Testing Exemptions). The evaluation determines admission into the College and placement in courses. Anesthesia Technology, Cardiovascular Technology, Emergency Medical Services, Surgical Technology, and Veterinary Technology require minimum placement-scores for entry. Please refer to the program page for required minimum scores.

Homeschooling

City College considers applications from individuals who have completed a home school program. The prospective student must submit a homeschooled transcript listing all coursework completed. The transcript will evidence:
   a. Final grades and units earned for each course completed.
   b. A brief description of each course the student has taken with evidence of a satisfactory performance on the exam to the Admissions Department.
   c. The methods used for evaluation should accompany the homeschooled transcript.

If homeschooled applicants previously attended another school, or have completed courses through the Florida Virtual School or through dual enrollment at a local college or university, official transcripts are required, and those courses should also be reflected on the homeschooled transcript.

In addition, homeschooled applicants must submit a completed and notarized Home School Affidavit that verifies compliance with state statutory requirements that govern home school education.

International Students

City College has been approved to issue I-20s from the U.S. Department of Homeland Security to eligible foreign student applicants. International students interested in entering City College must demonstrate that they have graduated from a secondary school, recognized by the Ministry of Education or equivalent entity, in their home country. All international students must be fluent in English before they enroll. Applicants will be asked to furnish proof of English language competency. Students must also demonstrate that they are able to meet all costs of their education without financial aid, unless they are eligible non-citizens.

International High School and College Transcripts

Applicants to City College who completed high school and or college outside of the United States must have their transcripts translated by a recognized translator and should be signed and notarized by the translator. Transcripts must be evaluated by a NACES or AICE approved organization.
A list of NACES organizations may be found at http://www.naces.org/members.htm and a list of AICE organizations may be found at http://acie-eval.org/endorsed-members. Prospective students are responsible for the cost and fees associated with the translation and evaluation of their diplomas.

The evaluation of the high school transcript must state that it is equivalent to a US High School Diploma.

College evaluations must include:
   a. Evidence of an equivalent degree
   b. A course by course description indicating the number of credits earned and grade received.

Essential Courses
The College has developed courses to assist students in remediating deficiencies in Language and Math. Placement into these courses is determined by the score on the admissions entrance exam. Essential courses are in addition to, and do not fulfill, the course requirements for any program of study. These courses are graded on a Pass/No Pass basis.

Admissions Testing Exemptions
Exemption scores will be accepted up to five years preceding the proposed program start date.
Applicants to City College may be exempted from Language and Reading testing if they can provide evidence of any of the following scores:

<table>
<thead>
<tr>
<th>Test</th>
<th>Minimum Score</th>
<th>Minimum Score</th>
</tr>
</thead>
<tbody>
<tr>

Programmatic Entry Requirements
In addition to the regular admission requirements, students applying to the Associate of Science in Anesthesia Technology, Cardiovascular Sonography, Emergency Medical Services (EMS), or Surgical Technology program have the following admissions requirements:

1. Specific test scores that must be achieved:
   a. Anesthesia Technology, Cardiovascular Sonography, EMS, or Surgical Technology require specific placement scores for entry. Please see the program page for minimum scores.
   b. Students enrolling in any of these programs must submit proof of having completed the following Medical requirements:
      - Current physical examination performed by an MD, DO or ARNP with a signed Health Clearance Form.
      - Proof of immunity via documentation of immunization or titers for the following:
        - Hepatitis B series. The first of three injections must be completed prior to admission.
        - MMR (Measles, Rubella, and Mumps) Series.
        - VZV (Varicella) vaccine – 2 injections.
        - A negative urinary drug screen indicating a 10 panel drug screen.
        - A tetanus (Td) booster within the last ten years. Results of a Health Clearance Form and PPD must be updated yearly.
      - Applicants to the EMS program must also have an EKG.

2. Student must hold personal health insurance.
3. Student must have a VECHS Level I background check.

In addition to the regular admission requirements, students applying to the Associate of Science in Veterinary Technology program have the following admissions requirements:

1. Minimum placement test scores. Please see the program page for minimum scores.
2. Student must have a VECHS Level I background check.
3. Student must hold personal health insurance.

It is recommended that students enrolling in this program are vaccinated for the following:

- Hepatitis B series.
- MMR (Measles, Rubella, and Mumps) Series.
- Tetanus (Td) booster within the last ten years.
- Rabies series.

It is recommended that students enrolling in this program be tested for:
- Absence of Tuberculosis (TB)
  - Negative PPD skin test within the last 6 months (2-step PPD or single step PPD as part of an annual series) or a negative chest x-ray.

Criminal Background Checks
In 2009, the Florida Legislature enacted a law which actually precludes a state board from allowing a person to sit for a licensure examination if the person was convicted (regardless of how the conviction was entered of a long list of criminal acts. A copy of the Alert distributed by the Florida Department of Health will be made available to all students and should be reviewed carefully by the student. For further information, you should consult Florida Statute Section 456.013(3)(a), 456.039(1), 456.072(2), 464.018, and the other laws and regulations for the health care profession in which you are enrolled.

State licensing boards have their own list of offenses which they believe should preclude a person from practicing a particular health profession, particularly if the criminal act relates directly to their chosen health care field. There are occasions when a particular health care board might allow licensure if the applicant has had their rights restored, or if the conviction was entered many years ago, but this process is different from one board to another.
Health facilities, including hospitals, doctor’s offices and health clinics, may have a list of additional offenses that prohibit City College from placing students in clinical rotations as part of their required educational program if the student has been arrested or convicted of any of these criminal offenses.

As a result, City College requires each student enrolling in the associate programs in Anesthesia Technology, Cardiovascular Sonography, Emergency Medical Services, and Surgical Technology to be subject to criminal background screening at the time of their application.

While Veterinary Technology and Private Investigation Services are not subject to the Florida 2009 law they will also be required to have a background check and should expect the same process.

The cost of this screening is borne by the student, and may take several weeks for the results to be provided to the College. Students who are admitted into one or more of these programs have an ongoing obligation to notify the College within 30 days if they are arrested or convicted for a criminal offense while enrolled at the College. Each student who enrolls into one of the programs listed above should expect the following process.

1. Student enrolls into the program at City College.
2. Student completes the process of submitting their personal information and/or fingerprints to the college's background screening partner. This information is processed as follows:
   - Anesthesia Technology, Cardiovascular Sonography, Emergency Medical Services, and Surgical Technology the information is sent to the VECHS criminal history program, for the purpose of obtaining a Level II background screening (criminal background report) on the enrolled student.
   - Veterinary Technology the information is used to obtain a Level I background screening (criminal background report)
   - Private Investigation Services the information is used to complete a National Criminal Background Search (without fingerprints)
3. If the student’s criminal background report reveals arrests or convictions that might preclude the student from participating in externships or clinical rotations as part of their educational program while a student at the College, sitting for state licensure examinations, or being eligible for employment upon graduation, the student will be notified and advised to schedule a meeting with the College’s education staff (Program Chair and/or the Director of Education). The College may request additional information or documents to clarify what is contained in the report. It is the student’s responsibility to furnish the College with all necessary information as to arrests, convictions or other dispositions of criminal charges contained in their criminal background report. Failure by the student to provide the necessary information will prevent the student from enrolling in any subsequent term or quarter until such information is provided to the College.
4. Following the meeting and review of information furnished to the College by the student, if it is determined by the College that the student’s criminal background report precludes participation in an externship or clinical rotation as part of their educational program, or from sitting for the state licensing examination, the College will dismiss the student from the program and will retain all charged tuition. The student may seek admission into another program that does not require compliance with criminal background criteria.

Advanced Placement/Transfer Credit

Advanced Placement Through Credit by Examination
Students who have successfully completed specialized and/or advanced courses in high school, have gained certain skill competencies or have gathered significant life experiences may request advanced placement in a subject area under certain conditions.

These conditions include:
1. The course is required in the program (including elective requirements). EMS core courses are not eligible for advanced placement through credit by exam.
2. The student can document established competency and/or has the approval of the Director of Education.
3. The Advanced Placement Through Credit by Examination must be taken within the first six (6) months of enrollment. Exceptions to this rule may be approved by the Director of Education but cannot be approved during the student's final quarter.
4. A grade of 86% or better is scored on the comprehensive examination.
5. The advanced placement fee has been paid. The fee for the examination is $150 for EACH comprehensive examination or advanced standing credit requested. This fee is charged regardless of the outcome of the examination.

Advanced Placement Through Credit for Prior Learning/Life Experience
City College offers applicants the opportunity to obtain college credit for previous employment experience. Credit is given to students who can demonstrate that the knowledge and skills they acquired from work, non-classroom study, etc. are equivalent to the learning outcomes expected for particular courses within the College.

Students who intend to obtain credit for prior learning and life experience must be in good academic standing and the course must:
- Be required for degree completion
- Not have an advanced standing/credit by examination option
- Not be an externship
- Not be an EMS core course
- Not be a general education course

Students must submit to the Director of Education an experiential portfolio for each course they wish to receive credit for, along with an Advanced Standing for Professional Life/Work Experience Request Form. The portfolio must be approved within the first six (6) months of enrollment and a student may only submit a portfolio once for each course they wish to receive credit for.

No more than 25% of core program courses may be transferred through prior learning/life experience. This 25% is part of the larger 50% of transfer credit allowed for an Associate of Science or 60% for the Bachelor of Science.

The fee for the experiential portfolio review is $75.00. This fee is charged regardless of the outcome of the portfolio review.
Transfer Credits

City College evaluates credits for transfer from nationally or regionally accredited colleges, universities, technical and business schools.

Official transcripts from all colleges attended must be received no later than thirty (30) days after the start of the student's first term at City College in order to receive transfer credit. City College will accept no more than 50% of transfer credits into an Associate degree program. 65% into the BSN program and 60% into any other Bachelors program.

Criteria for acceptance for transfer of credit are as follows:

a. The courses for transfer are similar in objectives and content with at least 80% equivalency to those offered by City College.

b. The credit was earned at an accredited institution as recognized by the Department of Education.

c. Credits transferred from institutions operating on quarters of ten to twelve weeks are accepted as direct equivalent credits. Semester credits are multiplied by 1.5 to convert them into quarter credits. Fractional portions of credits are rounded on a course-to-course basis.

d. The courses for transfer can be applied toward graduation requirements and will be calculated as part of MTF within the SAP policy.

e. The letter grade (or equivalent) in the course for transfer is a "C" or better (provided the "C" grade is defined as 70% or better). EMS core courses require a "B" or better.
   - Credits in skill or technical courses/Major Core must have been awarded no more than five (5) years prior to the student's acceptance by City College.
   - Major core courses being considered for transfer in the Emergency Medical Services program must be from a programatically accredited school.
   - Major core courses being considered for transfer in the Veterinary Technology program must be from an AVMA-CVTEA accredited program. If essential skills are completed in the course, the student must be able to provide evidence of successful completion of those skills.

Transfer Credit for Students with Advanced Placement (AP), CLEP or IB Courses

Students who have earned the score specified below on CLEP, AP or IB courses will be accepted for transfer credit for those courses with City College equivalents. The scores required for this are:

1. A score of 4 or higher on the College Board AP Examinations
2. A score of 50 or above on the College Level Examination Program (CLEP)
3. A score of 4 or higher on International Baccalaureate (IB) Courses

Credit WILL NOT be awarded based on another institutions award of AP, CLEP or IB credit. Student must request that their official AP, CLEP or IB transcript be sent to City College. Requests for AP, CLEP or IB credit must be made within the student's first term.

The decision of the Director of Education is final on questions of transfer credits. No official evaluation of transfer of credit is made until the student has been accepted by the College, and an official transcript or official scores (AP and CLEP) from the institution awarding the credits is received by the Program Chair and approved by the Director of Education.

Transfer Credit for Students with Associate Degrees

Associate of Arts

Students who have earned an Associate of Arts Degree from a nationally or regionally accredited institution may transfer the general education on a course by course basis to fulfill the 24 credit hour general education requirement in all City College Associate degree programs. Equivalency will be evaluated based on a comparison of course prefix, title, course descriptions and syllabi. Students may be required to complete specific general education courses where required by degree program.

Associate of Science

Students who have earned an Associate of Science degree from a nationally or regionally accredited institution may have their credit transferred on a course by course basis provided that the courses are at least 80% equivalent in objectives and content to those offered by City College. Equivalency will be evaluated based on a comparison of course prefix, title, course descriptions and syllabi. Students may be required to complete specific general education courses where required by degree program.

Transfer of Active Florida Emergency Medical Technician License

The college will accept persons with an active Florida Emergency Medical Technician (EMT) license into the Associate of Science (AS), Emergency Medical Services program. The prospective student must meet all Admissions criteria.

Students with a Florida EMT license will receive credit for: EMS1153, EMS1154C, EMS1155C. They must take EMS1010.

Transfer of Active Florida Paramedic License

City College will accept persons with an active Paramedic License (from both unaccredited and accredited schools) into the Associate of Science (AS), Emergency Medical Services program. These students will be required to complete the following in order to earn an Associate of Science (AS) degree.

a. Meet all Admissions criteria (with the exception of Background check and Medical documentation).

b. Register for 28 credits of General Education courses to include:
   - ENC1100 College English.
   - ENC1101 Composition.
   - MAT1030 College Algebra.
   - PSY1012 Principles of Psychology.
   - Three (3) additional courses from three (3) different disciplines as listed in the Programs of Study under “General Education.”

c. Register for 4 credits of related requirements:
   - SLS1201 Personal Development.

Students with an active Paramedic License will receive credit for:
EMS1153, EMS1154C, EMS1155C, EMS1671, EMS1090L, EMS2690, EMS2672, EMS2091L, EMS2691, EMS2673, EMS2092L, EMS2692, EMS2674, EMS2093L, EMS2693, EMS2675, EMS2094L, and EMS2694.

Students must be eligible for 36 credits (1 academic year) after transfer of credit. Persons with an active Paramedic License must complete 25% or more of the Emergency Medical Services Program to be granted an Associates of Science degree in EMS from City College.
Transfer of Current Certified Surgical Technologist Certification
City College will accept persons with a current certified Surgical Technologist Certification into the Associate of Science in Surgical Technology program. These students will be required to do the following in order to earn an Associate of Science degree. Program will be approved if the student:

a. Meet all Admissions criteria – (with the exception of the Wonderlic, Background Check, Medical Documents, Health Insurance or Drug test)
b. Register for the following course
   - A&P 1 and 2 (with labs),
   - Microbiology with Lab,
   - SLS1201 and SLS2301
   - Med Law and Ethics,
   - Gen Ed Courses
   - Transfer Credit: If they have GE credit, then they may transfer that in through the usual process.

This totals 51 credits which is 50% of the program; however, the 50% residency requirement can be waived for those who are transferring in General Education credits.

Transfer of Credit into Bachelors Program
City College has a variety of methods for students to either begin or transfer into a Bachelor’s Degree

Transfer of Credits from a Previous Associates Degree or a combination of Prior Learning Credits
1. Students have earned a prior Associates Degree and can transfer at least 60 credits (inclusive of Credit for Life Experience credits) into a Bachelors program.
2. Previous City College students who earned an Associate’s degree may matriculate into a Bachelors program. Previous City College students who have NOT earned an Associate’s degree are NOT eligible to transfer from an AS to a BS program, without having earned a degree. Students who start in an AS program are expected to complete that AS program. Students who earned an Occupational Associates may be required to take a placement test to determine placement into Math and/or English courses.

Transfer of Active Technical and Professional Certifications to a Bachelors Health Care Administration Program
City College will accept persons with active Technical and Professional certifications (Paramedic, AT, ST and others), from both unaccredited and accredited schools into the Bachelor of Science in Health Care Administration.

Active Technical and Professional Certifications may count towards 52 credits of transfer credit.

Transfer in the Bachelors of Science in Business Administration, Project Management Major
City College will accept persons with active Technical and Professional certifications (Paramedic, AT, ST and others), from both unaccredited and accredited schools, into the Bachelors of Science in Business Administration, Project Management Major.

- An Active License may count towards up to 60 transfer credits and elective credit.
- Applicant may also receive an additional 8 credits in Credit for Life Experience for SLS1201 and SLS2301 provided that the applicant can provide at least 12 months of active ongoing employment.
- All other previous college coursework regardless of if a degree was earned or not will be assessed for granting of additional credits.

Transferability of Credit
Transferability of City College credits to another college is at the discretion of the accepting institution. It is the student’s responsibility to confirm whether or not credits will be accepted by another college of the student’s choice.

Credits earned at any City College campus are mutually transferable in common programs at the same level.

City College Junior and Senior Standing Status
An academic year is defined as a period of time beginning with the first day of classes, ending on the last day of examinations and is a minimum of 33 weeks of instruction. Applicants to the Bachelor programs must have earned an Associate of Science degree and/or be in junior standing (earned a combination of life credit, credit by examination and/or transfer credit totaling a minimum of 72 quarter credits or its equivalent).

Junior standing is the equivalent of two (2) academic years (72 quarter credits or its equivalent) earned through a combination of life credit, credit by examination and/or transfer credit.

Senior Standing status is the equivalent of three (3) academic years which is 108 quarter credits or its equivalent, earned through a combination of life credit, credit by means of examination and transfer credit.

Financial Aid Information

Procedures and Forms by Which Students Apply for Assistance
The following types of aid are available individually or in combination to those who qualify and must be applied for annually. Applications for federal programs are available on the internet at http://www.fafsa.ed.gov. Applicants should complete the free application for Federal Student Aid (FAFSA). Scholarship procedures are listed on the City College website, http://www.citycollege.edu/scholarships

Types of Aid Available

Loan Programs
(ALL LOANS MUST BE REPAYED)

William D. Ford Federal Direct Loan Programs
- Federal Direct Subsidized Stafford Loans: also referred to as Direct Stafford Loans or Direct Loans. “Subsidized” means the federal government pays the interest on these loans while the student is enrolled at least half time during grace periods and deferments (postenonments of repayment). The student must demonstrate financial need to receive this type of loan.
- Federal Direct Unsubsidized Loans: also referred to as Direct Stafford Loans or Direct Loans. The federal government does not pay the interest on these loans while the student is attending college, in a grace period, or in deferment. A student may qualify for an unsubsidized Loan regardless of financial need.
- Federal Direct PLUS Loans: for parents with good credit histories who want to borrow for their dependent students. The yearly limit on the Parents’ Loans for Undergraduate Students (PLUS) is equal to the cost of attendance minus any other financial aid received. The interest will vary every July 1, but will never exceed 9%. Repayment begins within 60 days after the disbursement of funds. The chart below shows estimated monthly payments and total interest charges for 7.9 percent loans of varying amounts, with typical repayment periods. Rates may be different.
- Federal Direct Consolidation Loans: one or more federal education loans combined into a new Direct Loan. Only one monthly payment is made to the U.S. Department of Education. For additional information, booklets are available in the Financial Aid Office on Direct Loan Programs.

A Dependent Undergraduate student can borrow up to:
- $5,500, if the student is a first-year student enrolled in a program of study that is a full academic year. No more than $3,500 of this amount may be in subsidized loans.
- $6,500, if the student has earned a minimum of 36 credits and the remainder of the program of study is a full academic year. No more than $4,500 of this amount may be in subsidized loans.

An Independent Undergraduate student can borrow up to:
- $9,500, if the student is a first-year student enrolled in a program of study that is a full academic year. No more than $3,500 of this amount may be in subsidized loans.
- $10,500, if the student has completed a minimum of 36 credits and the remainder of the program of study is a full academic year. No more than $4,500 of this amount may be in subsidized loans.
- $12,500, if the student has completed their 2nd year of study and is enrolled in a degree seeking program that will award a Bachelor’s Degree and the remainder of the program of study is a full academic year. No more than $5,500 of this amount may be in subsidized loans.
- For periods of undergraduate study that are less than an academic year, the amounts a student can borrow will be less than those above.
- Interest rates are determined by the Federal government each spring for new loans being made in the upcoming award year, which runs from July 1 to the following June 30. Each loan will have a fixed interest rate for the life of the loan. Interest rates for new Direct Loans made on or after July 1, 2016, and before July 1, 2017 are 3.76% for Direct Subsidized and Direct Unsubsidized, and 6.31% for Direct Plus Loans.

The amounts listed above are the maximums a student may borrow. However, a student cannot borrow more than the cost of attendance minus any other financial aid received.

All applicants must complete entrance and exit counseling per Federal Regulation. Counseling can be completed at http://www.studentloans.gov

Scholarships and Grants

Florida Bright Future Scholarship Program
The Florida Bright Future Scholarship Program is a state of Florida scholarship program with three levels:
1. Florida Academic Scholars Award
2. Florida Medallion Scholars Award
3. Florida Gold Seal Vocational Scholars Award

For eligibility requirements, award amounts and deadlines, visit the Florida Department of Education website: http://www.floridastudentfinancialaid.org

Veteran’s Grant Program
New students who have been discharged from the military are eligible for this grant. City College awards a $500 one-time grant amount to all new veteran students enrolling at City College in degree programs.

Students must provide a DD214, Certificate of Release or Discharge from Active Duty, or an NGB 22, National Guard Report of Separation or Record of Service. The discharge characterization or disposition must not be a Dishonorable Discharge. The grant will be disbursed on or about the 3rd week of the quarter.

18 | Financial Aid Information
Alumni Scholarship
City College is offering its Associate Degree Alumni a scholarship when they matriculate to one of our Bachelor Degree programs. The scholarship is available to all Alumni who enroll for the first time in a City College B.S. degree program. The scholarship for $1500 which is disbursed as $500 per term for the first three consecutive terms.

- Applicants must be a City College Associate of Science Degree alumnus who enrolls for and is accepted into a City College Bachelor of Science Degree.
- Students who enrolled or attended Bachelor of Science Degree programs previously at City College are not be eligible
- Hollywood and Altamonte Springs campus graduates may use the scholarship towards a bachelors program online or at another City College campus offering bachelor degrees.

Richard W. Skidmore Scholarship Fund
The Richard W. Skidmore Scholarship Fund was established on November 1, 1994, by R. Wayne and Maxine Skidmore in memory of their son, Richard, former Director of Education of City College, Fort Lauderdale, Florida.

Students in a degree program may be eligible to apply after completion of three quarters. A student will not be selected on the basis of race, color, creed or gender. The selection process is handled by the Scholarship Board, and the recipient’s name(s) will be referred to the Board of Directors for final approval. Applicants must be in attendance at the Fort Lauderdale, Gainesville, Hollywood, or Miami campuses.

An application for this scholarship is available on our website and in the Financial Aid Office. The applying student must submit a brief narrative of why they feel they qualify for the scholarship. The student’s narrative must be accompanied by a recommendation from a City College faculty member. An applying student must have:

1. A CGPA of 2.0
2. Good attendance
3. Participate in class discussions
4. Be involved in community affairs

The application deadline is March 1 of each year, and the scholarship will be awarded in the Spring Quarter of each year. There will be one or two $500 awards annually, based on funding available.

C. M. Fike Memorial Scholarship
This scholarship is intended to assist City College students to pursue a degree in their chosen field. Applicants should apply for the scholarship prior to the start of the term. The College will award 8 scholarships each term per campus. The scholarship is an annual award paid quarterly on or about the third week in the term. Scholarship award amounts are based on the number of credits that a student is taking each term. The awards are as follows:

- $1,000 for students taking 9 or more credit hours per term.
- $750 for students taking 6 – 8 credit hours per term.

Applicants must:
- Complete the enrollment process and be accepted into a City College program
- Submit the scholarship application prior to the start of the term
- Start classes as stated on the enrollment agreement
- Maintain satisfactory academic progress
- Reapply each year for additional funding

Scholarship applications can be found on our website.

Boys and Girls Club Scholarship
City College offers a scholarship program to high school graduates who have been members in the Boys and Girls Clubs. The Scholarship is an annual award of $10,000. A scholarship in the amount of $2,500 is paid each term for four terms on or about the third week of the term. The application deadline is 14 days prior to the start of the term. Applicants must:

- Provide a letter of recommendation from the Boys and Girls Club where they attended
- Complete the enrollment process and be accepted into City College
- Enroll as a full-time student (12 credit hours each term)
- Complete the Boys and Girls Club Scholarship application

Continued eligibility will be determined by full-time enrollment status and maintaining satisfactory academic progress as described in the City College Catalog.

Partners in Education Grant
This grant is for individuals who are employed at any of our partner organizations. Partner organizations are companies that have a history of hiring City College graduates, provide externships for our current students, or have affiliation and/or articulation agreements with City College. The College will award up to 30 grants each year. For students taking 8-11 credits hours, the grant is in the amount of $750.00 per term; and, for students taking 12 or more credit hours, the grant is for $1,000.00 per term. Eligible individuals are defined as someone:

- Who has been employed or affiliated with for at least 1 year at the partner organization
- Who has not previously attended City College or
- Who is a City College graduate entering a Bachelor program for the first time

Applicants must:
- Complete the Partners in Education Grant application
- Be employed or be affiliated with or at one of our partner organizations for at least one year
- Be in good standing and be recommended by the site
- Provide grant approval in writing from the site

Once the applicant has been selected for the grant by the employer, he or she must:

- Meet all entrance requirements of the program
- Be enrolled for 8 or more credits each term
- Maintain satisfactory academic progress
- Maintain continuous enrollment without interruptions

Must provide proof of continued employment with partner organization each academic year in order to remain eligible to receive the grant. A current pay check or current letter from employer verifying employment status can be submitted to the financial aid department.

Federal Pell Grant
The eligibility for this award is computed primarily on the basis of student/parent income and assets, family size and number in college. All students are encouraged to apply. The filing deadline for the award year is June 15 for new applications. The awarding period extends from July 1 to June 30.
Florida Student Assistance Grant
The Florida Student Assistance Grant program (FSAG) is a financial aid program available to students who meet all eligibility criteria and demonstrate substantial financial “need.” An FSAG award can range from $200 - $2,610 per academic year. Eligibility for an FSAG is determined by the institution. The application deadline is September 15.

To be eligible for FSAG, you must:
1. Meet Florida residency requirement.
2. Enroll as a full-time student (12 credit hours each term).
3. Be a degree-seeking undergraduate student.
4. Be a U.S. citizen or eligible non-citizen.
5. Cannot hold a Bachelor’s Degree.
6. Be registered with the Selective Service, if required.
7. Not owe a refund in any state or federal grant or scholarship and not be in default on any state or federal student loan, unless satisfactory arrangements have been made to repay.

Federal Supplemental Educational Opportunity Grant
The Federal Supplemental Educational Opportunity Grant (FSEOG) is a grant to help students pay for education after high school. It is for undergraduate students having the greatest financial need (with priority given to Federal Pell grant recipients).

Federal Work-Study
The Federal Work-Study Program (FWS) provides jobs for undergraduate students who need financial aid. FWS gives students a chance to earn money to help pay for educational expenses. Compensation will be at least the current federal minimum wage. The total FWS award depends on need and the amount of aid received from other programs. It is awarded on a first come first served basis. Students will be paid by the hour and receive a paycheck every two weeks.

Policies and Procedures Verification
The College has developed the following policies and procedures regarding the verification of information provided by applicants for Federal Aid under the Title IV Programs:

1. Only those students who are selected for verification by the Department of Education will be required to submit supporting documentation.
2. All students will be notified on a timely basis, if they have been selected for verification and the supporting documentation that is required of them. The student will be notified via the Student Portal, email, or a phone call. The institution will use as its reference the most recent verification guide supplied by the Department of Education.
3. At that time, the student will be informed of the time parameters and the consequences of not completing the verification and any other documentation needed. The institution will assist the student by making any corrections to any information that is inaccurate.
4. No Federal or Campus-Based funds will be disbursed prior to the completion of verification.
5. The student will have 60 days after his/her last day of attendance or the end of the academic year, whichever is earlier, to complete verification. However, in the interim, the student must have made arrangements with the College for payment of all tuition and fees due or risk termination of the option of the College. After 60 days, all financial aid that might have been due is forfeited.
6. The College must refer this case to the Department of Education for resolution. Unless required by the Department of Education, no financial aid will be disbursed to the student.

Selective Service
In order to receive Title IV aid, students must be registered with Selective Service (also called the draft), if they are a male born after 12/31/59, at least 18 years of age, and not currently a member of the U.S. Armed Forces.

Refund Policy
Should a student voluntarily cancel or be terminated for any reason, all refunds will be made according to the following refund schedule. Student may cancel the enrollment by telephone, in person, or in writing.

1. All refunds will be made within thirty (30) days of the date of determination. Official Date of determination is the following:
   - The date the student notifies the College of his/her withdrawal
   - The date when the College becomes aware that the student ceased attendance from all courses for the term
2. All monies will be fully refunded if the application is not accepted or if the student cancels within three (3) business days after signing the enrollment agreement and making initial payment.
3. Cancellation after the third (3rd) business day, but before instruction begins will result in a refund of all monies paid, with the exceptions of the non-refundable application and registration fees.

4. For students who withdraw after classes begin for the (mid-) quarter, the following refund policy will apply:
   a. If a student withdraws during the first calendar week of classes (drop/add period) and notifies the Director of Education’s office, in writing, of his/her intent to withdraw, a full refund of tuition and fees will be made.
   b. If a student withdraws before completing 25% of the (mid-) quarter the College will refund 25% of the tuition and fees charges for the (mid-) quarter; thereafter,
   c. If a student withdraws after completing 25% of the (mid-) quarter there will be no refund of tuition or fees.
   d. Tuition and fees shall also be refunded in full, for the current term, under the following circumstances
      i. Credit hours dropped during the drop/add period;
      ii. Course canceled by the college
      iii. Involuntary call to active military duty;
      iv. Documented death of the student;
      v. Exceptional circumstances, with approval by the President of the College.

5. There is no refund or adjustment in tuition charges for a reduction in credit hours after the last date of the drop/add period for a (mid-) quarter as specified in the catalog.

6. Percentage of completion is computed from the published (mid-) quarter start date to last date of actual attendance, rather than credit earned. The last date of attendance is the last day a student had academically related activity, which may include projects, clinical experience, or examinations.

7. Any amounts determined to be owed the College as a result of these calculations are due and payable in full on the effective date of the withdrawal.

Any refund of less than $1.00 which would normally be refunded to Title IV Programs may be retained by City College.

**Return of Title IV Funds**

The 1998 Higher Education Amendments, section 484B prescribes the amount of Title IV funds a student has earned at the time when a student ceases attendance and the amount of federal aid that has to be returned or disbursed. The amount earned is based on the amount of time the student has spent in attendance. It is based on a proportional calculation through 60 percent of the payment period. Under these provisions, the calculation of Title IV funds is not concerned with refunding institutional charges.

If a recipient of Title IV grant or loan funds withdraws from an institution after beginning attendance, the institution must determine the amount of Title IV funds earned by the student. If the amount of Title IV grant or loan funds the student was disbursed is greater than the amount the student earned, unearned funds have to be returned. If the amount the student was disbursed is less than the amount the student earned, the student is eligible to receive a post-withdrawal disbursement in the amount of the earned aid that the student has not received but was otherwise eligible for.

The percentage of the period completed is the number of calendar days completed in the payment period divided by the total number of calendar days in the same period.

**Responsibility of a Student to Return Unearned Title IV, HEA Program Funds** - The student is responsible for all unearned Title IV, HEA program assistance that the institution is not required to return. A student’s unearned grant funds are an overpayment and are subject to repayment. A student who owes an overpayment as a result of withdrawal will retain his or her eligibility for Title IV, HEA program funds for 45 days from the earlier of the date the institution sends a notification to the student of the overpayment, or the date the institution was required to notify the student of the overpayment. If a student does not take the appropriate repayment action during this 45 day period, the student becomes ineligible on the 46th day and remains ineligible until the student enters into a repayment agreement with the U.S. Department of Education that re-establishes the student’s eligibility.

**Designated Office to Contact for Withdrawal** - The student must contact the Director of Education, Assistant Director of Education, or Registrar to withdraw. The student should also meet with the Director of Financial Aid to determine any financial liability created by withdrawal prior to the end of the term.

**Refund Distribution Policy for Federal Title IV Programs**

Any refund will be made as follows:
1. Federal Direct Unsubsidized
2. Federal Direct Subsidized
3. Federal Direct PLUS Loan
4. Federal Pell Grant
5. FSEOG
6. Other SFA Programs
7. Other Federal, State, private, or institutional sources of aid
9. The student

General College Information

Office/Class Hours
Administrative Offices
Monday – Thursday 8:00 AM – 8:00 PM
Friday 8:00 AM – 5:00 PM
Saturday 9:00 AM – 5:00 PM

Classes may be held during the following hours:
Monday – Thursday 8:00 AM – 11:05 PM
Friday 8:00 AM – 5:00 PM
Saturday 9:00 AM – 5:00 PM

The College reserves the right to establish and alter the scheduled hours of
administrative office and class meetings. Changes to hours will be posted.

Change of Name or Address
Any change of name or address should be reported to the registrar’s office.
Address changes to report include:

• Local address
• Home address
• E-mail address

If a student’s name changes through marriage or divorce, the change
request must be accompanied by a social security card which reflects the
new name.

Handbooks-Student and Program
City College, in addition to the Catalog, provides students in all programs
with a City College Student handbook. Students enrolled in Anesthesia
Technology, EMS, Surgical Technology and Veterinary Technology receive
a program specific handbook. These specialized handbooks provide
additional programmatic rules and regulations for enrolled students.
Students sign to receipt of the handbooks for their Academic file.

Degrees and Diplomas
Every student who has successfully completed a program of study and
fulfilled all obligations to the College will be awarded a degree and receive
a diploma during annual graduation exercises. Replacement cost for these
documents is $15.00.

Bulletin Boards
Bulletin boards are the property of the school. Students wishing to place
notices on the bulletin boards must submit the notice to the Director of
Education for approval. Upon approval, the notice will be posted on the
bulletin board(s).

Professional Dress Code
Appropriate attire is essential to being a professional in today’s work
environment. Students are encouraged to dress in appropriate school
attire. Some educational programs/departments have specific dress
requirements which are detailed in student handbooks.

Honor Code
Classes and activities at City College are conducted under the assumption
that, as responsible individuals, students will adhere to generally accepted
social standards forbidding plagiarism, cheating, dishonesty, theft, and
defacement of property. Individuals who violate these standards are
subject to disciplinary action, which may include dismissal from the
College (See Student Conduct Policy).

Facilities
Eating and drinking are prohibited in City College labs and classrooms.
The College provides student areas for these activities. Smoking, including
e-cigarettes, is strictly prohibited in all indoor areas of City College.
Smoking is permitted outside in designated areas.

Children on Campus
Minors are not allowed in class sessions or in the library. Unattended
minors are not permitted in any area of the campus.

Parking
Sufficient parking for cars is available at all campuses. Students must have
a visible City College parking permit decal on their vehicle or risk having
their vehicle towed at the owner’s expense.

Use of School Equipment and Property
College equipment and property are not to be removed from the building.
A student wishing to use the equipment may do so during scheduled
lab periods under supervision of a faculty member. (See Student Code of
Conduct Policy).

City College Logos
All City College logos are the property of the college and may not be
reproduced without approval of the President.

Loss of Personal Property
The College does not assume responsibility for the loss of books or other
personal property. However, all faculty and students are instructed to place
all articles found in the “Lost and Found” located in the Library so that they
may be claimed by the owner.

Policy Changes
Students will be notified of any academic and/or administrative policy
changes that happen after the publication of the annual catalog. This will
be done through one or more of the following: posting addendums of
the catalog on the college’s website, notices on campus bulletin board, or
indirect email notices to the email address on file with the college.

Indemnification
The student releases and holds harmless the institution, its employees,
its agents, and representatives from and against all liabilities, damages,
and other expenses which may be imposed upon, incurred by, or asserted
against it or them by reason of bodily injury or property damage which
may be suffered by the student from any cause, while enrolled as a
student in the institution. When students are permitted to participate in
individual or group tests, training, or demonstrations of ability, techniques,
commodities, equipment or procedures relating to course or intramural
activities under the auspices of the College, the student and parties
executing the student enrollment contract authorize participation by
the student and releases the institution, and its officers, agents and employees from any and all responsibility for injury and damage to person or property.

School Closing
In the event of labor disputes or acts of nature (i.e. fire, flood, hurricane, tornado, etc.), the College reserves the right to suspend training at the site affected for a period not to exceed 90 days, or to relocate to a suitable substitute site. In the event the school closes the term may be extended in order to provide sufficient time to complete course/hour requirements.

Alcohol/Drug Possession, Usage and Distribution Policy
In response to the requirements of the “Drug Free Schools and Communities Act Amendments of 1989” (Public Law 101-226) the following will be the policy of City College:

No employee or student of this College shall have in his or her possession, use or distribute any alcoholic beverage or controlled substance (illicit drugs) on College property or in any College activity. Any infraction of this policy will be grounds for immediate dismissal (See Student Conduct Policy).

You can obtain a copy of the complete policy by accessing the following website, http://www.citycollege.edu/student-consumer-information/index.cfm.

Medical Marijuana Policy
City College prohibits the possession and use of marijuana on all of its campuses. Marijuana is not permitted on campus because it remains a drug prohibited by Federal law. Federal legislation prohibits any institution of higher education that receives federal funding from allowing the possession and use of marijuana on campus. In addition, many of the externship opportunities are at medical facilities and/or fire stations who may also view marijuana as a prohibited drug.

Drug tests are a program entry requirement in some programs and marijuana is included in the definition of a positive drug test. A positive drug test will preclude the potential student from matriculation in the college.

Students who violate the college's drug policy prohibiting the use or possession of illegal substances or paraphernalia, including medical marijuana can be subjected to disciplinary action as detailed in the catalog and/or program handbooks.

Drug Abuse Program
In an effort to provide our students with information on drug abuse, the College has materials published by the National Institute on Drug Abuse and other organizations. Brochures are available in the Career Assistance and Development Office. In addition, each campus has information about local resources available to assist in treatment, prevention, and education of drug abuse.

The Fort Lauderdale and Hollywood campus have information on The Starting Place located in Hollywood, FL (954) 925-2225. The Starting Place website states that “The purpose of The Starting Place is to provide education, rehabilitation and referral to those individuals and families whose lives have been adversely affected by behavior problems frequently as a result of substance abuse.” The College also has information on the House of Hope and Stepping Stones, which is dedicated to recovery from alcohol and drug dependency.

The Gainesville campus has information available on Meridian Behavioral Healthcare at 1 (800) 330-5615. The purpose as stated on their website, is “We are committed to enhancing health and wellness for all those with whom we come in contact. Whether you are looking to improve your sense of well-being, gain a performance edge, or deal with a mental illness or substance use issue, we have staff and services to meet your needs. See more at: http://www.mbhci.org”.

The Miami Campus has information available for counseling, rehabilitation and referral programs at the Fellowship House located at 5711 S. Dixie Highway, South Miami, FL 33143. The purpose of the facility, as stated on their website, is “Fellowship House is widely recognized as a model for psychosocial rehabilitation. It has exceeded mandatory compliance and has been recognized for its strengths and exemplary conformance to standards by the Rehabilitation Accreditation Commission. It is currently accredited in Behavioral Health for Psychosocial Rehabilitation programs in the areas of Case Management, Community-Based Rehabilitation, Community Housing, Outpatient Treatment, Day Treatment and Community Employment services.”

Other pamphlets and information are available through the Director of Education on each campus.

Annual Crime Report/Clery Act
The City College Annual Security Report includes statistics for the previous three years concerning reported crimes that occurred on-campus; in certain off-campus buildings or property owned or controlled by City College; and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes institutional policies concerning campus security. You can obtain an electronic or paper copy of this report by contacting the admissions office or by accessing the following web site, http://www.citycollege.edu/student-consumer-information/index.cfm.

Grievance Procedures
City College defines a grievance as any situation arising from a college action which a student deems to cause them academic, financial or emotional distress. A grievance procedure is available to any student who believes a College decision or action has adversely affected his/her status, rights or privileges as a student. The purpose is to provide a prompt and equitable process for resolving student grievances.

Any student who has an academic grievance must follow this procedure:

• A student who has an issue with the decision of a faculty member on grades, attendance or any other issue, must first address the issue to the faculty member.
• If the student is unable to resolve the issue with the faculty member, then the student should elevate the matter to the Program Chair.
• If the matter is still not resolved to the student’s satisfaction, the student may then take the grievance to the Director of Education and complete a written statement (see catalog and/or student handbook for student code of conduct policy).
• The student should ensure that they have all the documentation to substantiate their grievance. The faculty member should also have all their materials to substantiate their position on the student’s grievance.
If the grievance is not resolved, the College’s Executive Director will review it with all parties concerned. The College’s Executive Director’s decision is final.

Students who feel a grievance is not resolved to their satisfaction may refer their grievance to: Executive Director, Commission for Independent Education, 325 W. Gaines Street, Suite 1414; Tallahassee, FL 32399-0400, (888) 224-6684 and/or ABHES 7777 Leesburg Pike, Suite 314N, Falls Church, Virginia 22043 Tel: 703.917.9503; FAX 703.917.4109.

Distance Education students, who have completed the internal institutional grievance process and the applicable state grievance process, may appeal non-instructional complaints to the FL-SARA PRDEC Council. For additional information on the complaint process, please visit the FL-SARA Complaint Process page.

Student Services

Career Assistance and Development

The Career Assistance and Development Office staff offers career assistance to graduates and current students. While City College does not guarantee employment, every effort is made to bring potential employers together with eligible graduates who have the skills employers seek. In addition, we continually seek to form new employer partnerships for part-time jobs, externship opportunities and in field career placements.

The Career Assistance and Development Office staff provides the following services to graduates and current students:

1. Arrange opportunities to meet and interview with prospective employers both on and off campus
2. Assist with writing resumes
3. Practice interview skills with mock interviews
4. Develop job search skills and professional readiness

City College maintains graduate employment information in annual reports that contain comprehensive statistical data covering graduate employment activity. For more information please contact the Director of Career Assistance and Development.

Tutoring

Each City College campus has a Center for Academic Excellence which offers tutoring, and other academic assistance. All services are free of charge. The center is staffed by faculty and student tutors. If a student needs assistance in any course, they should notify the faculty member, the Program Chair or the Director of Education. Regular class attendance is a prerequisite for tutoring.

Student Organizations and Activities

The College does not have an organized program of activities because we realize that our students are here to learn job skills and many are involved with their own families and organizations. The College is willing, however, to help sponsor and encourage activities that may be desired by the student body. The interest and demand will determine the activities held.

All student organizations must secure a faculty sponsor and a letter of approval from the Director of Education before formation. Recognized student organizations must receive permission to use college facilities for approved functions from the Director of Education. The College accounting office is required to audit financial records of any student organization once each year and retains the right to perform audits upon request.

Campaigns and pledge activities should appear on the approved calendar. Signs, banners, and advertising are subject to approval from all sponsors of the group and must have final approval from the Director of Education prior to dissemination. Each campus has an Ambassador Student Association. Each campus also has organizations that the student may seek membership in that are specific to their program. Contact a Program Chair or Director of Education for a list of active clubs.

ABK Honor Society

City College is Kappa Iota of the Florida Chapter of Alpha Beta Kappa Honor Society. The National Alpha Beta Kappa Honor Society was officially established in 1977. The Alpha Beta Kappa National Honor Society seeks to promote and reward personal integrity and excellence in mental and physical work and skills without regard to race, color, sex, creed or national origin. Membership is based on merit.

The qualifications for membership are: excellence in classroom, shop, studio, and laboratory work; leadership and service in class and school activities; and personal integrity and good moral character. All members must have a minimum G.P.A. of 3.5 and less than 10% absenteeism.

Library

The mission of the City College Library Staff is to support and foster intellectual discovery, critical thinking, and lifelong learning. The City College libraries are the centers for information resources related to all program areas. Students and faculty have access to up-to-date information that will assist them in their chosen field of study, and also in becoming life-long learners. The libraries provide both print materials and a full suite of online resources. In addition, the libraries provide students access to printing, photocopying and computers with Microsoft Office and Internet access.

Orientation

A student orientation program is conducted prior to each start date to acquaint new students with the College’s facilities, policies, procedures, to meet the staff, and take care of administrative matters. The orientation also provides new students with the opportunity to meet in a less formal environment prior to the beginning of classes.

In addition to the College’s general student orientation, students enrolled in the Anesthesia Technology, Cardiovascular Sonography, Emergency Medical Services, Surgical Technology, and Veterinary Technology programs are required to attend a separate programmatic orientation.

Housing

Housing is not provided by City College.
Services Available for Students with Disabilities

In compliance with the Americans with Disabilities Act (ADA), City College provides reasonable accommodations to students with professionally diagnosed and documented disabilities. The Executive Director for each campus serves as the ADA Coordinator for that campus.

Policy Regarding Documentation of Disabilities

Students seeking accommodations from City College on the basis of a diagnosis of a disability are required to submit documentation to verify eligibility. Documentation of a disability consists of the providing results of professional testing, evaluation and a written report that addresses specific academic needs of the student. The cost and responsibility for providing this professional evaluation shall be borne by the student. Students with disabilities who are requesting accommodations should make timely and appropriate disclosures and requests, preferably at least six (6) weeks in advance of the class for which accommodation is requested.

The student must provide City College with medical or other diagnostic documentation that confirms their impairment and contains recommendations for specific accommodations. Requests that are not supported by proper documentation may not be approved. The following guidelines are provided in the interest of assuring that the evaluation and report are appropriate for documenting eligibility. Documentation presented to the Executive Director will remain confidential and will not be included in the student’s academic file. The Executive Director is available to consult with diagnosticians regarding these guidelines.

The report should:

- **Be prepared by a professional, within the last three years**, (e.g. licensed psychiatrist, psychologist, or physician) qualified to diagnose the disability.
- **Be comprehensive**. Written reports should be consistent with the diagnostic criteria found in the American Psychological Association: Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition (DSM-IV) or the DSM-IV-TR (Text Revision). A battery of psychological tests and behavior rating scales, a thorough social and educational history and interviews with the student are essential.

- **Be on professional letterhead**, signed by the individual making the diagnosis, and include the following information:
  - How long the diagnostician has treated the student and the date of last contact.
  - Instruments, procedures, and data sources used to diagnose.
  - Current symptoms that satisfy the DSM-IV or DSM-IV-TR criteria and the approximate date of onset.
  - DSM-IV or DSM-IV-TR diagnosis.
  - Treatment being used (e.g. medication, counseling, etc.).
  - How this disorder impacts the student in the postsecondary environment.
  - Diagnostician’s name, title, license number, address, and phone number.

- **Be current**. In most cases, this means within the past three years, and the assessment was completed when the individual was an adult (age 18). Since assessment constitutes the basis for determining reasonable accommodations, it is in the student’s best interest to provide recent and appropriate documentation to serve as the basis for decision-making about a student’s need for accommodation in an academically competitive environment.

- **Present clear and specific evidence**, which identifies the individual’s present level of functioning and how the student’s education may be impacted.

- **State the specific accommodations being requested**.

- **Provide sufficient data to support the particular academic adjustment(s) requested**. The documentation should demonstrate the individual has a disability as defined in the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973.

Academic Policies and Procedures

Course Numbering Guide
City College course numbers consist of a two or three letter alpha prefix followed by a three or four digit course number. The two or three letter alpha prefix identifies the academic discipline (see Course Descriptions). The level is specified by the first digit, as follows: 1 for freshman level; 2 for sophomore level; 3 for junior level; and 4 for senior level. The last two digits are reserved for departmental use in indicating sequence of courses. Online courses are identified by a "D" after the three-digit course number. Laboratory courses are identified by an "L" after the three-digit course number. "C" indicates combined lab/lecture course.

City College participates in the Florida Statewide Course Numbering System (SCNS). SCNS courses have a standardized three-letter prefix followed by a four-digit course number.

Florida's Statewide Course Numbering System
(Section 1007.24, Florida Statutes)

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida’s Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and by participating nonpublic institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions. This information is at the SCNS website at http://scns.fldoe.org.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated courses is referred to as the “SCNS taxonomy.” Descriptions of the content of courses are referred to as “statewide course profiles.”

Example of Course Identifier

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Level Code</th>
<th>Century Digit</th>
<th>Decade Digit</th>
<th>Unit Digit</th>
<th>Lab Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENC</td>
<td>1</td>
<td>1</td>
<td>0</td>
<td>1</td>
<td></td>
</tr>
</tbody>
</table>

English Composition
Lower (Freshmen) Level at this institution
Freshman Composition
Freshman Composition Skills
Freshman Composition Skills I
No laboratory component in this course

General Rule for Course Equivalencies
Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in Exceptions to the General Rule for Equivalency.

For example, a freshman composition skills course is offered by 84 different public and nonpublic postsecondary institutions. Each institution uses “ENC_101” to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, “ENC” means “English Composition,” the century digit “1” represents “Freshman Composition,” the decade digit “0” represents “Freshman Composition Skills,” and the unit digit “1” represents “Freshman Composition Skills I.”

In the sciences and certain other areas, a “C” or “L” after the course number is known as a lab indicator. The “C” represents a combined lecture and laboratory course that meets in the same place at the same time. The “L” represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at a Florida College System institution is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.

NOTE: Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

The Course Prefix
The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses
Section 1007.24(7), Florida Statutes, states:

Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses
are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

Exceptions to the General Rule for Equivalency
Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

a. Courses not offered by the receiving institution.
b. For courses at nonregionally accredited institutions, courses offered prior to the established transfer date of the course in question
c. Courses in the 900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses, and Dissertations.
d. Applied academics for adult education courses.
e. Graduate courses.
f. Internships, apprenticeships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999.
g. Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

Courses at Nonregionally Accredited Institutions
The SCNS makes available on its home page (http://scns.fldoe.org) a report entitled “Courses at Nonregionally Accredited Institutions” that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course’s transfer level and transfer effective date. This report is updated monthly.

Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to the Vice President of Academic Affairs, City College, 2000 West Commercial Blvd. Fort Lauderdale FL 33309 or to the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Reports and technical information may be requested by calling the SCNS office at (850) 245-0427 or at http://scns.fldoe.org.

Unit of Credit
City College awards credit on a quarter system. One quarter credit hour is equivalent to ten (10) class hours of instruction, twenty (20) hours of laboratory study, thirty (30) hours of externship, or a combination of the three with appropriate homework and study. A class hour is fifty (50) minutes.

Grading System
Final grades are issued at the end of each quarter based on the following criteria:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A (90-100)</td>
<td>4.0</td>
</tr>
<tr>
<td>B (80-89)</td>
<td>3.0</td>
</tr>
<tr>
<td>C (70-79)</td>
<td>2.0</td>
</tr>
<tr>
<td>D (60-69)</td>
<td>1.0</td>
</tr>
<tr>
<td>F (below 60)</td>
<td>0.0</td>
</tr>
<tr>
<td>EP (Essentials Pass)</td>
<td>0.0</td>
</tr>
<tr>
<td>ENP (Essentials No Pass)</td>
<td>0.0</td>
</tr>
<tr>
<td>I (incomplete)</td>
<td>0.0</td>
</tr>
<tr>
<td>W (withdrawal)</td>
<td>0.0</td>
</tr>
<tr>
<td>S (satisfactory)</td>
<td>0.0</td>
</tr>
<tr>
<td>T (transfer credit)</td>
<td>0.0</td>
</tr>
<tr>
<td>P (pass)</td>
<td>0.0</td>
</tr>
<tr>
<td>NP (no pass)</td>
<td>0.0</td>
</tr>
</tbody>
</table>

The number of quality points awarded in a course is determined by multiplying the number of credit hours for that subject by the number of quality points earned in the course. The grade point average (GPA) is computed by dividing the total number of quality points by the total number of credit hours attempted. Grades of "W," "S," "P," "NP," "I," and "T" are not used in the GPA calculation.

Individual progress records are permanently maintained by the College for each student. All grades awarded by faculty are included in the record and are available to the student. Grade reports are issued to the student each quarter. A student may appeal a final grade within the first week of the following quarter.

Incomplete Grade
An "I" or incomplete grade is given when a student has not completed the work necessary for one of the above grades. In order to receive an incomplete grade the student must submit a written request by completing an Incomplete Grade Request Form. This form must be signed and approved by the appropriate Program Chair. The student has two weeks from the end of the term to complete the work. If it is not completed, the student may receive an "F" for the course. The final grade/credits attempted will be included in the maximum time frame for program completion.

All change of grades and incomplete grades must be completed by the end of drop/add week.

Transfer Courses
A "T" grade is given to students whose courses were taken at another institution and are being transferred in for required courses at City College. The grade of "T" has no effect on the student’s overall grade point average or successful completion of courses. However, a "T" grade is added to hours attempted and earned within the specified maximum time frame.
**Advanced Standing for Professional Life/Work Experience**
A grade of "S" is given for the appropriate City College course, and the student is credited with having earned this curriculum requirement. The grade of "S" has no effect on the student's cumulative grade point average or successful completion of courses. However, the grade of "S" is added to hours attempted and earned within the specified maximum time frame (See Advanced Standing policy).

**Course Prerequisites**
Courses may have prerequisites. Prerequisites may be waived by the Director of Education on an individual basis.

**Course Cancellation**
The College reserves the right to cancel any classes which do not have a minimum number of students enrolled. The College will notify the student by email, public posting (Facebook, bulletin board) or telephone call (voice or text). If the College cancels any class which was part of a program of study for an existing student, the College will offer an appropriate substitution which will enhance the educational objective for the student involved. All course substitutions made in a student's program of study must be approved by the Director of Education and documented in writing in the student's permanent file.

**Auditing Classes**
New students may be permitted to audit a class for the first week. This will only be approved by the Director of Education when Financial Aid requirements have not been completed and are preventing the student from being enrolled in classes. The student must have proof of graduation and have met the placement requirements.

**Residency Requirement**
In order to earn a degree from City College, City College requires that a certain percentage of courses be completed at City College, which is referred to as 'residency.' Students must complete the following percentage of courses in residency at City College. This does NOT include Advanced Credit for Life Experience or Advanced Standing by Examination as those credits are included in the percentage granted for Transfer Credit:

- Fifty percent (50%) when pursuing an AS degree
- Forty percent (35%) when pursuing a BS degree

**Externships**
Externship sites may have specific health related requirements that students must adhere to that exceed the programmatic medical requirements for admissions to City College. Please refer to the student handbook for the program for more detailed information on the requirements the student may experience that are beyond the programmatic medical requirements for admission to City College.

**Graduation Requirements**
The candidate for a degree must:
1. Successfully complete all specified requirements for the degree.
2. Earn a cumulative grade point average of at least 2.0, "C" average. (Emergency Medical Services students must earn a minimum grade of B in all Major Core courses and a C or better in all general education courses, effective Oct. 2, 2006.)
3. Achieve a specific level of performance in each skill area required for graduation.
4. Be free from all indebtedness to the College

Students cannot walk in the graduation ceremony if they have not met the requirements for graduation in their program.

**Graduation with Honors**
Students who meet the requirements for graduation with an Associate's or Bachelor's Degree, and whose cumulative grade point average meets the following criteria, are conferred their degrees with the honors indicated. Cumulative Grade Point Average for Honors:

<table>
<thead>
<tr>
<th>Degree Level</th>
<th>Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summa Cum Laude</td>
<td>3.90-4.00</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.70-3.89</td>
</tr>
<tr>
<td>Cum Laude</td>
<td>3.50-3.69</td>
</tr>
</tbody>
</table>

**Complete Status**
A completer is a student who is no longer enrolled in the campus and who has either completed the time allowed or attempted the maximum allowable number of credits for the program of study but did not accomplish one of the following graduation requirements:
1. Achieve a GPA of at least 2.0.
2. Attain required competencies or skills.
3. Satisfy non-academic requirements.

**Awards and Recognition**
Understanding that exceptional academic achievement is earned and should be recognized, the College awards individual letters or certificates each quarter for the following:

- President's List - 3.90-4.00 term grade point average
- Director's List - 3.70-3.89 term grade point average
- Outstanding Academic Achievement - 3.50-3.69 term grade point average
- Perfect Attendance

**Transcripts**
An official transcript is provided to any student who requests one in writing and is free of indebtedness to the College. The first copy is free of charge. Additional copies will be issued for a fee. Please refer to the schedule of fees for the cost.

**Attendance Policy**
Students are expected to attend all scheduled classes regularly and on time in order to achieve the learning goals for their program of study. In an online class the student is expected to log in daily and must do an activity at least twice a week. Excessive absenteeism may result in course failure or withdrawal from the institution.

Any student who does not attend classes for 14 consecutive calendar days may be removed from enrollment and dropped from all courses for that quarter. Students who are removed from enrollment prior to the last day of Week 6 will earn a W on their transcript. A "W" will have no impact on a student's CGPA, but will be computed in a student's maximum time frame calculation. Students who are removed from enrollment after Week 6 will earn an F on their transcript. An "F" will have an impact on a both a student's CGPA and maximum time frame calculation. Removal from enrollment may place a student on probation or in academic dismissal status. A student who is removed from enrollment for the quarter for failure to attend classes for 14 consecutive days may be permitted to apply
for re-entry in the subsequent quarter, provided that the student is in good academic standing. Students removed from enrollment who seek re-entry in a subsequent quarter will be required to follow all re-entry guidelines.

Mid-Quarter start attendance - Students must attend classes no later than the second week of each mid-quarter.

**Leave of Absence**

The College recognizes that personal situations may arise which may require an extended period of time to resolve. It would not be advantageous to the student to maintain continuous enrollment when conflicting pressures prevent regular attendance. A student must submit a Request for Leave of Absence form, available in the office of the Registrar and/or the Director of Education. The Leave of Absence must be approved by the Director of Education and other college officials as designated on the request form.

The Director of Education will notify the student whether or not the Leave of Absence is approved. Only one Leave of Absence will be approved in a twelve (12) month period. The leave of absence may not exceed one (1) quarter.

A Leave of Absence, instead of a formal withdrawal, indicates that the student sincerely intends to resume his/her education at a specified time.

Criteria for Leave of Absence:

a. A student must complete the quarter and have at least one passing grade.

b. Student cannot be on probation.

A student must be aware and fully responsible for the fact that the courses needed in his/her program may not be offered in the term(s) in which s/he returns. This may result in an extension of his/her program time. If a student does not return to school at the end of the designated Leave of Absence, they will be withdrawn as of their last date of attendance. The College does not guarantee that upon return, the courses which a student needs will be offered or available. The College will make every attempt to place a student into scholastically appropriate courses to keep the student on track to graduation. However, this is not guaranteed.

**Students Receiving VA Educational Benefits**

**Veterans Attendance Policy**

Students receiving VA Educational benefits are expected to attend all scheduled classes regularly and on time in order to achieve the learning goals for their program of study. In an online class the student is expected to log in daily and must do an activity at least twice a week. Excessive absenteeism may result in course failure or withdrawal from the institution.

Any students receiving VA Educational benefits who does not attend classes for 14 consecutive calendar days (missing 20% of the course consecutively) may be removed from enrollment and dropped from all courses for that quarter. Students who are removed from enrollment prior to the last day of Week 6 will earn a W on their transcript. A "W" will have no impact on a student's CGPA, but will be computed in a student's maximum time frame calculation. Students receiving VA Educational benefits who are removed from enrollment after Week 6 will earn an F on their transcript. An "F" will have an impact on a both a student's CGPA and maximum time frame calculation. Removal from enrollment may place a student on probation or in academic dismissal status. A student who is removed from enrollment for the quarter for failure to attend classes for 14 consecutive days (20% of enrollment consecutively) may be permitted to apply for re-entry in the subsequent quarter, provided that the student is in good academic standing. Students removed from enrollment who seek re-entry in a subsequent quarter will be required to follow all re-entry guidelines.

Mid-Quarter start attendance - Students receiving VA Educational benefits must attend classes no later than the second week of each mid-quarter.

**Standards of Satisfactory Progress for Students Receiving VA Educational Benefits**

In addition to adhering to the general standards of satisfactory progress, students receiving Veteran's Administration (VA) educational benefits (VA students) must maintain a minimum cumulative grade point average (CGPA) of 2.0 at the end of each term. In terms 1 through 5 a VA student who falls below a 2.0 will be put on academic probation. If in the following term they still have not achieved a 2.0 they will be placed on a second and final academic probation. Failure to achieve a 2.0 at the end of the second consecutive term of academic probation will result in the student's VA educational benefits being terminated. In terms 6 and all subsequent terms, a VA student must meet the City College SAP requirements and achieve a 2.0 or may be academically dismissed from the program. A VA student terminated from VA educational benefits due to unsatisfactory progress may petition the institution to be recertified to receive VA educational benefits after one term has elapsed and after attaining a CGPA of 2.0. Students using veteran benefits must consult with the Director of Education for advisement prior to changing programs of study.

**Veterans Credit for Previous Education or Training**

City College maintains a written record of the previous education and training of all students receiving VA Educational benefits. City College also documents that appropriate credit has been given for previous education and training in accordance with the City College transfer of credit standards, (see Transfer of Credit policy) with the length of program adjusted accordingly. Students receiving VA Educational benefits will receive transfer of credit (provided that the college can obtain those transcripts from those institutions), regardless of whether or not the student wants that credit transferred; and, provided that it falls within the acceptable City College transfer of credit timeframes for specific programs and courses (core program courses must have been taken within the last five years to qualify for transfer of credit).

**Veteran Advising, Scheduling and Registration**

Priority is given to Students receiving VA Educational benefits for academic advising, registration and scheduling.
Veteran Payment
In accordance with Title 38 US Code 3679 subsection (e), this college adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation & Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. The college will not:

- Prevent the student’s enrollment;
- Assess a late penalty fee to the student;
- Require the student to secure alternative or additional funding;
- Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

Standards of Satisfactory Progress

Students enrolled at City College must be making measurable progress toward the completion of his or her program of study. The College has established satisfactory academic progress (SAP) standards that stipulate students must achieve (a) a minimum cumulative grade point average (CGPA), according to a prescribed schedule of evaluation points, and (b) complete their programs of study within a maximum time frame (MTF) that is one and one-half times the number of credit hours required for his/her program of study. Standards of satisfactory academic progress, as defined in this catalog, apply to all students. Failure to maintain in SAP may result in loss of financial assistance.

EMS Programs
In addition to adhering to the general Standards of Satisfactory Progress, (CGPA and MTF), students majoring in Emergency Medical Services must achieve and maintain (a) a minimum grade of B in all Major Core courses and (b) a minimum grade of C in all general education courses. Students must also adhere to the rules for repeated courses, “Three Strike Rule.” Extended Enrollment does NOT apply to students in EMS who violate the Strike Rule.

Veterinary Technology Program
In addition to adhering to the general Standards of Satisfactory Progress, (CGPA and MTF), students majoring in Veterinary Technology must maintain a minimum grade of C in all Major Core courses. A student in this program must also adhere to the rule regarding repeated courses.

Bachelor Degree Programs
Bachelor degree programs, due to transfer credits, are considered as starting in the 7th term or later and therefore no probationary status will occur. If the student does not meet the required CGPA and/or completion minimum they will be dismissed.

Evaluation Points
Satisfactory academic progress is measured at the end of each quarter.

Academic Year (AY)
An academic year is defined as a period of time beginning with the first day of classes, ending on the last day of examinations and is a minimum of 33 weeks of instructional time.

Maximum Time Frame
You must be on target to complete your program before attempting more than 150% of the credit hours for your program of study. To calculate maximum time frame for your program you multiple the total credits required to complete the program by 1.5. Transfer, withdrawn, incomplete, repeated credit hours all count towards maximum time frame.

Essential Courses
Essential courses have been developed to assist the student in eliminating deficiencies in English, Math and Reading. These courses are in addition to, and do not fulfill, requirements for any program of study. These courses are graded on a Pass/No Pass basis and are not computed in a student’s grade point average or maximum time frame. Students receiving financial aid are limited to attempting 36 credit hours in Essential courses. Essential courses cannot be waived. Exceptions are at the discretion of the Director of Education. Essential courses may be taken no more than two times.

¹ A student not meeting standards does not have to be dismissed; probation is required.
² A student not meeting standards is not eligible for financial aid and must be dismissed or may remain in an extended enrollment status; probation is not allowed at this point.

Academic Probation
Student has not met the stated minimum requirement of academic progress, but is being allowed a term to correct the academic issues of either CGPA and or MTF in order to meet the SAP requirement and remain eligible for enrollment.

Academic Dismissal
Student has failed to meet the stated minimum requirement of academic progress and is being academically dismissed from the program. A student may be academically dismissed without being placed on probation or after the probationary period based on when they fall below the minimum SAP requirements (See Eligibility for Extended Enrollment).

Standards of Satisfactory Progress for Students Receiving VA Educational Benefits
In addition to adhering to the general standards of satisfactory progress, students receiving Veteran's Administration (VA) educational benefits (VA students) must maintain a minimum cumulative grade point average (CGPA) of 2.0 at the end of each term. In terms 1 through 5 a VA student who falls below a 2.0 will be put on academic probation. If in the following term they still have not achieved a 2.0 they will be placed on a second and final academic probation. Failure to achieve a 2.0 at the end of the second consecutive term of academic probation will result in the student’s VA

32 | Academic Policies and Procedures/Standards of Satisfactory Progress
educational benefits being terminated. In term 6 and all subsequent terms a VA student must meet the City College SAP requirements and achieve a 2.0 or may be academically dismissed from the program.

A VA student terminated from VA educational benefits due to unsatisfactory progress may petition the institution to be recertified to receive VA educational benefits after one term has elapsed and after attaining a CGPA of 2.0. Students using veteran benefits must consult with the Director of Education for advisement prior to changing programs of study.

Academic Changes that will Impact Calculations to Satisfactory Academic Progress (SAP):

Dropping or Adding Courses
The first week of each quarter, including mid-quarter, is add/drop period. Students may officially withdraw from class during add/drop period without punitive grades or financial obligations for the classes dropped. Please note that students may withdraw from an online course during the official add/drop period but they may not add online courses. Students must register for online courses a minimum of five days prior to class start (see Online Course Requirements). See the section Course Withdrawals for additional information.

Grade Penalty
For a student who totally withdraws from the College or is dismissed by the College, the withdrawal date or last documented educational activity determines whether or not grades are recorded for that quarter. If the withdrawal date or last known educational activity is within the first half of the course, a grade of "W" is given. If the withdrawal date or last known educational activity occurs within the last half of the course, the student will receive a grade in each course. An "F" will be assigned to each requirement that is not completed and averaged in with the grades earned for completed work.

Transfer Courses
A "T" grade is given to students whose courses taken at another institution are being transferred in for required courses at City College. The grade of "T" has no effect on the student's overall grade point average or successful completion of courses. However, a "T" grade is added to hours attempted within the specified maximum time frame.

Course Incompletes
A student who receives an "I" (incomplete) has two weeks from the end of the term to complete the work. The final grade will be calculated into the student's cumulative grade point average. The final grade/credits attempted will be included in the maximum time frame for program completion.

Change of Program
Any City College student who desires to change educational goals and change from one degree program to another must submit a Change of Program Request Form together with a new Enrollment Agreement and application to the Director of Education and Director of Financial Aid. A student wishing to enter a program for which a degree would be granted must meet the programmatic entry requirements and qualifications specifically intended for the granting of a degree. A request for a change of program will be approved if the student:

a. Is capable of showing success within another program based on the original entrance/placement test scores
b. Has grades in courses already completed
c. Has other considerations (i.e. financial obligation incurred)

Students who change programs should consult with their Financial Aid representative to determine if they will have sufficient funds available to complete the new program of study. If the request for a change of program is approved, the student making the request will be informed of the change as soon as possible, with approval effective at the beginning of the next quarter. Students should complete their current term.

Upon approval of the Change of Program request, ALL previously attempted and earned credits which apply to the new program, Transfer (T) and Advanced standing (S) courses which count towards the new program completion requirements will be transferred. All credits attempted and grades earned in the student's new program of study will count towards determining satisfactory academic progress and will be calculated within Maximum Time Frame.

Punitive grades earned under the previous program which do not apply to the current program will no longer be calculated within the students CGPA or Maximum Time frame and the student will be allowed to re-set both their MTF and CGPA. Because a Change of Program re-sets a student's CGPA and MTF, students may only request one change of program. If for any reason a student wishes to do a 2nd program change, they will need to file an appeal with the Director of Education on the campus, stating why they should be allowed to have a 2nd change. A committee consisting of the Director of Education, Director of Financial Aid, and the new Program Chair will determine if the student's appeal will be granted. If the campus grants the appeal (two of three vote to approve), then their recommendation will be submitted to the Vice President of Academic Affairs for final approval or denial.

Repeated Courses
Students may repeat coursework as necessary to meet academic requirements. A student may repeat courses for which an "I," "D," "C," or "W" was earned. When a student repeats a course for the purpose of raising a failing grade, the highest grade will be used in calculating the student's cumulative grade point average. However, all courses taken are calculated into credit hours attempted for the purpose of the student's Maximum Time Frame (MTF) for completion and remain on a student's transcript. Financial aid may be received as long as all other eligibility requirements are met.

A student making a grade of "D" may advance if desired. It’s recommended, however, that the course be repeated if it is in the student's major area of study. Courses that are taken and then retaken are both counted towards attempted hours, and the highest grade will be used in calculating the student's CGPA.

EMS and Veterinary Technology Repeated Courses
Repeated Courses in EMS - “Three Strike Rule”
A minimum of a "B" is required to pass ALL core courses in the Emergency Medical Services program. A grade of "C," "D," "F," or "NP" is considered
unsatisfactory and therefore non-passing. No more than 2 core courses may be repeated in the EMS program. Only one repeat of any core course may be attempted. A second failure of the same course or failure of a 3rd course will result in dismissal from the program. Receiving an unsatisfactory or non-passing grade will affect the student's progression to any course for which that course is a prerequisite. EMS students cannot advance in their programs with a grade of NP. Students who are dismissed for a violation of the three strike rule are not eligible for extended enrollment status.

Repeated Courses in Veterinary Technology
A minimum grade of a “C” (70%) is required to pass ALL core courses (labeled ATE) in the Veterinary Technology program. A grade of “D,” “F,” “NP,” or failure to achieve minimal objectives for the course is considered unsatisfactory and therefore non-passing. A student who receives a non-passing grade will be required to repeat the course(s). The student must receive a “C” or better in the repeated course. A second failure of the same course will result in dismissal from the program. A third and final attempt at the same course may be granted if a student appeals the dismissal and documents extenuating circumstances to the Program Chair. Receiving an unsatisfactory or non-passing grade will affect the student's progression to any course for which that course is a prerequisite.

Second Degree
Students who wish to earn another degree must apply for admission to the College. Upon acceptance to the College, courses which count toward the new degree program completion requirements will be transferred. A student may only transfer courses with a final grade of “D” or higher. Credits attempted and grades earned in the student’s new program of study will count toward determining satisfactory academic progress. The College does not offer dual majors.

Academic Withdrawal, Probation and Dismissal Policies

Course Withdrawals
Students may officially withdraw from class during the add/drop period (first week [7 days] of each term, including mid-quarter) without punitive grades or financial obligations for the classes dropped. The last day of physical attendance (LDA) determines whether or not grades are recorded for the quarter. If the LDA is within the first half of the course, a grade of "W" is given. If the LDA occurs within the last half of the course, the student will receive a final letter grade in each course. The grade of "W" has no effect on the student's cumulative grade point average or successful completion of courses. However, the grade of "W" is added to hours attempted within the specified maximum time frame.

Hybrid students must contact the Registrar of their on-ground campus to withdraw from an online course. Online only students must contact the Student Online Coordinator or Online Registrar to withdraw from an online course.

Voluntary Withdrawal from City College
A student must officially withdraw from the College. A student who wishes to withdraw is required to inform the institution in writing of his/her intention to withdraw. Such request must be presented in writing (mail, email or fax) or in person. The last day of physical attendance (LDA) determines whether or not grades are recorded for the quarter. If the LDA is within the first half of the course, a grade of "W" is given. If the LDA occurs within the last half of the course (through week 6), the student will receive a final letter grade in each course. The grade of "W" has no effect on the student's cumulative grade point average or successful completion of courses. However, the grade of "W" is added to hours attempted within the specified maximum time frame.

Academic Probation and Academic Dismissal
Students who fail to earn the required Cumulative Grade Point Average (CGPA) and/or the required completion percentage of credit hours will be counseled and placed on Academic Probation. The probationary period extends for one quarter. While on probation, Title IV funds will be disbursed. At the end of the probationary period, the student's CGPA and credit hours earned are again reviewed using the minimum standards of satisfactory academic progress. If the student’s average and credit hours earned equals or exceeds the required minimum, the student is removed from probation. If the student's average and credit hours earned are below the required minimum, the student will be deemed not making satisfactory progress as of the end of the quarter. At this time, his/her Title IV financial aid will be terminated, and the student will be academically dismissed.

Students placed on Academic Probation or Academic Dismissal will be notified in writing from the Director of Education with a copy placed in the student’s permanent academic file. A student who has completed two academic years (six quarters) and then falls below the minimum standard is not eligible for academic probation at that point. It is possible for a student to be academically dismissed without first being placed on probation. In this case, the student may request extended enrollment status.

Financial Aid Warning and Probation
Financial Aid Warning is assigned to a student who fails below the satisfactory academic progress guidelines. The student is placed on financial aid warning for one term and is eligible to receive financial aid. At this point the student is placed on Academic Probation.

Financial Aid Probation is assigned to a student who fails to meet satisfactory academic progress after one term on academic probation. If the student successfully appeals academic dismissal and academic probation is extended for one term with an academic plan to bring them into satisfactory academic progress. Financial aid will be disbursed. In both instances the student will be notified in writing by mail or email of their financial aid status.

Administrative Withdrawal/Dismissal from the College
All students are expected to maintain a satisfactory level of academic achievement, to conduct themselves as responsible adults, and to attend classes regularly. The College reserves the right to dismiss any student who:
1. Fails to maintain satisfactory academic progress.
2. Exhibits conduct the administration deems detrimental to the individual, other students, the community, or the College.
3. Fails to meet attendance requirements.
4. Fails to meet financial obligations to the College as agreed upon.

Specific standards of academic progress and class attendance are detailed in the sections of this catalog (see Standards of Academic Progress and Student Code of Conduct Policy).
EMT Licensure and EMS Academic Dismissal
Any EMS student who fails to attain Florida State EMT licensure prior to enrollment in Paramedic II courses will not be allowed to continue enrollment. A copy of a student’s EMT license must be on file once they have achieved licensure. An EMS student who has not achieved licensure may choose to take one quarter of LOA in order to achieve licensure.

An EMS student must achieve Florida State EMT licensure EMT licensure within one year of completing EMT II. Failure to do so will mean that the student will have to re-start the program and repeat all EMS program courses (with the exception of EMS1010 and EMS1153). Students who will be in violation of the Maximum Time Frame (MTF) will not be allowed to re-start the EMS program and will become an administrative dismissal. Students must follow City College policy to reenter City College in a different program.

Reentry Policies: Re-Entry, Extended Enrollment, Financial Aid Probation Reentry

Students who left the institution in good standing and wish to reenter in the same program or a different program must meet the current requirements for entry into the program.

EMS Reentry
A student who wishes to reenter the EMS program after previously withdrawing must:

- Have an active, clear EMT license to start the Paramedic portion of the curriculum
- An EMS student who has been out of school for an academic year is required to re-start the incomplete segment of the EMS program.
  a. If the student stopped attending prior to completing EMT1 or EMT2, the student must start again at EMT1.
  b. If the student stopped attending in any of the Paramedic I-V classes, the student is required to begin again at Paramedic I

Reestablishing Eligibility for Reentry After Academic Dismissal
There are two ways in which a student may return to enrollment status after Academic Dismissal: Extended Enrollment or Financial Aid Probation

Extended Enrollment Status
Students not achieving the minimum standards of satisfactory academic progress or who fail to meet the minimum standards at the end of the probationary period will be terminated from the College. Students may enroll in an extended enrollment status for one quarter in the term immediately following their dismissal to attempt to earn eligibility for reentry. Students in an extended enrollment status will be charged the appropriate tuition and fees but will not be eligible for any Title IV financial aid. While in this extended enrollment status, students must attempt to correct their academic deficiencies. The extended enrollment status must be completed within the required maximum time frame. The conditions for extended enrollment status will be agreed upon in writing by the student and the academic department.

EMS students who are dismissed for a violation of the three strike rule are not eligible for either extended enrollment or financial aid probation status.

Financial Aid Probation
To reestablish eligibility for reentry, a student must remain out of school for at least one quarter and the student must be eligible to be on probation at the time of re-entry. If the student is not eligible for probationary status as defined in Satisfactory Academic Progress the student may be eligible for Financial Aid Probation. Financial Aid Probation is assigned to a student who fails to meet satisfactory academic progress after one term on academic probation and is then academically dismissed. If the student successfully appeals academic dismissal and academic probation is extended for one term with an academic plan to bring them into satisfactory academic progress, Financial aid will be disbursed. In both instances the student will be notified in writing by mail or email of their financial aid status.

Upon applying for readmission, the student must have the approval of, and have been counseled by the Director of Education. Counseling will include identifying areas of academic weakness, the student’s desire and motivation to continue, and review of tutoring available to student. Transferring to a new City College campus does not change the requirements listed below.

Academic Dismissal Appeal Procedure
Students wishing to appeal the determination that they are not maintaining satisfactory progress must submit a letter to the Director of Education within five (5) calendar days of the date of their official notification. The letter should describe any mitigating circumstances that the student feels deserve further consideration, along with pertinent documentation. The letter must demonstrate that such circumstances had an adverse impact on the student’s satisfactory progress in the academic program. A decision on the appeal will be made, and the student will be notified accordingly. If the appeal is decided in the student’s favor, the probationary period will be extended for one quarter and will be placed on financial aid warning and Title IV funds will be disbursed. Decisions to appeal will be provided prior to the next quarter start. If the minimum requirements for satisfactory academic progress are not attained at the end of the second term of probation, the student will be academically dismissed.

Students coming back into the same program
The student’s Satisfactory Academic Progress must be such that they may be placed on probation. The student must establish a repayment plan and is ineligible for Title IV funds upon reentry. The student must successfully retake courses previously failed or upgrade the skills applicable to the student’s educational objective, so that the recalculated CGPA and earned credit hours meet or exceed the minimum requirements to meet Satisfactory Academic Progress and come off of probation. At the end of the first quarter after re-entry, if the student has demonstrated improvement to the required minimum SAP, she/he will be removed from probation and will be eligible for Title IV funds for the entire payment period in which she/he established eligibility. If she/he has not reached the minimum requirement, the student will be academically dismissed and will not be eligible for readmission.

Students coming back into a new program
A student may also reestablish eligibility by enrolling in a new program of study. Upon reentry into a new program, the student is eligible for Title IV financial aid. Students may only request one curriculum change; therefore, if a student has previously changed their major, they are not eligible for
re-entry. For a student’s recalculated SAP under this new program, only credits (grades of “D” and higher) which transfer into the new curriculum will be considered as part of the new maximum time frame and CGPA. Previous Fs and Ws will no longer calculate in a student’s new CGPA. Upon approval for re-entry into a new program, the student may be placed on probation based on recalculated CGPA and MTF.

Academic Appeals Process

Final Course Grades Appeal Procedure
Appeals of final course grades must be made within five (5) calendar days of the date when the grade becomes final (posting in the student portal). The Director of Education may direct a grade to be changed only when it is determined through the appeal process that a final grade was influenced by any of the following:

1. A personal bias or arbitrary rationale;
2. Standards unrealistically different from those that were applied to other students;
3. Grading was not in compliance with stated course syllabi;
4. A substantial, unreasonable, or unannounced departure from previously articulated standards;
5. The result of a clear and material mistake in calculating or recording grades or academic progress. (See the City College Student Handbook for further information).

Mitigating Circumstances
Mitigating circumstances would include personal injury, poor health, family crisis, or other unusual and significant occurrences outside the control of the student. The Director of Education may waive dismissal and extend probation for mitigating circumstances.

Privacy Rights of Students

Confidentiality is maintained according to the Family Education Rights and Privacy Act (FERPA) of 1974 (otherwise known as the Buckley Amendment). The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their children’s education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are “eligible students.”

• Parents or eligible students have the right to inspect and review the student’s education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.
• Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.
• Generally, schools must have written permission from the parent or eligible student in order to release any information from a student’s education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):

- School officials with legitimate educational interest.
- Other schools to which a student is transferring.
- Specified officials for audit or evaluation purposes.
- Appropriate parties in connection with financial aid to a student.
- Organizations conducting certain studies for or on behalf of the school.
- Accrediting organizations.
- To comply with a judicial order or lawfully issued subpoena.
- Appropriate officials in cases of health and safety emergencies.
- State and local authorities, within a juvenile justice system, pursuant to specific State law.

Directory Information
City College complies with Federal Regulations regarding privacy rights of students. We may disclose, without written consent, “directory” information which we consider to be the student’s name, address, telephone number (including cell phone number), date and place of birth, honors and awards, photograph, and dates of attendance.

Parents and students are notified annually of their rights through inclusion in the student handbook and the College Catalog. Parents and eligible students may request that the school not disclose directory information about the student by contacting the registrar at the campus they attend.

City College Online Policies and Procedures

City College is authorized under State Authorization Reciprocity Agreement ("SARA"). SARA pertains to approval of distance education courses and programs offered across state lines by postsecondary institutions that already have degree authorization in at least one state. SARA centralizes the authorization process for each institution in a single state called the institution’s “home state.” Colleges or universities in a SARA state therefore only need their home state authorization to offer distance education to students in any other SARA member state, subject to certain limitations. Colleges and universities that are SARA members may provide online education to residents of SARA member states Currently California, Guam and American Samoa are not part of SARA and students residing in these states/territories will not be eligible to apply for City College courses/programs.

City College offers online, blended and residential programs. For fully Online programs, City College only accepts students who reside in SARA member states. For our hybrid students (onground students taking an online course), we are able to supplement our traditional campus-based curriculum and programs with online courses. Online courses are not required but are an option. Students who wish to complete courses online courses must be aware that successful completion of online courses depends heavily upon self-motivation as well as technical proficiency in computer and internet use. In addition, students must possess good English and writing skills as well as effective time management.

**On ground students registering for online courses must have successfully completed at least one academic term at the College or provide evidence of successful online enrollment previously.

None of the City Colleges’ current online programs require certification.
and there are no barriers based on online education which preclude students of SARA member states from completing their education or gaining employment. However, if students move to a non-SARA approved state, this may adversely impact the student’s ability to complete the program or gain employment in field.

Online Course Requirements
1. Prior to registration for their first online course, students must complete City College’s Online orientation to ensure that they understand the technology necessary for success and the rigor of an online course. Students who do not successfully complete the orientation may re-take this for enrollment in a subsequent quarter.
2. Students must have their own computer that meets the minimum online technology requirements.
3. Students must have high-speed Internet access. City College online courses require a broadband connection.
4. Students must have an e-mail address.
5. On-ground students taking online courses (hybrid students) must complete 50% of the total number of courses within a degree program on campus, via residential delivery.

Course Cancellation
City College online requires that there is a minimum number of students in an online course. In rare circumstances, the College may cancel an online course on the first day of class due to low enrollment. The College will notify the student by email, public posting (Facebook, bulletin board) or telephone call (voice or text). Every effort will be made to move students to either another online course which meets their educational requirements or a similar class for hybrid students. Even if a student has logged into the online environment prior to course start, the student will incur no financial liability if the course is cancelled.

Guidelines for Online Enrollment
Both Hybrid and online only students MUST be registered for online classes a minimum of five days prior to the start of the term. City College has a rigorous online educational platform which requires that students are motivated and self-driven to be successful within courses. There is substantial reading, research, collaborative learning, and writing activities that students must complete in a timely manner. As such, City College uses the following guidelines for enrolling online students.

Hybrid Students
On-ground students who have completed at least one quarter at City College may enroll in an online course. This requirement may be waived by the Director of Education and approved by the Online Director. Hybrid students can take a maximum of two online courses in a term in addition to their on-ground classes.

Students Enrolled in Online Programs
Online only students can take a maximum of three online courses (12 credits) in a single term.

City College Online Classroom Policies

City College Online Weekly Schedule
City College online classes have a duration of 11 weeks. Students are required to participate each week in order to maximize their learning potential and to receive both attendance and assignment points. The City College online week begins the first day of the term.

Conduct Policy for Classes
In the City College online classroom, students will submit assignments and post comments within threaded discussions and answer reflection questions. This is an educational platform and students are expected to behave accordingly and use education appropriate language and standards at all times. When commenting on other students work or assignments, care should be taken to be respectful even when challenging or disagreeing with someone.

Late Work
City College online requires that students post assignments no later than the due dates. If an instructor decides to accept a late assignment because the student has demonstrated verifiable mitigating circumstances such as death, illness, unplanned event, natural disaster, and/or technical issues, late work will have 10% of the grade deducted for each day that the assignment is late. No late assignments will be accepted without prior approval from the instructor.

Verification of Identity During Examinations
Students may be asked to provide directory information (student numbers, special passwords, etc.) during a test for verification of student identity.

City College Usage Report
City College online monitors each students activity within the online classroom. City College has a usage report which faculty and administrators can use to determine the dates and length of time student spends in the online classroom.

Technology Requirements for City College Online Courses

Computer Operating Systems
- Windows XP Service Pack 2 (Home Edition and Professional)
- Windows Vista Windows 7
- Mac OS X 10.5.x and above

Computer Processor Speeds
There is no specific RAM or CPU speed requirement for client machines; however, as with any Internet application, the slower the computer, the slower pages and tools will load.

Supported Web Browsers
Microsoft Windows operating system:
- Google Chrome 10 +
- Firefox 7.0.x +

Mac OS operating system:
- Safari 4 and above
- Firefox 7.0.x +
- Google Chrome 10 +

Internet Connection
- High Speed Internet (Cable, DSL, etc.)

Flash and Java Plug-ins
Embedded videos and document preview may require Adobe Flash Player to view. Be sure to keep your version of Flash up to date.
Student Code of Conduct Policy and Academic Integrity

City College recognizes its students as responsible and capable adults and citizens preparing for a career. Students are, therefore, expected to conduct themselves appropriately during their education process in accordance of what will be expected of them upon graduation and entering the workforce. The City College Student Code of Conduct Policy applies to all students and student organizations endorsed by City College. The Student Conduct Policy shall apply to all student conduct that occurs on a City College campus and/or an event sponsored by City College, inclusive of externships and clinical sites. At the discretion of the Executive Director and/or the Director of Education or his or her designee, the policy shall also apply to off-campus student conduct when the conduct, as alleged, adversely affects a substantial college interest and potentially violates a campus policy.

Please refer to the Student Handbook for the complete Code of Conduct Policy.

Anti-Hazing Policy

It is the policy of City College that there will be no initiations (hazing) connected with any College-sponsored club/organization. All clubs/organizations formed by City College students must be approved by the Director of Education and are under the strict auspices of a staff or faculty member. Any deviation from this policy may result in immediate dismissal.

Definition of Terms

Academic Integrity

City College defines Academic Integrity as a code of ethics governing honesty in a student’s pursuit of scholarly research and application. As such, infractions of City College’s Academic integrity policy are deemed to be a form of academic dishonesty.

Suspension

Suspension is at the discretion of the Director of Education, Executive Director or the Disciplinary Appeals Panel. Suspension should not exceed two academic quarters. Students who are suspended are not eligible for a Leave of Absence and upon application for reentry to City College must pay the $100 Re-start fee.

Conduct Dismissal

A student is administratively dismissed from the College for violation of the student conduct policy. The student is not eligible for re-entry into City College.

Disciplinary Procedures

Any City College staff or faculty member may file a complaint that a student is in violation of the student conduct policy.

- The complaint must be prepared in writing by completing the Disciplinary Notice Form. The complaint should include the nature of the infraction, the date, time, location. The names of students, faculty and or staff or witnesses should be included.
- Complaints should be submitted in a timely manner and should account for no more than 48 hours after the alleged infraction, unless there are extenuating circumstances requiring more time which should be documented.

Disciplinary Sanctions

For cases of infractions of academic integrity, faculty members have two options.

For the first infraction:

a. The student may either fail the assignment and lose the grade for that assignment without the possibility of replacing that grade or
b. The student may fail the course and be required to re-take the course. The Director of Education must approve the decision of the instructor. A copy of the Disciplinary Notice form and any decision made will be placed in the student academic file.

For a second infraction, the student is subject to either:

a. Suspension from the College or
b. Conduct Dismissal from the College

For a second infraction, the decision for suspension and/or dismissal will reside with the Director of Education, since faculty members may not be aware of a student’s prior infraction. A copy of the Disciplinary Notice form and any decision made will be placed in the student academic file along with the letter to the student indicating that they have either been suspended or dismissed from school for violation of the Student code of conduct.

Special Note: Egregious behavior on the part of a student can result in immediate dismissal from the College. For all other infractions, the final decision rests with the Executive Director.

Appeals to Violations of the Code of Conduct Decisions

A student who has been found to be in violation of the City College Code of Conduct will have the opportunity to appeal the decision. The student’s appeal must be in writing and within 14 days of the College’s decision (see City College Grievance Procedures).
Violence Against Women Act (VAMA) Policy

City College supports the Federal Campus Sexual Assault Victims' Bill of Rights:

- Survivors shall be notified of their options to notify law enforcement.
- Accuser and accused must have the same opportunity to have others present.
- Both parties shall be informed of the outcome of any disciplinary proceeding.
- Survivors shall be notified of counseling services.
- Survivors shall be notified of options for changing academic and living situations.

City College prohibits the offenses of domestic violence, dating violence, sexual assault, and stalking, as defined in the Florida State Statutes.

Please refer to the City College Student Handbook, Faculty Handbook, or Annual Security Report for detailed information on procedures.
Programs of Study

- Program Delivery
- General Education
- Bachelor of Science Programs
- Academic Associate Degree Programs
- Continuing Education/Professional Enhancement Courses
Programs of Study

Program Delivery

City College offers Residential and Blended programs.

All programs may be taken in Blended format. Blended occurs when students choose to take some of their courses online when those courses are available in distance learning instructional delivery mode.

All externships, clinical, and internships are offered on ground ONLY.

Students are not allowed to take more than 8 credits (2 courses) online in a term as a Blended student. Through these courses, the college is able to supplement the traditional campus-based curriculum with courses that meet the unique educational needs of the student by providing online learning opportunities, and integrating distance learning techniques and technology. Online courses are not required but are an option. Some on-ground courses are not offered every term. Occasionally, to stay on track in a program, maintain full time enrollment or re-take a failed course, a student may need or choose to take an online course. Courses offered in distance learning instructional delivery are designated as such in the course descriptions.

General Education

City College believes that a sound foundation in the liberal arts (general education) is an essential complement to its many career-oriented programs. General education courses ensure that graduates are effective communicators, creative thinkers, as well as collaborative with an awareness of and appreciation for people, cultures, along with contemporary, national and global issues.

Specific General Education requirements are listed under each program. Students who complete BSC1093, BSC1094, or BSC1085, BSC1086 at the Associate of Science level as a program requirement, may use these as their Science component in the Bachelor Program.

Students pursuing an Associate or Bachelor Degree must include subject matter (courses) from the Humanities; Mathematics and the Sciences; and the Social Sciences. We recommend that students take at least one course from each of the following areas: English, Humanities, Sciences, Mathematics, Behavioral Sciences, and Social Sciences.

Students starting a Bachelor program after 10/1/2017 must have 12 quarter credits (or equivalent) of General Education at the 3000/4000 level.

Bachelor of Science in Business Administration

The objective of the Bachelor of Science in Business Administration is to provide students who have already earned an Associate of Science Degree and have an interest in Business with the tools for advancement or possible career shift in leadership positions within the local, national, and international corporate and government communities. The Bachelor of Science Degree in Business Administration is comprised of a theoretical and technical academic emphasis complemented with a general education quantitative and qualitative component. Courses under this program include the Major Core, the Concentration Core, the General Education unit, related requirements and elective courses to complete degree towards a Bachelor of Science in Business Administration (BSBA). Applicants for this program must have earned an Associate of Science Degree and/or be in Junior standing or have earned a combination of life credit, credit by means of examination and transfer credit totaling a minimum of 72 credits.

Management Major
(Fort Lauderdale, and Online)
Effective 4/1/2019, the Miami and Gainesville campus' are no longer enrolling in the Management major program

The Bachelor of Science in Business Administration program with a major in Management offers advanced business, marketing and operations courses as well as the courses which will provide the student with current and innovative business and managerial techniques. Graduates of the program will have opportunities for entry and mid-management level positions in banking, marketing, sales, personnel, management and operations. The curriculum consists of a total of one hundred eighty (180) credit hours, presented over sixteen (16) quarters.

Program schedule based on full-time enrollment: 176 weeks; 1760 lecture and 80 lab contact hours.

Program Outcomes

- Prepare and analyze financial statements.
- Recognize tools used in a modern information system that will support managed decision making.
- Demonstrate functional knowledge of international management and marketing strategies.
- Develop communication and motivational tools for effective operational and managerial tools.
- Understand the principles, skills, technique, and strategies necessary for managing a firm's value chain.
- Demonstrate the ability to translate a firm's strengths and weaknesses into realistic opportunities and potential threats to a firm's goals.
- Be able to describe the need for global perspective and cross-functional integration for business operations.

Accounting Major
Effective 4/1/2019, the Fort Lauderdale campus is no longer enrolling in Accounting

The Bachelor of Science in Business Administration program with a major in Accounting offers students who have already earned an Associate Degree in advanced financial accounting, cost accounting, finance and taxation courses as well as a complement of managerial courses to provide the student with professional knowledge and skills to advance and improve abilities as they relate to general business and bookkeeping practices. Graduates of the program may have opportunities for entry and mid-management level positions in banking, finance, bookkeeping, and accountancy. The curriculum consists of a total of one hundred eighty-four (184) credit hours, presented over sixteen (16) quarters.

Program schedule based on full-time enrollment: 176 weeks; 1770 lecture and 140 lab contact hours.

Program Outcomes

- Demonstrate an understanding of the analysis and interpretation of financial and non-financial data for informed decision-making within the organization.
- Demonstrate the ability to conduct an internal audit based on auditing principles and guidelines.
- Understand and follow governmental regulations, laws, and ethical behaviors pertaining to accounting practices.
- Demonstrate the ability to effectively communicate accounting information in the financial statements.
- Define and prioritize accounting concepts and standards for preparing financial statements.
- Communicate effectively about accounting and business practices within the context of larger organizational frameworks.
- Demonstrate collaborative skills across accounting and functional business areas.
- Develop and demonstrate skills in financial and cost accounting systems that are common to most businesses.

Project Management Major
(Fort Lauderdale)

The Bachelor of Science in Business Administration program with a major in Project Management is designed to provide students with the knowledge, skills and techniques necessary to effectively initiate, plan, execute, control and complete a particular project in their area of previous technical training. This program allows students with a wide variety of educational experiences to transfer that knowledge into the project management major which will provide students with preparation for advancement through the concentration skill set of project management. The curriculum consists of a total of one hundred eighty (180) credit hours, presented over sixteen (16) quarters.

Technical expertise in applied management will prepare students for supervisory roles, mid-level management and administrative positions in both corporate and government communities. Thus graduates of local Associate of Science degree programs will develop the tools for advancement or possible career shift in leadership positions within their local, national or international corporate and government communities.

Program schedule based on full-time enrollment: 176 weeks; 1800 lecture contact hours.

Program Outcomes

- Demonstrate the ability to forecast time, using resources and budgeting requirements to organize a team and complete the project in the time frame forecasted.
- Demonstrate a variety of techniques to evaluate risk within the project.
- Apply procurement management tools and techniques to contract management.
- Systematically initiate, plan, execute, control, and close a well-documented project.
- Identify and apply successful team development and management strategies.
- Evaluate the implications of project management to organizational effectiveness.
- Align project goals with the corporate strategic planning process.
- Develop and apply Gantt Charts, CPM and PERT techniques to project management.

Bachelor of Science in Health Care Administration
(Fort Lauderdale, Gainesville, and Online)

The purpose of the Bachelor of Science in Health Care Administration is to provide students who have already earned a health-related associate degree with the knowledge and skills required to pursue entry-level positions in health care management. Students with a non-health care background with sufficient transfer credit to start as a 3rd year student are also eligible for entry. This program encourages a generalist approach to health administration. The focus is to help students acquire knowledge and develop skills in hospital organization and management, marketing, accounting and budgeting, human resources administration, strategic planning, law and ethics, and health information systems. Students also gain knowledge in oral and written communication, and social/behavioral sciences.

Graduates may perform a number of duties in a health care setting including creating and implementing strategies and processes to deal with the various business challenges. This may include delivery system integration, regulatory requirements, technological innovations, and restructuring. Managers must also have the ability to assess and improve efficiency and quality. The curriculum is designed to train students as generalists in health care.

The curriculum consists of 184 credit hours presented over sixteen (16) quarters. Applicants for this program must have earned an AS degree and/or be in Junior standing or have earned a combination of life credit, credit by means of examination and transfer credit totaling a minimum of 72 credits.

**Program schedule** based on full-time enrollment: 176 weeks; 1840 lecture contact hours.

**Program Outcomes**
- Assess and promote community health especially through the evaluation of health care policies.
- Analyze and assess management systems such as operations and human resources within a health care organization.
- Understand the ethical and legal principles and laws in the health care industry.
- Understand leadership, governance, roles and responsibilities within health care organizations.
- Communicate complex ideas verbally and through the written word.
- Apply financial, economic analysis, organizational development and behavioral theories to create strategies to improve health care organizations.

Academic Associate Degree Programs

Associate of Science in Allied Health

The Associate of Science Degree is comprised of technical training in a given field combined with a General Education component. General Education courses allow for further development of listening, speaking, reading and writing skills while technical training will aid the student in achieving his/her full potential for promotion and advancement within a chosen field. City College offers several majors under the Associate of Science Allied Health Degree. These majors include Medical Assisting, Medical Office Administration with a track in Insurance Billing and Coding and Mental Health Technology. Courses under these majors are comprised of a Major component, Concentration Core, General Education unit and required electives to complete degree requirements.

Students are eligible to sit for The National Board Certifications in medical specialties including Medical Assistant, Phlebotomy Technician, and Medical Office Assistant which are offered at City College by arrangement with the National Center for Competency Testing (NCCT).

Medical Assisting Major
(Fort Lauderdale, Gainesville, Hollywood, and Miami)

The Medical Assisting major provides students with opportunities to develop secretarial, laboratory, and clinical skills required to work closely with physicians and other health care professionals. Students apply their classroom knowledge to actual work experiences while on externship at a College approved health care facility. This curriculum is comprised of a total of ninety-two (92) credit hours presented over eight (8) quarters.

Program schedule based on full-time enrollment: 88 weeks; 760 lecture, 220 lab and 160 extern contact hours.

Program Outcomes

- Communicate verbally, non-verbally, and in writing with the patient and other health care team members in an appropriate and effective manner.
- Demonstrate knowledge and model professional skills and behavior by applying the ethical principles, legal principles, safety measures, and regulations affecting the profession.
- Demonstrate competency in administrative skills such as patient account management, insurance pre-authorization, referral management, phone protocols, and conducting front desk tasks.
- Demonstrate proficiency of phlebotomy procedures, and patient care procedures on the clinical level including examining room procedures, clinical laboratory procedures and emergency care, (including inpatient care, injection room procedures, and trauma care).
- Appropriately apply medical terminology in patient care, services and all aspects of workplace management.

Programmatic Requirements

Students enrolling in this program must submit proof of a physical examination, negative PPD (Tuberculosis Screen) or negative chest x-ray Radiology Report, and Hepatitis Series and Hepatitis titer performed by a MD, DO or ARNP, prior to enrolling in MEA1245C Phlebotomy Procedures, MEA1226C, Examining Room Procedures and MEA2260C Clinical Lab Procedures. In addition, an updated physical exam and negative PPD result must be on file for the year in which the student is to be placed in an externship.

**Total Credits Required for Graduation: 92**
The Medical Office Administration Major with a Track in Insurance Billing and Coding provides students with the necessary background, knowledge, and specialized skills for a career in the medical billing and coding profession. Secretarial and administrative skills are emphasized providing graduates with the opportunity to qualify for entry-level opportunities such as Medical Coding Clerk, Medical Billing Specialist, Medical Records Clerk and Medical Office Assistant. The curriculum consists of a total of ninety-six (96) credit hours presented over eight (8) quarters.

Program schedule based on full-time enrollment: 88 weeks; 840 lecture, 140 lab and 150 extern contact hours.

Program Outcomes

- Demonstrate competency in using industry software to enter, retrieve or modify medical data.
- Demonstrate written as well as verbal and nonverbal communication skills with the patient and other health care team members in a professional and effective manner.
- Demonstrate knowledge and model professional skills and behavior by applying the ethical principles, legal principles, and regulations affecting the profession.
- Demonstrate skill in claims preparation, dealing with denied claims, and explaining EOB and billing process and procedures to the patient for a variety of government and private insurance companies.
- Effectively use medical terminology and pathophysiology knowledge in a variety of billing and coding scenarios.
- Demonstrate competency in utilizing ICD-X, CPT, and HCPCS coding resources as well as competence in traditional paper/manual and electronic health records.

Programmatic Requirements

Students may be required to submit proof of a physical examination, negative PPD (Tuberculosis Screen) or negative chest X-ray Radiology Report, Hepatitis Series and Hepatitis titer performed by a physician and other licensed health care provider prior to enrolling in the industry practicum.

Mental Health Technology Major
(Gainesville)

The Mental Health Technology Major prepares students with the technical abilities, both written and verbal, for the mental health profession, as the focus moves from institutionalized rehabilitative services to developmental community-based services. Students will be prepared to assist psychiatrists, psychologists, and other mental health professionals in assessment, referral, counseling, and recreational activities for patients/clients in residential and outpatient mental health care facilities. This curriculum is comprised of a total of ninety-four (94) credit hours presented over eight (8) quarters.

Program schedule based on full-time enrollment: 88 weeks; 890 lecture and 150 extern contact hours.

Program Outcomes

- Demonstrate knowledge of contemporary issues related to mental health and mental health counseling including the most common mental health issues such as stress, drug addiction, abnormal psychological issues, and common medications used to treat these disorders.
- Understand medical laws and issues in the mental health field.
- Understand the effect and use of current commonly prescribed medications for treating mental health issues.
- Demonstrate knowledge of medical terminology in its application to mental health treatments.

Total Credits Required for Graduation: 94
Associate of Science in Anesthesia Technology

The Anesthesia Technology program at City College is a comprehensive entry-level program designed to prepare competent entry-level Anesthesia Technologists in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains. Students will take a variety of didactic and clinical courses with a focus on the Patient Simulation Center that will provide "real life" scenarios of a demanding clinical environment. The integration of lecture, simulation and clinical will help the student transition from the academic/clinical environment to the profession upon graduation. Students will be required to complete 780 hours of extern clinical training in hospitals or other surgical settings. The curriculum is comprised of 99 credits over eight (8) quarters. Ninety nine (99) credits over eight (8) quarters.

Program schedule based on full-time enrollment: 88 weeks; 620 lecture, 240 lab and 780 extern contact hours.

Program Outcome

- To prepare competent entry-level Anesthesia Technologists in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

Program Goals

- Model a self-sufficient Anesthesia Technologist who displays positive values, integrity and professionalism.
- Recognize and verbalize indications for anesthesia intervention and the associated risks and benefits.
- Identify and demonstrate the appropriate anesthesia set up for various surgical procedures.
- Anticipate the needs of the anesthesia provider to assist with the delivery of patient care.
- Demonstrate the ability to maintain and update all relevant anesthesia equipment and troubleshoot as necessary.

In addition to the regular Admission requirements, students applying to the Surgical Technology or the Anesthesia Technology program have the following admissions criteria:

1. Students wishing to enroll in this program must take a placement test and achieve a minimum score indicated below:
   - SLE a minimum score of 17 or
   - WBST a minimum score of 267 in verbal and quantitative skills
2. Students enrolling in this program must submit proof of having completed the following Medical requirements:
   - Current physical examination performed by an MD, DO or ARNP with a signed Health Clearance Form.
   - Proof of immunity via documentation of immunization or titers for the following:
     - Hepatitis B series. The first of three injections must be completed prior to admission.
     - MMR (Measles, Rubella, and Mumps) Series.
     - VZV (Varicella) vaccine – 2 injections.
   - Absence of Tuberculosis (TB)
     - Negative PPD skin test within the last 6 months (2-step PPD or single step PPD as part of an annual series) or a negative chest x-ray.
   - A negative urinary drug screen indicating a 10 panel drug screen.
   - A tetanus (Td) booster within the last ten years. Results of a Health Clearance Form and PPD must be updated yearly.
3. Student must hold personal health insurance.
4. Student must have a VECHS background check.
5. Student must complete an Acknowledgement of Florida Statute Section 456.0635.

Associate of Science in Broadcasting
(Fort Lauderdale)

The Associate of Science in Broadcasting Major offers graduates the knowledge and skills necessary for entry into the exciting field of broadcasting. The program combines hands-on training and lecture/discussion courses with general education components that allow for further development in listening, speaking, reading and writing skills in areas that will aid the student in achieving his/her full potential for promotion and advancement within a chosen field in the broadcasting and mass communication industry.

Graduates will have the opportunity to explore entry-level careers in a wide variety and cross-section of broadcast and mass communication field related to audio production, radio broadcasting, television broadcasting and video production; covering the operations, organization and production elements of the industry. These include on-air and off-air tasks related to announcing, news presentation, news gathering and writing, technical operations, advertising sales and marketing, broadcast packaging and distribution, broadcast research, media technology application, media communications, corporate promotions, public relations, media buying and selling, technical media communications, mass communication operations and social marketing and media campaigning.

The curriculum is comprised of ninety-three (93) credit hours presented over eight (8) quarters.

Program schedule based on full-time enrollment: 88 weeks; 850 lecture and 160 lab contact hours.

Program Outcomes

- Demonstrate the production competencies required for entry level employment in radio and television related fields.
- Apply the skills necessary to undertake professional production work in the broadcasting and mass communication industry.
- Analyze the foundational concepts and functional know-how required to work as broadcasting and media professionals.
- Apply appropriate discipline and ethical standards required of all professionals with the broadcasting and mass communication industry.
- Identify the cultural, conventional and legal provisions they need to adhere to as broadcasting and communication media professionals.
- Create and develop programming strategies and programming concepts for any broadcasting genre/format.
- Operate and utilize all radio and television studio and field production equipment.
- Produce, direct and present a wide variety of live and recorded radio and television programs, including interviews, news and talk shows.
- Produce, write and direct the production of commercials, infomercials and PSAs for use on radio and television.
- Develop and manage broadcast advertising strategies and campaigns.
- Produce, write, direct and present radio and television newscasts.
- Explain issues and content related to mass media and the broadcasting industry.
- Utilize and apply new media technologies and concepts in broadcasting.
- Demonstrate and apply effective communication skills.

Associate of Science in Business Administration

The Associate of Science Degree is comprised of technical training in a given field combined with a general education component. General education courses allow for further development of listening, speaking, reading and writing skills while technical training will aid the student in achieving his/her full potential for promotion and advancement within a chosen field.

City College offers majors (career specialty options) under the Associate of Science in Business Administration degree. These majors are Accounting, and Management. Degree requirements for each major include the Major Core, Concentration Core, General Education unit and required electives. Associate of Science in Business Administration students are required to have their 12 credit hours of electives within the business department which can be in courses in Accounting, Business, Marketing, Management and/or Finance.

Accounting Major
Effective 4/1/2019, the Fort Lauderdale campus is no longer enrolling in Accounting

The Business Administration Accounting Major offers basic business courses combined with a solid foundation of accounting theory and a broad base of general education courses, giving the student the opportunity to master a variety of skills needed to succeed in the contemporary business community. Graduates of the program may find opportunities as a Bookkeeper, Accounts Payable/Receivable Assistant, Office Manager Assistant, Inventory Control Clerk, or Audit Assistant. The curriculum consists of ninety-two (92) credit hours presented over eight (8) quarters.

Program schedule based on full-time enrollment: 88 weeks; 850 lecture and 140 lab contact hours.

Program Outcomes
- Demonstrate proficiency in the use of spreadsheet applications.
- Summarize the steps involved in the accounting cycle.
- Understand how legal issues affect business operations.
- Understand leadership skills needed to succeed in today’s diverse corporate culture. Demonstrate proficiency in the use of accounting computer software.
- Review financial statements and various specialized accounting methods, used by corporations.
- Understand financial data used to make informed business decisions.

Associate of Science in Cardiovascular Sonography
(Hollywood)

The Cardiovascular Sonography Program is a comprehensive entry-level program designed to prepare the student for a rewarding career in the field of diagnostic ultrasound. Cardiovascular sonography specializes in the assessment of cardiac and vascular disease and is one of the fastest growing professions in the allied health care field. The program is designed to include practical didactic lectures integrated with hands-on laboratory in the Ultrasound Training Center. Here the students will learn the operation of various equipment and have the opportunity to practice scanning on fellow students in order to develop skills prior to the 900 hours of clinical training. The dual training in both cardiac and vascular specialties was developed to provide greater options to our graduates who can work in environments that demand skills in both specialties. The curriculum consists of a total of one hundred and seven (107) credit hours presented over eight (8) quarters.

Program schedule based on full-time enrollment: 88 weeks; 670 lecture, 200 lab and 900 extern contact hours.

Program Outcomes

To prepare competent entry-level cardiovascular technologists in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains for noninvasive vascular study and To prepare competent entry-level cardiovascular technologists in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains for adult Echocardiography.

Programmatic Entry Requirements

In addition to the regular Admission requirements, students applying to the Cardiovascular Sonography program have the following admissions criteria:

1. Students wishing to enroll in this program must take a placement test and achieve a minimum score indicated below:
   - SLE a minimum score of 17 or
   - WBST a minimum score of 267 in verbal and quantitative skills
2. Students enrolling in this program must submit proof of having completed the following Medical requirements:
   - Current physical examination performed by an MD, DO or ARNP with a signed Health Clearance Form.
   - Proof of immunity via documentation of immunization or titers for the following:
     - Hepatitis B series. The first of three injections must be completed prior to admission.
     - MMR (Measles, Rubella, and Mumps) Series.
     - VZV (Varicella) vaccine – 2 injections.
   - Absence of Tuberculosis (TB)
     - Negative PPD skin test within the last 6 months (2-step PPD or single step PPD as part of an annual series) or a negative chest x-ray.
   - A negative urinary drug screen indicating a 10 panel drug screen.
   - A tetanus (Td) booster within the last ten years.
   - Results of a Health Clearance Form and PPD must be updated yearly.
3. Student must hold personal health insurance.
4. Student must have a VECHS background check.
5. Student must complete an Acknowledgement of Florida Statute Section 456.0635.

The Associate of Science in Criminal Justice degree program at City College will assist in preparing students for entry-level careers or advancement in the security, law enforcement, investigative, and correctional fields. Employment opportunities for graduates are varied and may require additional security clearances, background checks, credit checks, citizenship requirements, physical requirements, additional training or certifications. Some areas of employment available to graduates of this program may include but are not limited to: state, federal, city and county agencies, private agencies, security companies, legal service companies, and retail operations. The Criminal Justice curriculum will provide students a blend of practical and theoretical preparation for the Criminal Justice field. Course topics include Criminal Law, Introduction to Corrections, Juvenile Delinquency, Law Enforcement; Criminology, Crime Scene Analysis, Psychology, and general education coursework. This curriculum consists of ninety (90) credit hours presented over eight (8) quarters.

**Program Outcomes**

- Knowledgeable in the ethical behavior required in the Criminal justice discipline
- Understand what constitutes a crime and constitutional guarantees.
- Demonstrate skills in using the different methods of data collection used by criminal justice professionals.
- Understand functions, operations, and management of different agencies
- Analyze crime scenes and determine what is evidence and what is not.

**Program schedule** based on full-time enrollment: 88 weeks; 820 lecture, 60 lab and 150 extern contact hours.

Total General Education Requirements: 24

Total Credits Required for Graduation: 90
The Emergency Medical Services Major combines Emergency Medical Technician and Paramedic courses, core general education coursework, and field/clinical externship experiences in the pre-hospital, ambulance and Fire Rescue service industries. The program follows the latest edition of National Emergency Medical Services Education Standards and prepares the graduate with the knowledge, skills and professionalism necessary to obtain certification as an Emergency Medical Technician and Paramedic to practice the art and science of out-of-hospital medicine in conjunction with medical direction.

The objective of the program is to prepare competent entry-level Paramedics in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains with or without exit points at the Advanced Emergency Medical Technician and/or Emergency Medical Technician, and/or Emergency Medical Responder levels.

Graduates of this program, with successful certification as a paramedic, may qualify for positions within the out-of-hospital emergency service industry, both in the public and private sectors. Students are eligible to sit for or National Registry certification testing upon successful completion of the EMT and paramedic programs, including successful performance on comprehensive written and practical exams inclusive of all training, skills, and completion of the general education component. A letter certifying completion of training will be available for pick up on campus in the EMS office within 14 days of completion of EMT and/or Paramedic requirements. The curriculum is comprised of one hundred and eleven (111) credit hours presented over nine (9) quarters.

Program schedule based on full-time enrollment: 99 weeks; 700 lecture, 440 lab and 588 extern contact hours.

Program Outcomes

- Demonstrate comprehension of the roles and responsibilities of an entry-level EMT-P.
- Demonstrate the ability to think appropriately and professionally including responding with appropriate speed in any given emergency situation.
- Understand and apply appropriate psychomotor skills in EMS and Paramedic settings.
- Demonstrate application of professional standards to the affective learning domains, integrity, empathy, self-motivation, appearance, personal hygiene, self-confidence, communications, time management, teamwork, diplomacy, respect, patient advocacy, careful delivery of service, and cultural competence.
- Be certified in Basic Life Support for healthcare providers, Advanced Life Support, Pediatric advanced Life support, Pre-hospital trauma life support, and Advanced medical life support.
- Demonstrate that they are competent team leaders directing patient care.
- Demonstrate competence in using body substance isolation equipment.
- Demonstrate knowledge of appropriate scene safety for all care providers, the patient, and bystanders.
- Demonstrate knowledge of the body, how it works, and how medication affects it.

Programmatic Entry Requirements

In addition to the regular Admission requirements, students applying to the Emergency Medical Services program must have the following admissions criteria:

1. Students wishing to enroll in this program must take a placement test and achieve a minimum score indicated below:
   - SLE a minimum score of 17 or
   - WBST a minimum score of 267 in verbal and quantitative skills
2. Students enrolling in this program must submit proof of having completed the following medical requirements:
   - Current physical examination performed by an MD, DO or ARNP with a signed Health Clearance Form.
   - Proof of immunity via documentation of immunization or titers for the following:
     - Hepatitis B series. The first of three injections must be completed prior to admission.
     - MMR (Measles, Rubella, and Mumps) Series.
     - ZVZ (Varicella) vaccine – 2 injections.
   - Absence of Tuberculosis (TB)
     - Negative PPD skin test within the last 6 months (2-step PPD or single step PPD as part of an annual series) or a negative chest x-ray.
     - A negative urinary drug screen indicating a 10 panel drug screen.
     - An EKG
     - A tetanus (Td) booster within the last ten years.
     - Results of a Health Clearance Form and PPD must be updated yearly.
3. Student must hold personal health insurance.
4. Student must have a VECHS background check.
5. Student must complete an Acknowledgement of Florida Statute Section 456.0635.

Course Certification Requirements

Prior to beginning Emergency Medical Technician I:

- Hold and maintain a current CPR certification from an approved Florida Department of Health, Bureau of EMS, U.S. recognized healthcare provider course (i.e. Heart Association, American Red Cross).

Prior to beginning the Paramedic I:

- Hold and maintain a current CPR certification from an approved Florida Department of Health, Bureau of EMS, U.S. recognized healthcare provider course (i.e. Heart Association, American Red Cross).
- Be in the application process to take the State of Florida EMT license examination.

Prior to entry into Paramedic II:

- The student must be EMT Florida state certified in accordance with 64J FAC and provide proof of current Florida State EMT certification. In addition, Florida State EMT certification must be maintained throughout the program.
Graduation Requirements

Students must meet all graduation requirements as detailed in Academic Policies and Procedures and must successfully pass the skills practical exam delivered by the Medical Director (or their designee) at the completion of the major core courses.

Associate of Science in Legal Assisting/Paralegal

Effective 4/1/2019, the Fort Lauderdale campus is no longer enrolling in Legal Assisting/Paralegal

The Associate of Science degree in Legal Assisting/Paralegal is based on technical ability as well as incorporating general education components that allow for further development of listening, speaking, reading, and writing skills in areas that will aid the student in achieving his/her full potential for promotion and advancement within a chosen field. This program is designed for the person seeking a career in a law office or in a field related to the legal profession. Graduates are trained as specialists who can assume certain duties which are routinely performed by attorneys and directly assist attorneys in the handling of legal matters. Other roles may include legal research, analysis and/or interpretation, and the composition and drafting of legal documentation. The program is comprised of ninety-seven (97) credit hours presented over eight (8) quarters.

Program schedule based on full-time enrollment: 88 weeks; 880 lecture, 80 lab and 150 extern contact hours.

Associate of Science in Private Investigation Services  
(Fort Lauderdale and Miami)

The Associate of Science degree in Private Investigation Services is designed to train students in the main branches of private and civil investigation. Students who complete the Associate of Science in Private Investigation Services program receive a one-year reduction for equivalent experience from the Florida Department of Agriculture and Consumer Services toward their two year internship requirement. Students enrolling in this program should understand that in order to qualify for state licensure as a private investigator, they must be at least 18 years of age; be a citizen or legal resident of the United States or have been granted authority to work in the United States by the US Department of Homeland Security; have no disqualifying criminal history; and be of good moral character. The curriculum is composed of ninety (90) credit hours presented over eight (8) quarters.

Program schedule based on full-time enrollment: 88 weeks; 810 lecture, 180 lab contact hours.

### Program Outcomes

- Understand ethical behavior within their discipline.
- Understand a broad base of private investigation practices, vocabulary, and tools and can appropriately apply this knowledge to variety of private investigation scenarios.
- Demonstrate the ability to search, and locate people and assets.
- Understand how to remain anonymous while conducting investigations.
- Demonstrate excellent oral communication and report writing skills.

### Programmatic Entry Requirements

1. Student will undergo a National Criminal Background search

**Total General Education Requirements: 24**

**Total Credits Required for Graduation: 90**
The Surgical Technology Program at City College is a comprehensive entry level program designed to prepare the student for a rewarding career that is academically challenging and professionally rewarding. Students will take a variety of didactic and clinical courses with a focus on the Patient Simulation Center that will provide "real life" scenarios of a demanding clinical environment. The integration of lecture, simulation and clinical will help the student transition from the academic/clinical environment to the profession upon graduation. Students will be required to complete 750 hours of clinical training in the hospital setting. The curriculum is comprised of one hundred and three (103) credits over eight (8) quarters.

**Program schedule** based on full-time enrollment: 88 weeks; 680 lecture, 200 lab and 750 extern contact hours.

**Program Outcomes**

To prepare competent entry-level surgical technologists in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

**Program Goals**

**Cognitive Domain** The student will:
- Comprehend the fundamental concepts of Human Anatomy and Physiology, Pathophysiology, Microbiology and infectious process and recognize their relationship to safe patient care.
- Understand the principles of safe patient care in the preoperative, intra-operative and postoperative settings.
- Recognize the interdependent role of the surgical technologist with the other team members and ancillary service providers.

**Psychomotor Domain** The student will:
- Develop and apply fundamental surgical assisting skills through practice and evaluation in the clinical setting.
- Accurately apply the principles of asepsis across the spectrum of common surgical experiences
- Employ the Standard Precautions and other recognized safe practice guidelines in every surgical setting.

**Affective Domain** The student will:
- Recognize the variety of patients' needs and impact of their personal, physical, emotional and cultural experiences on rendering patient care.
- Demonstrate professional responsibility in performance, attitude and personal conduct.
- Practice within the confines of the recognized scope of practice within the healthcare community to provide optimal patient care.

**Programmatic Entry Requirements**

In addition to the regular Admission requirements, students applying to the Surgical Technology or the Anesthesia Technology program have the following admissions criteria:

1. Students wishing to enroll in this program must take a placement test and achieve a minimum score indicated below:
   - SLE a minimum score of 17 or
   - WBST a minimum score of 267 in verbal and quantitative skills

2. Students enrolling in this program must submit proof of having completed the following **Medical requirements**:
   - Current physical examination performed by an MD, DO or ARNP with a signed Health Clearance Form.
   - Proof of immunity via documentation of immunization or titers for the following:
     - Hepatitis B series. The first of three injections must be completed prior to admission.
     - MMR (Measles, Rubella, and Mumps) Series.
     - VZV (Varicella) vaccine – 2 injections.
   - Absence of Tuberculosis (TB)
     - Negative PPD skin test within the last 6 months (2-step PPD or single step PPD as part of an annual series) or a negative chest x-ray.
     - A negative urinary drug screen indicating a 10 panel drug screen.
     - A tetanus (Td) booster within the last ten years. Results of a Health Clearance Form and PPD must be updated yearly.

3. Student must hold personal health insurance.
4. Student must have a VECHS background check.
5. Student must complete an Acknowledgement of Florida Statute Section 456.0635.

**Programmatic Requirements**

1. Students are required to become Association of Surgical Technologists (AST) members.
2. As per programmatic accreditation students are required to attempt the Certified Surgical Technologists (CST) exam prior to graduation.

**Transfer of Current Certified Surgical Technologist Certification**

City College will accept persons with a current certified Surgical Technologist Certification into the Associate of Science in Surgical Technology program. These students will be required to do the following in order to earn an Associate of Science degree.

Program will be approved if the student:

a. Meet all Admissions criteria – (with the exception of the Wonderlic, Background Check, Medical Documents, Health Insurance or Drug test)

b. Register for the following course
   - A&P 1 and 2 (with labs),
   - Microbiology with Lab,
   - SLS2101 and SLS2301
   - Med Law and Ethics,
   - Gen Ed Courses
   - Transfer Credit: If they have GE credit, then they may transfer that in through the usual process.

This totals 51 credits which is 50% of the program: however, the 50% residency requirement can be waived for those who are transferring in General Education credits.

**Total Major Core Requirements: 71**

**Total Credits Required for Graduation: 103**
Associate of Science in Veterinary Technology
(Hollywood and Gainesville)

The Veterinary Technology Program at City College is a comprehensive entry-level program designed to prepare the student for a career as a veterinary technician. Students will take a variety of didactic and hands-on clinical courses, covering all of the areas in which technicians will be expected to perform in the workplace. Externships performed at working clinics will provide ‘real-life’ scenarios of a demanding clinical environment. The integration of lecture, demonstration and hands-on practice will help the student transition from the academic/clinical environment into the workplace upon graduation. Students will be required to complete 300 hours of externship at a local clinic. The curriculum is comprised of one hundred and one (101) credits over eight (8) quarters.

Program Outcomes

- Demonstrate and apply knowledge, physical skills and behaviors required for entry-level employment in the field of veterinary technology.
- Model a self-sufficient Veterinary Technician who displays positive values, integrity, honesty, empathy and professionalism.
- Understand the veterinary professions as a whole and remain aligned with professional standards and regulations and participate in professional organizations.
- Increase the professional standards of the industry.
- Demonstrate leadership skills and help colleagues expand knowledge and improve skills.

Programmatic Entry Requirements

In addition to the regular admission requirements, students applying to the Associate of Science in Veterinary Technology program have the following admissions requirements:

1. Students wishing to enroll in this program must take a placement test and achieve a minimum score indicated below:
   - SLE a minimum score of 17 or
   - WBST a minimum score of 267 in verbal and quantitative skills
2. Student must have a VECHS Level I background check.
3. Student must hold personal health insurance.

It is recommended that students enrolling in this program are vaccinated for the following:
- Hepatitis B series.
- MMR (Measles, Rubella, and Mumps).
- Tetanus (Td) booster within the last ten years.
- Rabies series.

It is recommended that students enrolling in this program be tested for:
- Absence of Tuberculosis (TB)
  - Negative PPD skin test within the last 6 months (2-step PPD or single step PPD as part of an annual series) or a negative chest x-ray.

Continuing Education/Professional Enhancement Courses

Note: These courses are not licensed by the Commission for Independent Education.

The Basic Life Support (BLS) for Healthcare Providers Course

The American Heart Association's Advanced Cardiovascular Life Support is based on simulated clinical scenarios that encourage active, hands-on participation through learning stations where students will practice essential skills individually, as part of a team, and as team leader. Realistic simulations reinforce the following key concepts: proficiency in basic life support care; recognizing and initiating early management of pre-arrest conditions; managing cardiac arrest; identifying and treating ischemic chest pain and acute coronary syndromes; recognizing other life-threatening clinical situations (such as stroke) and providing initial care; ACLS algorithms; and effective resuscitation team dynamics. ACLS is designed for physicians, registered nurses, medical students, paramedics and respiratory therapists working in acute care hospital settings.

Course Length: 13.5 hours (7.5 hours lecture/6 hours lab)

ACLS Provider Course

The American Heart Association's Advanced Cardiovascular Life Support is based on simulated clinical scenarios that encourage active, hands-on participation through learning stations where students will practice essential skills individually, as part of a team, and as team leader. Realistic simulations reinforce the following key concepts: proficiency in basic life support care; recognizing and initiating early management of pre-arrest conditions; managing cardiac arrest; identifying and treating ischemic chest pain and acute coronary syndromes; recognizing other life-threatening clinical situations (such as stroke) and providing initial care; ACLS algorithms; and effective resuscitation team dynamics. ACLS is designed for physicians, registered nurses, medical students, paramedics and respiratory therapists working in acute care hospital settings.

Course Length: 13.5 hours (7.5 hours lecture/6 hours lab)

PALS Provider Course

The Pediatric Advanced Life Support (PALS) Provider course represents a comprehensive source of information for the emergent care of infants and children. This course is for physicians and allied healthcare professionals currently responsible for the care of critically ill pediatric patients. The course covers management of the acute pediatric patient with difficulties related to cardiopulmonary arrest, respiratory failure, and shock. Course information is presented through lectures and small group practice stations.

Course Length: 13.5 hours (7.5 hours lecture/6 hours lab)

ITLS Trauma Provider Course

The International Trauma Life Support (ITLS) course addresses the critical time management of the emergency trauma patient. The ITLS Course prepares emergency health care providers to knowledgeably and skillfully perform the rapid assessment, resuscitation, packaging, stabilization and transport of the trauma patient. The course includes lectures and interactive skill stations to provide for the application and integration of knowledge and skills to case based scenarios. Prior study of the text is required.

Course Length: 16 hours (8 hours lecture/8 hours lab)

Pediatric Education for Pre-hospital Professionals (PEPP)

The Pediatric Education for Pre-hospital Professionals Provider (PEPP) course is designed for physicians, registered nurses, medical students, paramedics and respiratory therapists working in acute care hospital settings.

Course Length: 16 hours (8 hours lecture/8 hours lab)

Advanced Medical Life Support (AMLS)

NAEMT’s Advanced Medical Life Support (AMLS) course is the first EMS education program that fully addresses how to best assess and manage the most common medical crises in patients, offering a “think outside the box” methodology.

Course Length: 16 hours (two-day program that consists of interactive lectures, teaching and evaluation stations)

Class “CC” Private Investigator Intern Training Home Study (correspondence) Course

Florida Chapter 493, F.S. states that applicants for Class C private investigation licenses in Florida that do not have the required experience may complete an approved training course when they have the sponsorship of a class C license holder. This course is a total of 40 hours and is broken into two modules. Course A is 24 hours and Course B is 16 hours. Each module requires the student pass an exam. Upon completion of both modules and passing both exams the individual may apply to the state of Florida for a Class CC Private Investigator Intern license.

### Anesthesia Technology (AT)

#### AT100  Clinical Observation I

Policies and Standards of patient care practice will be introduced. Acronyms and abbreviations will be introduced along with regulatory associations and credentialing in the workplace. In addition, students will take an American Heart Association BLS provider course.

**Prerequisites:** None  
**Credit Hours:** 1

#### AT110  Introduction to Anesthesia Technology

This course focuses on the basic fundamentals of Anesthesia Technology including historical, practical, and safety aspects of the profession. Role of the Anesthesia Care Team and our scope of practice will be taught. Topics covered will include malignant hyperthermia, electrical and fire safety, and patient positioning along with basic monitoring and inhaled agents. Set-up and function of basic equipment for anesthesia care such as EKG, B/P and Pulse Ox monitors.

**Prerequisites:** None  
**Credit Hours:** 4

#### AT111  Anesthesia Technician Fundamentals I

This course focuses on the basic fundamentals of various types of anesthesia procedures for patient care. Students will learn about intravenous preparation, surgical positioning for numerous surgical procedures. Basic monitoring devices will be introduced, as it pertains to placing monitoring systems on patients for surgery. Anesthesia gas machine breathing circuits will be discussed. Cleaning and high-level disinfection of all reusable patient equipment will be discussed/taught. Anesthesia care plans will be introduced to the student throughout the course work.

**Prerequisites:** AT110  
**Credit Hours:** 3

#### AT112  Anesthesia Technician Fundamentals II

This course focuses on the instrumentation and fundamentals of patient care equipment for extensive procedures that is providing invasive monitoring to the patients. Students will become familiar with the assembly and construction of many invasive monitoring lines used in the operating room.

**Prerequisites:** AT111  
**Credit Hours:** 3

#### AT113  Anesthesia Pharmacology

This course focuses on the pharmacokinetics and pharmacodynamics of drugs used in the administration of anesthesia and analgesia. Topics covered will include routes of administration, drug interactions, drug metabolism and elimination, and the various classes of anesthetic agents.

**Prerequisites:** AT110 and HSC1531  
**Credit Hours:** 3

#### AT114  Anesthesia Technician Instrumentation I

This course focuses on the instrumentation utilized in providing anesthesia including historical, practical, and safety aspects of the profession. Students will learn about tracheal tubes, face masks and airways used in Anesthesia Practice. Topics will cover the systems utilized in patient care, laryngoscopes, patient warmers, difficult airway management and troubleshooting related equipment. Hazards of the anesthesia machines and breathing systems will also be discussed.

**Prerequisites:** AT110  
**Credit Hours:** 3

#### AT115  Anesthesia Technician Instrumentation II

This course focuses on the instrumentation utilized in providing anesthesia including historical, practical, and safety aspects of the profession. Students will learn about instrumentation for delivering and analyzing blood products, Ultrasounds, Neurophysiologic monitoring, and device malfunctions.

**Prerequisites:** AT112 and AT114  
**Credit Hours:** 3

#### AT116  Clinical Experience I

This course serves as the first of three clinical experiences, with a focus on the integration of the theory and practical skills applied to the clinical setting. The student will first observe, and then provide support during surgical procedures. Students will be expected to maintain a weekly case log of all procedures, as well as detailed case reports of procedures involving direct patient care.

**Prerequisites:** AT116 and AT113  
**Credit Hours:** 6

#### AT117  Clinical Experience II

This course serves as the second of three clinical experiences, with a focus on the integration of the theory and practical skills applied to the clinical setting. The student will provide supervised support during surgical procedures. Students will be expected to maintain a weekly case log of all procedures, as well as detailed case reports of procedures involving direct patient care.

**Prerequisites:** AT116  
**Credit Hours:** 6

#### AT118  Anesthesia Technician Capstone

This course serves as the last of three clinical experiences, with a focus on the integration of the theory and practical skills applied to the clinical setting. The student will provide supervised support during surgical procedures. Students will be expected to maintain a weekly case log of all procedures, as well as detailed case reports of procedures involving direct patient care. In addition, students will take an American Heart Association ACLS provider course.

**Corequisites:** AT116 and AT117  
**Credit Hours:** 6
AT201  Exam Prep
This course will prepare the student for the national certifying exam for anesthesia technologists. Topics covered will include a comprehensive review of the terminology, procedures, instrumentation, and skills acquired over the course of the program. Additional topics will include anatomy and physiology, HIPAA, and basic test-taking techniques.

Prerequisites: None  Credit Hours: 0

AT202  Anesthesia Technician Externship
This course serves as the final externship rotation and consists of 240 externship hours. The student will be expected to fulfill the daily job requirements of an Anesthesia Technologist without support from hospital staff. Students will be expected to maintain a weekly case log of all procedures, as well as detailed case reports of procedures involving direct patient care.

Prerequisites: AT116, AT117, and AT118  Credit Hours: 8

Animal Science Technology (ATE)

ATE1003C  Introduction to the Veterinary Profession
This course is designed to introduce students to the veterinary profession. Topics of discussion include history associated with veterinary and veterinary technicians' roles, professional organizations, descriptions of typical and non-traditional veterinary-related careers, laws and regulations governing the veterinary profession, common breeds of domestic animals, restraining, behavior and medical terminology.

Prerequisites: None  Credit Hours: 4

ATE1002C  Domestic Animal Handling, Behavior & Training
This course is designed to teach students how to handle & restrain domestic animals (cattle, horses, cats, dogs, birds, small mammals and reptiles) in the veterinary setting. Animal and handler safety and gentle, humane treatment of the patient are stressed. Individual variations between handling various species based on safety and animal behavioral traits is discussed. Domestic animal behavior is taught, and includes both normal behavior and behavioral issues commonly presented to the veterinarian. Prevention and treatment of behavioral issues is taught, with emphasis on the student being able to teach clients this information. Finally, basic animal training is discussed, with emphasis on dogs & cats, though birds and horses are also discussed.

Prerequisites: None  Credit Hours: 4

ATE1030C  Laboratory Skills for Veterinary Technicians
This course introduces students to the clinical laboratory; its capabilities as a diagnostic support program for both research and clinical medicine; and the technologies associated with both traditional and less familiar clinical applications. The laboratory portion of this course should prepare students to perform testing, manage and maintain laboratory facilities and technologies, and, finally, introduce recognition skills and preliminary interpretation of disease concerns in animals. Microbiology basics and its use in the veterinary medical setting are introduced.

Prerequisites: ATE1003C and ATE1112C  Credit Hours: 5

ATE1112C  Animal Anatomy & Physiology
This course is designed to teach students the anatomy & physiology of common domestic animals (monogastric mammal, ruminant mammal, bird and reptile). Anatomy & physiology will be taught by organ system. Students will dissect preserved specimens so they are able to visualize each structure and system that was taught in lecture. Comparative and gross anatomy will be stressed, and microscopic anatomy will only be discussed.

Prerequisites: None  Credit Hours: 5

ATE1312C  Office Management & Reception Skills
This course helps technician students to understand various front-desk and business management aspects of veterinary practice. The material presented explains sources of hospital revenue; shows how to represent and market preventative health programs and other products and services; introduces methods of record keeping utilizing computer and hard copy files, creating inventory control procedures and records; and introduces materials for client education and communications. Laboratory exercises reinforce necessary computer skills utilizing actual clinic software programs.

Prerequisites: None  Credit Hours: 4

For Gainesville students this course, one credit lab portion only, may be taught at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.
ATE1648C  Veterinary Imaging Techniques

This course is designed to teach veterinary technology students the skills they’ll need to perform imaging such as radiology, ultrasonography & endoscopy. Proper technique and safety are emphasized. Other imaging modalities, such as CR, fluoroscopy and MRI, are discussed and demonstrated. Special studies included are myelography, urethral contract studies, arthroscopy and others that elucidate normal and abnormal organ systems. Further diagnostic technologies focusing on specific organ systems or supporting specific diagnostic and therapeutic actions will be preliminarily introduced here and presented in greater depth throughout other appropriate areas of course studies.

Prerequisites: ATE1003C and ATE1112C
Credit Hours: 4

For Gainesville students this course may be taught in its entirely or lab portions at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.

ATE1602C  Animal Nutrition

This course is designed to teach students about general nutrition principles & comparative digestive anatomy. Students then explore the basic nutritional needs of common companion animals, including dogs, cats, horses, cattle, birds, small mammals, reptiles, sheep and goats. Nutritional needs of diseased cats and dogs will be explored.

Prerequisites: None
Credit Hours: 3

For Gainesville students this course may be taught in its lab only or lab portions at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.

ATE2411C  Veterinary Dentistry

In this course, students will learn about oral anatomy, disease, preventive medicine and treatments, including how to perform a dental cleaning and chart oral health findings. Client education regarding the impact of overall health that oral health has on a pet is emphasized.

Prerequisites: ATE2657C
Credit Hours: 3

For Gainesville students this course may be taught in its entirely or lab portions at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.

ATE2610C  Veterinary Pharmacology

This course introduces the integration of mathematical principles as they pertain to practical clinical scenarios in veterinary medicine. These actions include configuring fluid administration rates, therapeutic drug dosing calculations, dilutions and conversions in various categories of measure. Commonly used drugs are introduced, organized by class and what diseases they treat. Any special considerations given to particular drugs (safety issues, special administration techniques, etc.) are presented as they arise. Special considerations of controlled substances, drug compounding and online pharmacies are discussed. Pharmacy organization, laws and maintenance is taught. Hands-on practice includes drug administration, prescription dispensing and pharmacy organization & inventory.

Prerequisites: MAT1030, MGF1106, or MTB1344
Credit Hours: 4

For Gainesville students this course may be taught in its entirely or lab portions at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.

ATE2620C  Disease Problems in Companion Animals

This course is designed to introduce students to common diseases of companion animals. Diseases are organized by body system. Zoonoses, neoplasia, genetic disorders and diseases that are contagious are highlighted, and an introduction to epidemiological science & oncology is given. The students are introduced to diagnostics and technologies employed in support of the medical sciences. Specialties in each area of veterinary medicine, both at the veterinary and veterinary technician levels, are discussed with their respective lectures to highlight the scope of clinical medicine for technician students.

Prerequisites: ATE1112C
Credit Hours: 5

For Gainesville students this course may be taught in its entirely or lab portions at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.
ATE2621C  Veterinary Nursing & Technical Skills

The course is designed to engage students in the theory and practice of the fundamental principles of veterinary nursing through student care of the sick and hospitalized patient with emphasis on patient care, monitoring and record keeping. Students are introduced to real-life clinical scenarios that include discussions about preventative health surveillance and implementation of a healthcare maintenance program. The course emphasizes an introduction to the study of animal disease and epidemiological aspects of disease processes including zoonotic and reportable diseases. Public and occupational health and safety for veterinary technicians is included. Discussion and elaboration of quarantine principles as an essential component to disease control solidifies a sound foundation in understanding disease processes and principles of disease control in public and private settings. Laboratory actions include development of preventative healthcare programs for specified animal groups in varying holding settings or in the wild. Appropriate technical skill exercises will be integrated into laboratory sessions.

Prerequisites: ATE1112C
Credit Hours: 5
For Gainesville students this course may be taught in its entirely or lab portions at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.

ATE2622C  Advanced Veterinary Nursing & Technical Skills

The course is designed to build on the skills introduced in Veterinary Nursing and introduce new, more advanced nursing skills and technical procedures. This course is designed to involve and engage the student in care of the sick and hospitalized patient with emphasis on patient care, monitoring, emergency procedures, and record keeping.

Prerequisites: ATE1030C and ATE2621C
Credit Hours: 5
For Gainesville students this course may be taught in its entirely or lab portions at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.

ATE2632C  Surgery for Veterinary Nurses

This course introduces veterinary technician students to basic principles of veterinary operating room physical organization, technologies, and protocols for procedural preparation of the surgical facility and the surgical patient. Emphases in studies include techniques and protocols for asepsis, pack preparation and sterilization, and aspects of the surgical nursing role pre-, during and post-procedure. The course includes a preliminary review of elective, emergency, non-elective and special surgical procedures that are encountered in most clinical and research animal programs. An overview of basic concepts in veterinary anesthesia and pain management, relevant medical terminology, pharmacology, technologies, and techniques in anesthesia and pain management are presented. Laboratory exercises will implement and enforce principles of anesthesiology through hands-on experiential actions.

Prerequisites: ATE1112C
Credit Hours: 5
For Gainesville students this course may be taught in its entirely or lab portions at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.

ATE2657C  Anesthesia and Surgery for Veterinary Nurses

This course introduces veterinary technician students to basic principles of veterinary operating room physical organization, technologies, and protocols for procedural preparation of the surgical facility and the surgical patient. Emphases in studies include techniques and protocols for asepsis, pack preparation and sterilization, and aspects of the surgical nursing role pre-, during and post-procedure. The course includes a preliminary review of elective, emergency, non-elective and special surgical procedures that are encountered in most clinical and research animal programs. An overview of basic concepts in veterinary anesthesia and pain management, relevant medical terminology, pharmacology, technologies, and techniques in anesthesia and pain management are presented. Laboratory exercises will implement and enforce principles of anesthesiology through hands-on experiential actions.

Prerequisites: ATE1112C
Credit Hours: 5
For Gainesville students this course may be taught in its entirely or lab portions at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.

ATE2680C  Animals in Research & Exhibition

This course will focus on husbandry, diseases & veterinary care of animals in the laboratory for use as research models. Additionally, the husbandry, diseases & veterinary care of animals exhibited to the public through zoos and aquariums will be examined. Medical and ethical issues of the use of animals will be discussed. Factors such as environmental enrichment and mental stimulation will be highlighted. Wildlife rehabilitation facilities and principles will be taught.

Prerequisites: None
Credit Hours: 4

ATE2710C  Veterinary Emergency & Critical Care

Veterinary Emergency and Critical Care is designed to apply the principles of medicine taught earlier in the program to common emergency situations in veterinary medicine. There is emphasis on critical patient care, including neonatal care. There will be a special focus on emergency procedures, fluid therapy, drug applications, and pain management.

Prerequisites: ATE2622C
Credit Hours: 4

ATE2102C  Test Preparation & Skills Review

This course will provide the student with the necessary review in order to prepare them to take the Veterinary Technician National Examination (VTNE). Materials covered will include a comprehensive review of the skills and knowledge covered in the exam.

Prerequisites: ATE1030C, ATE1648C, ATE2610C, ATE2657C
Credit Hours: 3
For Gainesville students this course may be taught in its entirely or lab portions at the separate educational center location, 2400 SW 13th St., Gainesville, FL 32608.
ATE1943  Externship A: Office Management & Reception

This course is designed to provide students with real-world experience in the animal hospital. Students will spend a total of 90 hours over 10 weeks at a local animal hospital, performing office manager and reception duties.

Prerequisites: ATE1003C and ATE1312C  Credit Hours: 3

ATE2944  Externship B: Kennel & Veterinary Assistant

This course is designed to provide students with real-world experience in the animal hospital. Students will spend a total of 60 hours over 11 weeks at a local animal hospital, performing veterinary assistant and kennel technician duties.

Prerequisites: ATE1002C, ATE1030C, and ATE1648C  Credit Hours: 2

ATE2945  Externship C: Veterinary Technician

This externship course is designed to provide students with real-world experience in the animal hospital. Students will spend a total of 210 hours over 11 weeks at a local animal hospital, performing veterinary technician duties.

Prerequisites: ATE1030C, ATE1648C, ATE2411C, ATE2610C, and ATE2620C  Credit Hours: 7

Applied Accounting (APA)

APA1111  Accounting I

The student is introduced to the fundamental principles of accounting as they relate to a sole proprietorship business. The course also includes: starting a double entry accounting system, journalizing business transactions and posting journal entries to the ledger.

Prerequisites: None  Credit Hours: 4  Offered Online: Yes

APA2121  Accounting II

This course continues the accounting cycle with coverage of bank reconciliations, accounting for fixed assets, methods of inventory evaluation, accounting for bad debts, notes receivable and payable.

Prerequisites: APA1111  Credit Hours: 4  Offered Online: Yes

APA2132  Accounting III

This course continues the accounting cycle with coverage of partnerships, corporations, long-term liabilities, investments and international operations, and analysis of financial statements.

Prerequisites: APA2121  Credit Hours: 4

APA3145  Computerized Accounting

A computer course for the accounting student which augments the concepts of basic and intermediate accounting already learned in Accounting I and II, using computer software to accomplish those tasks previously learned manually.

Prerequisites: APA2121  Credit Hours: 4

APA3803  Federal Income Taxation

A comprehensive course structured to thoroughly cover taxation for the individual as well as the self-proprietor. Moreover, the course introduces the student to corporate taxation using S Corporations to illustrate this material.

Prerequisites: APA2121  Credit Hours: 4

APA4803  Corporate Federal Income Taxation

This course covers tax knowledge beyond Individual Federal Income Taxation. The course covers the following topics: Tax Research, Corporate Formations, Corporate Distributions, Tax Levies, Acquisition and Reorganizations, Gift Tax, and Estate Tax.

Prerequisites: APA3803 and APA2121  Credit Hours: 4

Biological Sciences (BSC or MC)

BSC1020  Biology and The Human Experience

This course examines the nature of living organisms with an emphasis on humankind. It examines the evolution of life and the structure and functions of cells. It surveys human biology including anatomy and physiology, human inheritance, disease and nutrition. Emphasis is placed on the implications and applications of the material to current issues.

Prerequisites: None  Credit Hours: 4

BSC1093  Anatomy and Physiology of Structural Systems

This course is a study of the structural systems (bone, muscle, etc.) of the human body and the principles of human physiology. The course is designed to enable the student to better understand the health problems of the patient and the physician's diagnosis and treatment.

Prerequisites: HSC1531 or BSC1094  Credit Hours: 4

BSC1094  Anatomy and Physiology of Organ Systems

This course is a study of the organ systems (digestive, reproductive, etc.) of the human body and the principles of human physiology

Prerequisites: HSC1531 or BSC1093  Credit Hours: 4

80 | Course Descriptions
BSC1085 Anatomy and Physiology I

This course is a study of the structure, function, and chemistry of the human body considering the following topics: body organization, the cell, tissues, membranes, glands, the integumentary system, the skeletal system, the muscular system, the nervous system, and the special senses.

Prerequisites: None
Corequisites: None
Credit Hours: 4

BSC1085L Anatomy and Physiology I Lab

The purpose of this course is to provide the student with laboratory exercises in anatomy and physiology. The course is intended to enhance topics covered in the lecture course. Students will use models, dissection material and laboratory equipment to explore the structure of the skeletal, muscular and nervous systems.

Prerequisites: None
Corequisites: BSC1085
Credit Hours: 1

BSC1086 Anatomy and Physiology II

This course is the study of structure, function, and chemistry of the human body considering the circulatory system, the respiratory system, the digestive system, the urinary system, fluid and electrolytes and the reproductive system.

Prerequisites: None
Corequisites: BSC1086L
Credit Hours: 4

BSC1086L Anatomy and Physiology II Lab

The purpose of this course is to provide the student with laboratory exercises in anatomy and physiology. The course is intended to enhance topics covered in the lecture course. Students will use models, dissection material and laboratory equipment to explore the structure of the circulatory, respiratory, digestive, urinary and reproductive systems.

Prerequisites: None
Corequisites: BSC1086
Credit Hours: 1

MCB2010 Microbiology

The purpose of this course is to provide the student with a general overview of the field of microbiology. Specifically, the student will learn about cell biology, bacteria, viruses and the components of the immune system.

Prerequisites: None
Corequisites: MCB2010L
Credit Hours: 4

MCB2010L Microbiology Lab

The purpose of this course is to provide the student with laboratory exercises in anatomy and physiology. The course is intended to enhance the topics covered in the lecture course. Students will use laboratory equipment (microscope, slides, stains, etc.) and materials (Petri dish, cultures, etc) to examine microorganisms.

Prerequisites: None
Corequisites: MCB2010
Credit Hours: 1

Business Law (BUL)

BUL2131 Business Law and Ethics

This course introduces students to the interrelationship of law and ethics in the contemporary business environment. This includes the impact of the United States legal and litigation system on both laws and ethics for businesses and society. Contract, tort, and intellectual property laws are introduced, along with the Uniform Commercial Code, Equal Employment Opportunity Commission, and other regulatory laws.

Prerequisites: None
Credit Hours: 4
Offered Online: Yes

BUL4247 Business Law and Ethics II

The course examines the legal concepts of personal property and the sale of personal property; negotiable instruments; agency and employment; business organizations risk-bearing devices; and real property in the contemporary business environment. This includes the methods of acquiring personal property, formalities of a sale, various negotiable instruments, employee and employer relationships, the types of business forms, principles and types of insurance, and real property including mortgages and landlord/tenant relationships.

Prerequisites: BUL2131
Credit Hours: 4

Cardiovascular Technology (CVT)

CVT1201C Cardiovascular Physiology Concepts

This course is the study of the cardiovascular system, electrical conductivity of the heart, cellular structure and function, cardiac function, vascular function, organ blood flow, and cardiovascular integration, adaptation and pathophysiology.

Prerequisites: None
Credit Hours: 5

CVT1325C Peripheral Arterial Testing

Didactic: This course will review the peripheral arterial anatomy and physiology associated with the peripheral arterial system of both the upper and lower extremities. The student will learn the scanning protocol for the upper and lower arterial system and the diagnostic criteria for assessing vascular disease. This course will include duplex ultrasound, plethysmography (PVR), segmental blood pressures (SBP) and Direct Doppler waveform analysis. The student will also learn various diagnostic treatment and therapeutic options used in the treatment of peripheral arterial disease (PAD).

Laboratory: After preliminary introduction to the ultrasound system and physiologic testing equipment and an overall view of anatomy and physiology, the student will then apply hands-on experience as related to peripheral arterial testing. The student will learn how to obtain various scanning planes, and apply both color and Doppler spectral analysis of the arteries. The student will also learn how to perform Pulse Volume Recordings (PVR), Segmental Blood Pressures (SBP) and Photoplethysmography (PPG) to assess the function of the lower extremities both at rest and with treadmill testing. The student will obtain diagnostic criteria pertinent to the scaling of diagnostic criteria.

Prerequisites: CVT1201C
Credit Hours: 4
CVT1327C  Cerebrovascular Sonography

Didactic: This course will review cerebrovascular anatomy and physiology associated with vascular disease, and the mechanisms for stroke and transient ischemic attacks. The student will learn the scanning protocols for extra and intracranial vascular disease and the criteria for assessing disease. The student will learn the diagnostic and treatment options for patient care including minimally invasive and surgical treatment options including carotid stenting and endarterectomy. The student will learn scanning technique in the ultrasound laboratory related to the theory learned in the classroom. Laboratory: The student will apply hands-on experience as related to cerebrovascular testing. The student will learn how to obtain various scanning planes, and apply both color and Doppler spectral analysis of the subclavian artery, and the common, internal and external carotid arteries. In addition the student will obtain diagnostic criteria pertinent to the scaling of diagnostic criteria. Lastly, the student will receive an introduction to transcranial Doppler and imaging as related to cerebrovascular disease.

Prerequisites: CVT1201C  Credit Hours: 4

CVT1329C  Venous Testing

Didactic: This course will be a study of the deep and superficial venous anatomy and the normal and abnormal physiology associated with the venous system. The student will learn scanning of the deep and superficial system of both upper and lower extremities. The student will review various diagnostic and treatment options while continuing scanning in the ultrasound training laboratory. Laboratory: After review of the deep and superficial anatomy of the upper and lower venous system, the student will then apply hands-on experience as related to venous testing. The student will learn how to obtain various scanning planes, and apply both color and Doppler spectral analysis for the veins. Scanning protocols will be practiced and pathological conditions will be displayed. The student will obtain diagnostic criteria pertinent to the scaling of diagnostic criteria.

Prerequisites: CVT1201C  Credit Hours: 4

CVT1502C  EKG

Didactic: This course is designed to teach the students the fundamental principles and practices of EKG. The students will begin with the basics which include a brief history of the technology, the EKG system and the components of the QRS complex. The importance of the proper placement of the leads is discussed. Heart function as a component of the autonomic nervous system will be presented. The student will learn the basic principle changes associated with rate, rhythm, axis, hypertension and infarction. Laboratory: The laboratory will closely follow the lectures and provide hands-on experience with an EKG system. Students will learn the purpose of the EKG paper and identify the QRS complex. The relationship between the echocardiogram and EKG will be stressed. The student will learn how to apply EKG leads from the ultrasound system and make basic interpretations of rhythm and rate.

Prerequisites: CVT1201C  Credit Hours: 4

CVT1615C  Ultrasound Physics I

Didactic: This course will explain how mechanical principles are applied to ultrasound imaging. The student will learn how ultrasound images are generated, stored and manipulated. The course will focus on the basics of sound and ultrasound and how sound waves are measured and transmitted through various tissues in the body. Finally the student will learn how images are stored and what formats may be used for documenting images. Laboratory: The ultrasound physics lab will be the first introduction of the ultrasound system and transducers. The student will learn the various components of the ultrasound system including the monitor, keyboard, track ball and transducers. They will learn the importance of care with transducers and cables. The student will learn how to turn on the system, select transducer and application, enter in “patient’s” name, DOB etc., and define the image orientation (Cephalad, Caudad, Trans, and Sagital planes) and be able to make basic adjustments to the image quality.

Prerequisites: MAT1030  Credit Hours: 4

CVT1616C  Ultrasound Physics II

Didactic: This course will follow Ultrasound Physics I where the student will focus more on Doppler spectral analysis, color flow Doppler and power Doppler as well as storage display and ultrasound safety. The student will gain a basic level of comfort in setting up the ultrasound system for a basic examination. He or she will learn to identify and adjust the basic system controls including system set up, image zoom and magnification, and basic measurements. The student will also learn to explain the issue of ultrasound safety and how to limit exposure to the patient. Laboratory: The student will have hands-on experience in setting the system up, selecting transducers, specific application and properly identifying the various components of the system. The student will practice obtaining, optimizing, freezing and analyzing a Doppler spectrum. The student will practice obtaining and optimizing color and power Doppler images and identifying system controls that will help optimize the diagnostic image.

Prerequisites: CVT1615C  Credit Hours: 4

CVT1625C  Echocardiography I

Didactic: This course will introduce the student to echocardiography including a brief history of the echocardiography profession. The student will review physics and instrumentation as it is related specifically to echocardiography. In addition, the student will be provided an overview of echocardiographic techniques, which will be provided in the laboratory. The subject of contrast echocardiography will be discussed. This will be the student's formal introduction to the echocardiographic examination and will follow with lectures on the evaluation of the systolic function of the left ventricle. Laboratory: After preliminary review of the echocardiography system, the student will then apply hands-on experience as related to echocardiography testing. The student will apply scanning technique with physical principles and learn the comprehensive cardiac imaging protocol. In the lab, the student will learn patient position and focus on transducer placement and the approach to transthoracic imaging. While in the lab and scanning fellow students the student will practice the technique in order to assess the systolic function of the left ventricle.

Prerequisites: CVT1201C  Credit Hours: 4
CVT1626C  Echocardiography II

Didactic: Echocardiography II is a course that brings greater depth of learning in cardiac anatomy and function, the role of hemodynamics and an introduction to cardiac disease. The student will initially focus on the cardiac atriums, ventricles and the atrial septum. The role of hemodynamics will review the method of quantifying cardiac blood flow by measuring blood flow including pressure gradients. Next the student will be introduced to pericardial disease, including cardiac tamponade and pericardial restriction. Lastly the student will focus on valvular disease.

Laboratory: The student will advance their skills in the laboratory practicing four chamber views and applying pre and post processing functions to optimize echocardiographic imaging. The student will also learn how to measure cardiac chambers dimensions and as well as cardiac functions including pressure gradients. An overview of M-Mode imaging will be applied at this segment of the laboratory training.

Prerequisites: CVT1625C
Credit Hours: 4

CVT1627C  Echocardiography III

Didactic: This course reviews the common pathologies associated with cardiac disease. Initially the student will study the pulmonary and tricuspid valves. The student will learn about pulmonary stenosis and regurgitation with emphasis on the right ventricular outflow tract. Next the student will be presented with clinical and echocardiographic findings of endocarditis and the evolution of diagnostic criteria to determine the various stages of disease. Prosthetic valves will be reviewed. The student will study echocardiography and coronary artery disease including detection and quantification of wall motion abnormalities. The physiologic basis of stress echocardiography will be discussed followed by the detection of coronary artery disease. The course will complete with a study of dilated cardiomyopathies and inflammatory diseases including Chagus myocarditis.

Laboratory: The student will continue to advance their skills in the laboratory with greater emphasis on performing examinations with minimal instructor supervision. The student will be expected to have a comprehensive understanding on prerequisites and image optimization controls. At this point of training the student must perform an examination within a specified time frame and be able to capture images for measurement and interpretation.

Prerequisites: CVT1626C
Credit Hours: 4

CVT2628C  Echocardiography IV

Didactic: This is the final echocardiography course in the program that completes an overview of echocardiography and pathologies. Echocardiography in systemic disease, various other cardiac diseases including hypertrophic and congenital heart diseases, aortic diseases of the large branches of the aorta both thoracic and abdominal will be reviewed. The student will also review the intensive Care Unit (ICU) and perioperative applications including, intra, and postoperative echocardiography. The student will learn about the various cardiac masses and tumors and review the source of emboli, which is covered in depth in Venous Testing.

Laboratory: The student will complete the echocardiography lab by demonstrating the ability to provide a comprehensive echocardiogram without supervision. This will include explaining the procedure to the patient, preparing the patient for the examination, setting up the equipment for a routine study, obtaining 1) parasternal 2) apical, 3) subternal and 4) suprasternal views. The student will be expected to make the necessary adjustments with the ultrasound system to optimize image, color and Doppler findings. The student will be able to freeze, make measurements, and annotate.

Prerequisites: CVT1627C
Credit Hours: 10

CVT2191  Clinical Externship I

This course is the student’s first introduction to clinical imaging in the cardiac and vascular setting. The student will be expected to learn the hospital and department structure, emergency codes and identify the key personnel. While the student should be proficient at scanning a patient without disease, he or she will be expected to “back-scan” patients upon the discretion of the clinical instructor. They will be expected to review findings and help prepare data for interpretation. The student will also assist in escorting the patient from the department and prepare the examination room for the next patient study. The student will be expected to research cases and discuss at a basic level the diagnostic study as it relates to the cardiovascular pathology.

Prerequisites: CVT1627C
Credit Hours: 4

CVT2192  Clinical Externship II

Once the student is oriented to the facility, department and protocols, he or she will advance to the intermediate stage of their training. After the successful conclusion of 300 hours in Clinical I, the student will be expected to take a more independent role in cardiovascular testing. This includes participating in testing with less supervision but always at the discretion of the clinical supervisor. In addition, the student should be able to complete a comprehensive uncomplicated examination by him or herself within a reasonable amount of time dictated by the clinical instructor. The student should be able to explain findings with patients’ clinical symptoms and on a basic level discuss diagnostic and therapeutic options. Students will be expected to stay abreast of current clinical practices as out lined by professional societies and journals.

Prerequisites: CVT2191
Credit Hours: 10
CVT2193  Clinical Externship III

Clinical III represents the final term for clinical training. This course is designed to ensure the student has obtained basic competencies required for entry level cardiovascular employment. The student will be able to perform a variety of cardiovascular studies independently and only require assistance or direction on the most difficult or challenging cases. At this stage of training the student will have learned the ability to integrate clinical findings with cardiovascular testing results. In addition, the student will be able to comment on complimentary diagnostic studies and discussion various treatment options. He or she will also continue with professional journal reviews and communication with colleagues and the schools clinical coordinator.

Prerequisites: CVT2192  Credit Hours: 10

Chemistry (CHM)

CHM1020  Introduction to Chemistry

This course provides an overview of elementary principles of modern chemistry, including basic measurements, chemical bonding, chemical reactions, stoichiometry, concentration of solutions, and chemical nomenclature.

Prerequisites: MAT1030 or MGF1106  Credit Hours: 4
Corequisites: None

CHM1033  Chemistry for Health Sciences

This course provides a survey of the principles of Inorganic and General Chemistry, Organic Chemistry and Biochemistry and their applications to human anatomical and physiological functions.

Prerequisites: MAT1030  Credit Hours: 4
Corequisites: CHM1033L

CHM1033L  Chemistry for Health Sciences Lab

The purpose of this course is to provide the student with laboratory exercises in chemistry for health sciences. The course is intended to enhance topics covered in the lecture course. Students will use laboratory equipment to perform experiments to explore chemical concepts of General, Inorganic Chemistry, Organic Chemistry and Biochemistry and relate these applications to human anatomical and physiological functions.

Prerequisites: MAT1030  Credit Hours: 1
Corequisites: CHM1033

Communications (COM)

COM2612  Social Media and Society

This course explores the evolution and application of social media technologies and ideas. It focuses on contrasting conventional media forms and practices with social media technologies and application. Students will learn the relevance and dynamic value of social media in contemporary mass communication realities. It will contribute to the students' understanding of the changing media environment, analog versus digital technology, printing to digital newspapers, smart phones and tablets and their various uses, new media and their application to conventional media, the internet, advertising and public relations. Students will also be exposed to issues of ethics, law and global communication policies and practices.

Prerequisites: None  Credit Hours: 4

Computer General Studies
(Non-Computer Science) (CGS)

CGS1100C  Computer Applications I

This course provides an introductory study of computer topics. Students completing this course will have a solid understanding of how to use a personal computer, access information using the Internet, send and receive email, manage computer files and utilize operating system tools. In addition, the students will receive hands-on experience with word processing, spreadsheets and presentation software. The students will also gain an understanding of ethical issues related to the use of computers. This course utilizes classroom lectures and hands-on computer exercises. No prior experience with computers is assumed.

Prerequisites: None  Credit Hours: 4

CGS1170C  Internet Fundamentals

This course introduces each student to the power of the unlimited information resource known as the Internet. The history of the Internet, how to understand addresses, expediting searches, downloading, and the basics of HTML and Web pages are covered. This is accomplished using hands-on instruction. This course includes a lab component that provides students with additional opportunities to strengthen computer skills.

Prerequisites: None  Credit Hours: 4

CGS1571C  Computer Applications II

This course provides an intermediate study of computer topics. Students completing this course will understand how to use a personal computer, access information using the Internet, send and receive email, manage computer files and utilize operating system tools. This course utilizes classroom lectures and hands-on computer exercises.

Prerequisites: CGS1100C  Credit Hours: 4

Offered Online: Yes
CGS2510C  Computerized Spreadsheets

This course introduces the student to computerized spreadsheets using a current, industry standard application. Formula development, editing, formatting, macro building, graphics, printing and other features will be performed using hands-on training. Each student will use a state-of-the art personal computer. This course includes a lab component that provides students with additional opportunities to strengthen computer skills.

Prerequisites: CGS1100C
Credit Hours: 4

Criminal Justice (CCJ)

CCJ1017  Criminology

This course is designed to explore crime, its context, and its causes. A foundation will be provided concerning the basic concepts of crime, law, and criminology. Theories of crime causation will be explored, and crime typologies will be examined, including different kinds of crimes prevalent in our society. Students will also gain an overview of the criminal justice system. This course presents a balanced perspective on the field of criminology for new students to the discipline.

Prerequisites: None
Credit Hours: 4

CCJ1020  Introduction to the Criminal Justice System

This course provides a comprehensive survey of the history, philosophy, and organization of the American police, courts, and correctional institutions, including probation and parole. The focus of this course is a systems perspective emphasizing the conflict between concerns for due process and concerns for crime control.

Prerequisites: None
Credit Hours: 4

CCJ1306  Introduction to Corrections

This course introduces students to the study of corrections – the institutionalized system through which society incarcerates or otherwise punishes certain individuals deemed “criminals.” Using empirical research and theory, this course examines issues related to the correctional system itself, and the social forces that both affect and are affected by the operation of corrections. Students will review research on trends in incarceration rates, philosophical and practical approaches toward the purpose of corrections, examine how prisons and other correctional departments operate, and give careful consideration to topical issues such as race/ethnicity discrimination, incarceration of women, and how trends in incarcerations and crime might be related.

Prerequisites: None
Credit Hours: 4

CCJ2488  Ethics in Criminal Justice

This course is designed to introduce students to ethical decision-making in the criminal justice system. Topics include determining moral behavior, developing moral and ethical behavior, ethics and law enforcement, ethics and the courts, ethics and corrections, the ethics of punishment, policy and management issues, professionalism, pride and ethics for practitioners.

Prerequisites: CCJ1017, or CCJ1306, or CCJ1020
Credit Hours: 4

CCJ2500  Juvenile Delinquency

This course explores juvenile offenders, the role of theory in developing our understanding of them and their offenses, and our societal efforts to better manage the problems of delinquency. Many facets of juvenile delinquency will be explored including the major theories within the field that attempt to explain deviant behavior, the juvenile justice system, and the historical development of societal control of those deemed by society to be juvenile delinquents.

Prerequisites: CCJ1017, or CCJ1306, or CCJ1020
Credit Hours: 4

CCJ2687  Criminal Victimization

This course covers contemporary developments in the field of victimology, its conceptual boundaries, its basic concepts and literature, its subfields and role as a field of study within criminology and criminal justice. The historical and emerging roles of victimology as a field of study are examined and discussed in depth. Special attention is paid to apply learning objectives with respect to each student’s personal experiences with the human dimensions of victimization. This course also deals with analysis of contemporary programs and trends in the criminal justice system's response to victims.

Prerequisites: CCJ1017 or CCJ1306 or CCJ1020
Credit Hours: 4

CCJ2940  Criminal Justice Externship

Prerequisites: Completion of all Criminal Justice core courses and approval of the Director of Education
Credit Hours: 6

CJE1680  Computer Crime Investigation

This course covers the recovery and analysis of digital evidence, addressing legal and technical issues. The course covers foundational concepts such as file system structures, MAC times, and network protocols; tools for extracting evidence.

Prerequisites: None
Credit Hours: 4

CJE2006  Theory and Practice for Law Enforcement

This course examines current thinking and experience with respect to understanding, changing, and reforming police programs and practices. The course focuses on the American police experience, reviewing major innovations, exploring their rationale, and examining organizational impediments to their implementation. The course includes an emphasis on the use of force, women in policing, and specialized units.

Prerequisites: CCJ1017, or CCJ1306, or CCJ1020
Credit Hours: 4

CJE2679C  Crime Scene Analysis

This course covers procedures for initially approaching a crime scene; the importance of following proper procedure and protocol in searching, collecting, and packaging crime scene evidence; how to insure the integrity and chain of evidence rules that will be acceptable in a court of law; how to identify and collect various forms of evidence ranging from biological fluids to weapons and firearms; and how to document a crime scene as well as explain different techniques for handling evidence.

Prerequisites: CCJ1017, or CCJ1306 or CCJ1020
Credit Hours: 4
Developmental Psychology (DEP)

DEP2004 Human Growth and Development

Study of normal human growth and development from conception throughout the life span. Focus is on fundamental changes within an individual's domains of physical, cognitive and psychosocial development and of interrelationship between the environment and the individual.

Prerequisites: None  Credit Hours: 4

Offered Online: Yes

Economics (ECO)

ECO1000 Introduction to Economics

This course is designed to provide students with a general knowledge of the structure and function of economic systems with major emphasis on the American economy, its strengths, its weaknesses, its history, and its current condition. Emphasis will be placed on economics as a societal and cultural phenomenon, focusing on how it affects daily life, current events, and the future.

Prerequisites: None  Credit Hours: 4

Offered Online: Yes

ECO2013 Principles of Macroeconomics

Topics in this course include the American economics system, production, income, consumption, and distribution as related to business.

Prerequisites: ENC1100 or ENC1201 or MTB1103 or ECO2027 or ECO1000  Credit Hours: 4

ECO2027 Principles of Microeconomics

Consumer behavior determining demands for good and services. This course introduces the student to the theory of the firm including production, costs and pricing, and distribution to production factors.

Prerequisites: ENC1100 or ENC1201 or MTB1103 or ECO2013 or ECO1000  Credit Hours: 4

Emergency Medical Services (EM or EMS)

EMS1153 Introduction to Emergency Medical Technician

This course is an introduction to EMT. The course introduces National Education Standards topics of Emergency medical care services systems; Roles, responsibilities and professionalism of EMS personnel; Workforce safety and wellness; Documentation; EMS system communication; Medical/legal and ethics; lifting and moving patients. In addition medical terminology essential to the EMT will be introduced. Students will complete American Heart Association training in Basic Life Support.

Prerequisites: None  Credit Hours: 4

EMS1154C Emergency Medical Technician I

This course introduces the EMT student to the pre-hospital environment which includes emergency medical services systems; EMT safety; medical, legal, and ethical issues. The course is an in-depth study of anatomy, physiology, lifting, moving patients, airway management, patient assessment; general pharmacology; respiratory, cardiac, diabetic emergencies and allergic reactions as well as communication; scene size up; and documentation. This is an interactive course based on the National Emergency Medical Services Education Standards including lecture, skills laboratory, and an externship.

Prerequisites: Physical examination by a licensed physician, and VECHS (voluntary employment criminal history search) and BLS Provider certification.

Credit Hours: 7

EMS1155C Emergency Medical Technician II

This course is an in-depth study of medical emergencies including poisoning, overdose, obstetrics and gynecological emergencies, infants, children, environmental and behavioral emergencies. Skills required to handle advanced airway management, trauma emergencies, hazardous materials and on scene operations will be taught. This is an interactive course based on the National Emergency Medical Services Education Standards including lecture, skills laboratory, and an externship.

Prerequisites: EMS1154C

Credit Hours: 8

EMS1671 Paramedic I

This course consists of the preparatory phase of the National Highway Traffic Safety Administration, National Emergency Medical Services Core Content, Scope of Practice Model, and Educations Standards Paramedic curriculum. It includes Anatomy & Physiology, Preparatory, Pathophysiology, Patent Assessment, Airway Management, Respirations and Artificial Ventilation, Pharmacology, Medication Administration, Medicine: Respiratory and Gynecology, Obstetrics and Neonatal Care. This is an interactive course that coincides with lecture, skills laboratory and an externship program.

Prerequisites: EMS1155C

Credit Hours: 8

Corequisites: EMS1090L and EMS2690
EMS1090L  Paramedic I Laboratory

Lab skills will be introduced and practiced in conjunction with the cognitive standards being explored each week. The Paramedic I through IV Lab class objectives are to prepare the student for application of skills in the clinical and field experiences. The lab classes will also include the required National Registry portfolio psychomotor skills and scenarios. Scenarios will be formative and summative Scenario Lab evaluations for pediatric, adult, and geriatric patients covering the following Scenario Topic Areas: Respiratory Distress/Failure, Chest Pain, Cardiac Rhythm Disturbance, Stroke, Overdose, Abdominal Pain, Allergic Reaction/Anaphylaxis, Diabetic Emergency, Psychiatric Condition, Seizure, OB/GYN, Blunt Trauma, Penetrating Trauma, Burns, and Hemorrhage.

Prerequisites: EMS1155C  Credit Hours: 4
Corequisites: EMS1671 and EMS2690

EMS2690  Paramedic I Externship

This course continues Paramedic psychomotor skills related to patient assessment and management in the clinical setting. Skills that have been practiced in the laboratory setting, and in which students have obtained competence, will be practiced in a clinical setting under the direct supervision of an instructor or preceptor in both pre-hospital and in-hospital settings. The student will progress from initially observing (in Paramedic I) to serving as a team leader (in Paramedic V) directing patient care. Emphasis is on safety of the care providers, safety of the patient, and observing all parameters of paramedic patient care including patient confidentiality. Laboratory skills must be mastered prior to the student entering any field or clinical externship.

Prerequisites: EMS1155C  Credit Hours: 2
Corequisites: EMS1671 and EMS1090L

EMS2672  Paramedic II

This course consists of the preparatory phase of the National Highway Traffic Safety Administration, National Emergency Medical Services Core Content, Scope of Practice Model, and Educations Standards Paramedic curriculum. It includes Medicine: Medical Overview, Neurology, Abdominal and Gastrointestinal Disorders, Immunology, Infectious Diseases, Endocrine Disorders, Psychiatric, Cardiovascular, Toxicology, Respiratory, Hematology, Genitourinary/Renal, Non-Traumatic, Musculoskeletal Disorders, Diseases of the Eyes, Ears, Nose, and Throat, Shock and Resuscitation, Special Patient Populations: Pediatrics, Geriatrics, Patients with Special Challenges. This is an interactive course that coincides with lecture, skills laboratory and an externship program.

Prerequisites: EMS1671, EMS2690, EMS1090L, and be a Florida State Licensed EMT  Credit Hours: 7
Corequisites: EMS2091L and EMS2691

EMS2091L  Paramedic II Laboratory

This course presents paramedic psychomotor skills from the US DOT, National highway Traffic Safety Administration, National Emergency Medical Services Core Content, Scope of Practice Model, and Education Standards Paramedic curriculum. This is a laboratory course and will involve hands-on skills with manikins and other teaching tools. The student must be able to physically kneel, lift other persons to place them on a stretcher, and direct patient care. The laboratory will use training sessions and will progress to patient emergency scenarios in which the student will direct patient care. Laboratory skills must be mastered prior to the student entering any field or clinical externship.

Prerequisites: EMS1671 and be a Florida State Licensed EMT  Credit Hours: 4
Corequisites: EMS2672 and EMS2691

EMS2691  Paramedic II Externship

This course continues Paramedic psychomotor skills related to patient assessment and management in the clinical setting. Skills that have been practiced in the laboratory setting, and in which students have obtained competence, will be practiced in a clinical setting under the direct supervision of an instructor or preceptor in both pre-hospital and in-hospital settings. The student will progress from initially observing (in Paramedic I) to serving as a team leader (in Paramedic V) directing patient care. Emphasis is on safety of the care providers, safety of the patient, and observing all parameters of paramedic patient care including patient confidentiality. Laboratory skills must be mastered prior to the student entering any field or clinical externship.

Prerequisites: EMS1671 and be a Florida State Licensed EMT  Credit Hours: 2
Corequisites: EMS2091L and EMS2672

EMS2673  Paramedic III

This course consists of US DOT, National Highway Traffic Safety Administration, National Emergency Medical Services Core Content, Scope of Practice Model, and Educations Standards Paramedic curriculum. The following areas are covered in this course Trauma: Trauma Overview, Bleeding, Chest Trauma, Abdominal and Genitourinary Trauma, Orthopedic Trauma, Soft Tissue Trauma, Head, Facial, Neck, and Spine Trauma, Special Considerations in Trauma, Multi-System Trauma, Environmental Emergencies, Pathophysiology, assessment, and management of Multi-System Trauma; Preparatory: Workforce Safety and Wellness; EMS Operations: Incident Management, Multiple Casualty Incidents, Vehicle Extrication, Hazardous Materials. This is an interactive course that coincides with lecture, skills laboratory and an externship program.

Prerequisites: EMS2672, and EMS2691, and EMS2091L  Credit Hours: 5
Corequisites: EMS2092L and EMS2692
EMS2092L  Paramedic III Laboratory
This course presents paramedic psychomotor skills from the US DOT, National highway Traffic Safety Administration, National Emergency Medical Services Core Content, Scope of Practice Model, and Education Standards Paramedic curriculum. This is a laboratory course and will involve hands-on skills with manikins and other teaching tools. The student must be able to physically kneel, lift other persons to place them on a stretcher, and direct patient care. The laboratory will use training sessions and will progress to patient emergency scenarios in which the student will direct patient care. Laboratory skills must be mastered prior to the student entering any field or clinical externship.
Prerequisites: EMS2672
Corequisites: EMS2673 and EMS2692
Credit Hours: 4

EMS2693  Paramedic IV Externship
This course continues Paramedic psychomotor skills related to patient assessment and management in the clinical setting. Skills that have been practiced in the laboratory setting, and in which students have obtained competence, will be practiced in a clinical setting under the direct supervision of an instructor or preceptor in both pre-hospital and in-hospital settings. The student will progress from initially observing (in Paramedic I) to serving as a team leader (in Paramedic V) directing patient care. Emphasis is on safety of the care providers, safety of the patient, and observing all parameters of paramedic patient care including patient confidentiality. Laboratory skills must be mastered prior to the student entering any field or clinical externship.
Prerequisites: EMS2673
Corequisites: EMS2674 and EMS2093L
Credit Hours: 4

EMS2094L  Paramedic V Laboratory
This course completes the Paramedic psychomotor skills related to patient assessment and management in the clinical setting. It is a capstone course where students will be spending their field experiences as team leaders. Emphasis is on safety of the care providers, safety of the patient, and observing all parameters of paramedic patient care including patient confidentiality. Laboratory skills must be mastered prior to the student entering any field or clinical externship.
Prerequisites: EMS2674
Corequisites: EMS2094L and EMS2694
Credit Hours: 3

EMS2674  Paramedic IV
This course consists of US DOT, National Highway Traffic Safety Administration, National Emergency Medical Services Core Content, Scope of Practice Model, and Educations Standards Paramedic curriculum. The areas covered are Preparatory: Medical/Legal and Ethics, EMS Systems; Life Span Development; Public Health; EMS Operations: Principles of Safely Operating a Ground Ambulance, Air Medical, Terrorism and Disaster. This is an interactive course that coincides with lecture, skills laboratory and an externship program.
Prerequisites: EMS2673, EMS2692, and EMS2092L
Corequisites: EMS2674 and EMS2092L
Credit Hours: 4

EMS2675  Paramedic V
This is the capstone course for the Paramedic portion of the program. Students will complete certification or recertification courses in BLS, ACLS, and PALS. Additional certifications such as PHTLS, NALS etc. may be offered. The final weeks of the course will be a National Registry EMT-P exam preparation and review. This is an interactive course that coincides with lecture, skills laboratory and an externship program.
Prerequisites: EMS2674, EMS2693, and EMS2093L
Corequisites: EMS2674 and EMS2094L
Credit Hours: 3

EMS2093L  Paramedic IV Laboratory
This course presents paramedic psychomotor skills from the US DOT, National highway Traffic Safety Administration, National Emergency Medical Services Core Content, Scope of Practice Model, and Education Standards Paramedic curriculum. This is a laboratory course and will involve hands-on skills with manikins and other teaching tools. The student must be able to physically kneel, lift other persons to place them on a stretcher, and direct patient care. The laboratory will use training sessions and will progress to patient emergency scenarios in which the student will direct patient care. Laboratory skills must be mastered prior to the student entering any field or clinical externship.
Prerequisites: EMS2673
Corequisites: EMS2674 and EMS2693
Credit Hours: 3
English Composition (EN or ENC)

ENC0010C Essential English I
This course provides an overview of the functions of the parts of speech, sentence types, capitalization, punctuation, and spelling; it gives an introduction to paragraph development in composition/written English. Course methods include a combination of individual tutoring, conferences, classroom and lab activities. Lab hours required: 20.
Prerequisites: Placement through entrance testing  Credit Hours: 4

ENC0012C Essential English II
This course is designed principally to guide the student to the mastery of sentence structure and paragraph writing. Emphasis is given to clear and logical development of ideas. Students apply grammar skills and precise vocabulary usage to composition/written English. Course methods include a combination of individual tutoring, conferences, classroom and lab activities. Lab hours required: 20.
Prerequisites: Placement through entrance testing  Credit Hours: 4

ENC1100 College English
This course provides a review of English grammar, mechanics, and paragraph development. The parts of speech are applied to the written communication process. Additional readings are included to highlight elements of composition.
Prerequisites: None  Credit Hours: 4

ENC1101 Composition I
In this course, paragraph development leading to the standard 5-part essay is introduced as students achieve clear and effective writing skills. Topics discussed include grammatical instruction, the writing process, and various essay modes.
Prerequisites: ENC1100 or ENC1201  Credit Hours: 4
Offered Online: Yes

ENC1102 Composition II
The principles of composition are studied and applied. Students obtain experience in expository writing. Methods of research and proper documentation are introduced for the preparation of reports and term papers.
Prerequisites: ENC1101  Credit Hours: 4
Offered Online: Yes

ENC1201 Business English
This course concentrates on proper English usage for business correspondence. Business terminology, common punctuation errors, English usage, and format will be discussed. At the end of this course, the student will be able to compose effective business correspondence including memos, letters and short reports. Special consideration is placed on purpose, scope, and audience analysis and adaptation.
Prerequisites: None  Credit Hours: 4

ENC4263 Writing for Management
Students learn to communicate more effectively in writing in a wide range of technical and professional situations. Students will examine the variables at work in all writing tasks-writer, reader, information, purpose, and context—and discuss how understanding of these variables works in creating written messages with an appropriate format, tone, and level of detail. Secondary objectives include learning how to respond effectively to and edit documents produced by others.
Prerequisites: ENC1100  Credit Hours: 4
Offered Online: Yes

Environmental Studies (EVR)

EVR1001 Living in the Environment
This course examines current environmental concerns and their management. It integrates and correlates the features of the natural environment with human activities. Topics include basic ecology, population growth, world health and hunger, energy resources, pollution, environmental regulations and, and Global Climate Change. It explores distribution and abundance of renewable and non-renewable resources, and emphasizes an understanding of environmental problems and their impact on people and society.
Prerequisites: None  Credit Hours: 4
Offered Online: Yes

Finance (FI or FIN)

FIN3105 Investments/Insurance
This course will introduce different types of security investments available to the institutional and private sector. Students will learn to evaluate individual securities by applying risk analysis, as well as fundamental and technical research. Topics will include bond investments, stock investments, commodities, futures, IRA, pension funds, and mutual funds. This course will also emphasize on how to evaluate the risks you face when buying insurance, how to use insurance to manage these risks, how to choose appropriate auto insurance, property insurance, small business insurance, and liability insurance. How to evaluate health care risks and choosing the best health care insurance policy. This course will offer how to evaluate the financial risks posed by disability and early death, and estimate the amount of disability and life insurance coverage you need.
Prerequisites: GEB1011 or STA2014  Credit Hours: 4
Offered Online: Yes

FIN3400 Corporate Finance
This course reviews the techniques corporations use to access a firm’s financial health, evaluate and plan its future development and make decisions that enhance its chances of survival and success.
Prerequisites: APA2121  Credit Hours: 4
Offered Online: Yes
General Business (GEB)

GEB1011  Business Principles
An overview of the American business system is presented in order to help the student understand the interrelationships among the functional areas of business organization, management, personnel, finance, data processing, marketing, and production. Forms of business ownership, governmental influences and ethical responsibilities of those in business are also reviewed.

Prerequisites: None  Credit Hours: 4
Offered Online: Yes

GEB2941  Industry Practicum
This course is a practical application course through which students work in an industry setting for a minimum of 90 hours, acquiring exposure to and experience in the area of business or industry for which they are preparing.

Prerequisites: Approval of the Director of Education  Credit Hours: 3

GEB3444  Business Trends and Issues
This course is designed to give students a view of the current issues that are being discussed in the business world. Students will be talking and learning about many hot-button issues in business, in addition to learning the importance of keeping up-to-date on information in their field of study. It is a bridge for students who are not already involved in business as part of their academic career to receive a great deal of information on the current environment in business.

Prerequisites: Junior Standing  Credit Hours: 4

Geography (GEA)

GEA1000  Geography
The study of the earth and its features, and of the distribution of life on the earth, including human life and the effects of human activity are discussed.

Prerequisites: None  Credit Hours: 4
Offered Online: Yes

GEA4191  World Environments
This course will provide a survey of physical, economic, political, and social systems that give unique character to the relationships among world regions. Through analysis of nine world regions and the countries in each, political, demographic, economic, cultural, and environmental themes will be considered in their geographic context. The course is organized to emphasize the comparisons among world regions and the interdependent relationships that are increasing through globalization.

Prerequisites: ENC1100  Credit Hours: 4
Offered Online: Yes

Health Care Administration (HSA)

HSA1100  Basics of the US Health Care System
This course provides students with a broad, fundamental introduction to the workings of the US Healthcare industry, including the economic, social, political and technological forces that shape the industry. The role of state and federal government and regulatory agencies in healthcare delivery is examined.

Prerequisites: None  Credit Hours: 4
Offered Online: Yes

HSA3160  Health Care Marketing
This course is an introduction to marketing concepts and how they are applied in the health care industry. Students will develop and apply strategies for management and marketing of health care services.

Prerequisites: HSA1100  Credit Hours: 4
Offered Online: Yes

HSA3173  Health Care Accounting
This course serves as an introduction to financial accounting in the health care industry.

Prerequisites: APA1111  Credit Hours: 4
Offered Online: Yes

HSA3180  Health Care Management and Leadership
This course is an in-depth examination of the application of management and organizational theory and concepts in health care institutions.

Prerequisite: MAN4151 and HSA1100  Credit Hours: 4
Offered Online: Yes

HSA4140  Health Care Strategy
This course is a study of the organizational functions of health care facilities. Students will explore strategic planning and management within the unique context of organizations concerned with the delivery and financing of Health Care.

Prerequisites: Final Term  Credit Hours: 4
Corequisites: HSA4850 (CAPSTONE)
Offered Online: Yes

HSA4170  Health Care Finance
This course focuses on financial management knowledge and an understanding of healthcare finance as it relates to health care organizations inclusive of hospitals, long term care facilities and home health agencies.

Prerequisites: HSA3173  Credit Hours: 4
Offered Online: Yes
HSA4191 Health Information Systems Management

This course serves to train students in effective planning, design, management, execution and use of various information system resources. Students will learn how to plan strategically and build the appropriate health management information technology infrastructure and understand implementation challenges to transform the way information is used and shared within and outside healthcare organizations.

Prerequisites: HSA3180  Credit Hours: 4
Offered Online: Yes

HSA4423 Health Care Law

This course serves as an overview of health care law. Students will focus on legal issues that affect health care organizations. Topics include presentation of the legal responsibilities and constraints of health administration, nursing and allied health practice at all levels. There will be an emphasis on health licensure, privileged communication, risk management and contemporary legal issues in health care administration.

Prerequisites: MNA1100  Credit Hours: 4
Offered Online: Yes

HSA4502 Risk Management and Patient Safety

This course provides students with basic knowledge in the implementation of quality improvement, risk management and organizational activities and responsibilities related to quality improvement in health care delivery systems. The course examines the issues of claims management, risk financing and proactive loss control; and the integration between risk management and patient safety functions.

Prerequisites: HSA3180  Credit Hours: 4
Offered Online: Yes

HSA4850 Health Care Administration Capstone

In this course students will use (a) directed research (b) client interviews and (c) observations to construct a thesis/term paper on a selected approved topic within health care. Students must demonstrate a thorough understanding and synthesis of the ethical, legal, social, political, socioeconomic and business issues which impact health care and health care organizations within the United States. This thesis may be (1) based on a case study of an organization and must address a specific issue; or (2) a research paper on a specific health care issue with recommendations on causes and solutions to the defined research problem.

Prerequisites: Completion of all Health Care Administration Core Classes  Credit Hours: 4
HSA4140  Credit Hours: 4
Offered Online: Yes

Health Information Management (HIM)

HIM2000 Medical Records Management

This course introduces the student to Electronic Health Records a current industry standard application such as Medcin. This course is designed to teach students a comprehensive understanding of the history, theory and functional benefits of Electronic Health Records (EHR) via textbook and software package, practical applications and guided exercises. Areas studied include instruction on electronic filing methods, processing, charting and analysis. Confidentiality of patient records is emphasized.

Prerequisites: HSC1531  Credit Hours: 4

HIM2222 Basic ICD Coding

This course concentrates on the guidelines used for disease classification and coding. The student learns to accurately assign diagnosis codes using the ICD coding (International Classification of Diseases, most current revision). Topics discussed include reimbursement and claim submission for medicare and third party payers.

Prerequisites: HIM2270  Credit Hours: 4

HIM2253 CPT-Current Procedural Terminology

The importance of understanding and applying Current Procedural Terminology (CPT) coding is emphasized. Students will learn how to code and classify procedures using CPT.

Prerequisites: HIM2270  Credit Hours: 4

HIM2270 Medical Insurance

This course offers a broad overview of various types of insurance and introduces specialized insurance forms related to the medical profession. Special emphasis is on insurance vocabulary and the proper completion of forms.

Prerequisites: HSC1531  Credit Hours: 4

HIM2280 Medical Coding and Billing Practicum

This course is 10 hours of lecture and 90 hours of supervised, practical hands-on experience in a medical office, hospital, and/or clinic. Additional hands-on experience may be obtained in a simulated medical office classroom on campus in which the student practices direct application of all medical insurance billing and coding skills and any other administrative functions of a medical insurance billing/coding professional.

Prerequisites: All classes in the Medical Insurance Billing/Coding Core must be completed prior to enrollment in this course.
HIM2800  Medical Billing and Coding Externship
This course is 10 hours of lecture and 150 hours of supervised, practical hands-on experience in a medical office, hospital, and/or clinic. Additional hands-on experience may be obtained in a simulated medical office classroom on campus in which the student practices direct application of all medical insurance billing and coding skills and any other administrative functions of a medical insurance billing/coding professional.
Prerequisites: Students must complete all major core requirements. Credit Hours: 6

Health Sciences/Resources (HSC)

HSC1000  Orientation to the Health Sciences
This course provides information needed to build a foundation to those students pursuing a career in a health, medical or science related field. Topics include medical terminology, basic anatomy and physiology, disease prevention and health promotion, cultural diversity, leadership and ethical responsibilities of healthcare workers. This course also introduces the student to medical math, infection control and OSHA Bloodborne Pathogens standards.
Prerequisites: None Credit Hours: 4

HSC1403C  Medical Emergencies
This course is designed to prepare the student to handle emergency situations and procedures. In addition, students will take an American Heart Association BLS provider course.
Prerequisites: None Credit Hours: 2

HSC1531  Medical Terminology
This course is designed to instruct students in basic principles of medical word building. The interrelationships of body structures and functions including their related terminology are stressed.
Prerequisites: None Credit Hours: 4

HSC2149  Pharmacology
This survey of drug classifications and calculations provides the student with an overview of how prescription drugs are administered to patients. In addition to learning general guidelines, students will be exposed to confidentiality issues and ethical considerations as they relate to administration and the use of prescription drugs.
Prerequisites: HSC1531 and BSC1093 or BSC1094 Credit Hours: 4

HSC3032  Community Health
This course examines the application of epidemiological and community health concepts in health services management. Additionally, the concepts of community organization, program planning, minority health, health care, mental health, environmental health, drugs, safety and occupational health are also discussed.
Prerequisites: None Credit Hours: 4

HSC3661  Health Care Communication
This course focuses on health care communication and informatics. Students will analyze key health care issues with an emphasis on health care policies and initiatives that shape health care delivery. This course prepares students to contribute to health communication research, patient counseling, materials design, program management and community relations.
Prerequisites: None Credit Hours: 4

Humanities (HUM)

HUM1020  Humanities
This course examines Eastern and Western humanities, focusing on arts and ideas, with the objective of creating a greater awareness of the world community. This course examines the various cultures of the Near East, Far East, and Africa relative to the Western tradition. The cultural and aesthetic perspectives in Western humanities is also examined, with the objective of facilitating the development of personal aesthetic sensibilities.
Prerequisites: ENC1100 Credit Hours: 4

Human Services (HUS)

HUS1003  Introduction to Mental Health Technology
Introduces the concepts of the therapeutic process and critical thinking for the mental health paraprofessional. Emphasizes fundamental skills, ethical/legal and biopsychosocial implications. Functions and responsibilities of the mental health specialist in promoting and maintaining mental health of individuals and families through the use of the therapeutic relationship and psychosocial strategies are introduced.
Prerequisites: None Credit Hours: 4

HUS1302  Basic Counseling Skills
Prerequisites: None Credit Hours: 4
HUS1604  
**Essential Bedside Skills for Mental Health Technicians**

This course is designed to provide students with the knowledge and skills necessary to deliver basic bedside care for patients in an inpatient residential facility.

*Prerequisites: None*  
*Course Prerequisites: HSC1531*  
*Credit Hours: 4*

HUS2111  
**Individual and Group Therapeutic Approaches**

This course emphasized individual and group process dynamics and theory. Topics discussed include assessment, case planning/management and professional ethics. Students study various types of groups and activities, skills used in mental health environments both inpatient and community based. The focus of this course is on design, principles, procedures and applications of various techniques.

*Prerequisites: DEP2004 or HUS1003 or HUS1302 or PSY1012*  
*Credit Hours: 4*

HUS2331  
**Assessment and Interventions in Mental Health**

Study of skills in conducting initial clinical assessments and making appropriate referrals to inpatient or outpatient treatment. Client issues include depression, suicide, eating disorders, sexual abuse, mental illness. Assessment techniques for both youth and adults, treatment planning/placement, clinical interventions, psychopharmacology, continuing care and relapse potential.

*Prerequisites: DEP2004 or HUS1003 or HUS1302 or PSY1012*  
*Credit Hours: 4*

HUS2400  
**Abused Substances and Their Effects**

This course is a study of physiological and sociological aspects of alcohol/drug use and abuse. Students learn classification and basic pharmacology of drugs and their effects, assessment and drug testing, etiological, behavioral, cultural, demographic and spiritual aspects and belief systems concerning alcohol/drug use. Processes of dependence and addiction are emphasized, as well as signs, symptoms and behavioral patterns of substance abusers.

*Prerequisites: DEP2004 and HUS1302*  
*Credit Hours: 4*

HUS2405  
**Substance Abuse Issues in Mental Health**

Intensive counseling experience in the field of alcoholism/drug abuse. Under Supervision, students perform core functions required for State of Florida Substance Abuse Specialist certification.

*Prerequisites: DEP2004 or HUS1003 or HUS1302 or PSY1012*  
*Credit Hours: 4*

HUS2420  
**Evaluation and the Treatment Environment**

Case work skills of assessment, interview techniques, treatment decisions, case presentation, and referral and follow-up for those in alcohol and drug fields. Codependency and dysfunctional family systems. Evaluation and assessment, treatment and self-help groups will be discussed.

*Prerequisites: DEP2004 or PSY1012 and HUS1302*  
*Credit Hours: 4*

HUS2424  
**Identification and Intervention in Substance Abuse**

The focus of this course is the study of treatment issues specific to alcohol/drug abuse. Diagnosis, adult children of alcoholics, denial, family disease concepts and cultural dimensions are addressed. Treatment issues with adolescents, women, elderly, gay/lesbian/bisexual clients are emphasized. Other topics discussed include treatment modalities, strengths and weaknesses, and selection of appropriate modality.

*Prerequisites: DEP2004 and HUS1302*  
*Credit Hours: 4*

HUS2520  
**Abnormal Psychology**

This course is an introduction to the etiology, treatment and prevention of abnormal behavior. Specialized terminology in the field of abnormal psychology is introduced. Topics studied include the use of DSM as a diagnostic tool. The impact of mental illness on the family is stressed. Students will study symptoms of schizophrenia, bipolar disorder, and other forms of psychopathology. Emphasis is placed on community resources, medications, stressors, risk, recognizing decompensation signs, when to seek professional help and effective ways of communicating with a person who has mental illness.

*Prerequisites: DEP2004 or HUS1003 or HUS1302 or PSY1012*  
*Credit Hours: 4*

HUS2540  
**Marriage and Family**

Develops a broad knowledge base of the dynamics and functioning of different family forms: single-parent, nuclear, post-divorce, remarriage, intergenerational families, and alternative family groups. Course will cover the life cycle of the family and the process and modification of family structures over time (e.g., birth of the first child, adolescent sexual development, leaving home, etc.). This course will also cover individual development from birth to death.

*Prerequisites: DEP2004 or HUS1003 or HUS1302 or PSY1012*  
*Credit Hours: 4*

HUS2841  
**Mental Health Externship**

The student is placed in community agencies relevant to mental health and work in a role related to the function of a mental health technician under the guidance of a Supervisor. Under supervision, the student will work with selected clients and apply acquired skills and principles studied in the classroom. The student is required to complete a minimum of 150 hours of externship and 10 hours of classroom lecture.

*Prerequisites: Completion of all Psychology (HUS)*  
*Credit Hours: 6*
Information Systems Management (ISM)

ISM4011 Management of Information Systems

This course introduces the students to Management Information Systems (MIS) and the appropriate use of MIS tools to gain a strategic and competitive advantage in the marketplace. As tomorrow’s managers, entrepreneurs, or business specialists, the students need to know how to use and manage information technology in today’s networked enterprises and global markets, such as the Internet, Intranet, and Extranet. In this dynamic environment, they will rely on interconnected networks of information systems for end user collaboration, including communications and computing among end user work groups and teams, and enterprise wide computing, including communications and information processing for business operations, managerial decision making, and strategic advantage.

Prerequisites: Senior Standing
Credit Hours: 4
Offered Online: Yes

Interdisciplinary Studies (IDS)

IDS2306 Contemporary American Issues

This course is designed to provide an interdisciplinary study of the major issues facing America. Topics include the environment, population, minorities, cities, crime, poverty, drugs, religion, values, and foreign policy.

Prerequisites: None
Credit Hours: 4
Offered Online: Yes

IDS2350 Critical Thinking

This is a course in practical reasoning, designed to sharpen the student’s ability to analyze, evaluate, and construct arguments. There will be an appraisal of the evaluation of evidence, practice in the detection of fallacies and irrelevancies, and the testing of arguments for validity and reliability to understand how these approaches assist in decision-making. Included among these strategies will be examining assumptions, Socratic questioning, analyzing experiences, and evaluation perspectives. These strategies will be applied to a number of real life situations.

Prerequisites: None
Credit Hours: 4
Offered Online: Yes

IDS2901 Special Topics Directed Independent Study

This course is an open-enrollment special topics course used to cover special subject matters not presently offered. Subjects will vary based on discipline and are subject to Program Chair/Special Topics Advisor approval.

Prerequisites: Candidates must have completed a minimum of five quarters or 60 credits and must have the approval of the Director of Education.
Credit Hours: 4
Offered Online: Yes

IDS2902 Special Topics Directed Independent Study

This course is an open-enrollment special topics course used to cover special subject matters not presently offered. Subjects will vary based on discipline and are subject to Program Chair/Special Topics Advisor approval.

Prerequisites: Candidates must have completed a minimum of five quarters or 60 credits and must have the approval of the Director of Education.
Credit Hours: 3
Offered Online: No

IDS2903 Special Topics Directed Independent Study

This course is an open-enrollment special topics course used to cover special subject matters not presently offered. Subjects will vary based on discipline and are subject to Program Chair/Special Topics Advisor approval.

Prerequisites: Candidates must have completed a minimum of five quarters or 60 credits and must have the approval of the Director of Education.
Credit Hours: 4
Offered Online: Yes

IDS2904 Special Topics Directed Independent Study

This course is an open-enrollment special topics course used to cover special subject matters not presently offered. Subjects will vary based on discipline and are subject to Department Chair/Program Chair approval.

Prerequisites: Candidates must have completed a minimum of five quarters or 60 credits and must have the approval of the Director of Education.
Credit Hours: 4
Offered Online: Yes

IDS2940 Industry Practicum

This course is a practical application course through which students work in an industry setting for a minimum of 90 hours, acquiring exposure to, and experience in, the area of business or industry for which they are preparing.

Prerequisites: Approval from the Director of Education.
Credit Hours: 3
Offered Online: No

IDS4914 Research Methods

This course is designed to teach students qualitative and quantitative research methods of educational research. Students will learn to read research reports including experimental, descriptive, qualitative, and historical approaches. Students submit a research proposal as part of the course requirements.

Prerequisites: STA2014, ENC1101, and Senior Standing
Credit Hours: 4
Offered Online: Yes
IDS4940  Professional Practicum
This course is a practical application course through which students work in an industry setting for a minimum of 120 hours, acquiring exposure to, and experience in, the area of business or industry for which they are preparing.
Prerequisites: Student must complete ALL Major Core requirements. Approval from the Program Chair and the Director of Education is required prior to registration.
Credit Hours: 4

Literature (LIT)

LIT2000  Introduction to Literature
This is a basic course in the appreciation of good literature, which is designed to help the student learn the elements, characteristics, and terminology necessary to study poetry, drama, and the short story. Students are required to keep an extensive reading journal and to write a research paper using analytical skills acquired in the course. A variety of films is used to illustrate various techniques employed by authors.
Prerequisites: None
Credit Hours: 4

Management (MAN)

MAN2021  Principles of Management
This course introduces students to the essential foundations of the supervisory/management experience. These include management schools of thought, the differences between supervision, management and leadership, effective communication, theories of motivation techniques and teamwork. The functions of management, including planning, organizing, staffing, leading and controlling are also introduced.
Prerequisites: None
Credit Hours: 4

MAN2202  Organizational Theory
This course examines the responsibilities and skills of management within the organization. Topics covered include the role of human resources in development of the organization and the employee. Motivating techniques, organizational change, team building, and trends in current organizations will also be covered. Case studies will assist in the process.
Prerequisites: GEB1011 or MAN2021
Credit Hours: 4

MAN2942  Business Industry Practicum
This course is a practical application course through which students work in an industry setting for a minimum of 90 hours acquiring exposure to and experience in the area of business or industry for which they are preparing.
Prerequisites: GEB1011, MAN2021, and approval of the Director of Education
Credit Hours: 4

MAN3605  Cross Cultural Human Relations
This is a skill-based course, which focuses on the impact of culture on business relationships, including negotiations.
Prerequisites: Junior Standing
Credit Hours: 4

MAN4151  Organizational Behavior and Human Resource Development
This course studies the behavior, structure, and processes of organizations. Topics such as group inter-group behavior, teamwork, motivation, communication, cultural diversity, global cultural considerations, and reward systems are studied as it relates to human resource development and training.
Prerequisites: MAN2021 or MAN2202 or GEB3444 or MNA3037
Credit Hours: 4

MAN4200  Operations Management
This course will examine applications that range from high-tech manufacturing to high-tech service in a review of the traditional topics of the field. Students will learn that operations management is best done with significant cross-functional integration and requires a global perspective for many of the topics. Accounting, finance, marketing, human resources, management, purchasing, logistics, and engineering impact how firms are run operationally. An emphasis will be placed on services, globalization, and cross-functional integration.
Prerequisites: MAN2021
Credit Hours: 4

MAN4504  Business Policy and Strategy
A study of long term strategy and planning management as it relates to the decision making process. Strategic management is introduced as the set of decisions and actions that will result in the design and activation of strategies to achieve the objectives of an organization. Particular attention will be paid to independent development of corporate objectives and a concise mission statement for a company.
Prerequisites: SBM1000 or MAN2021 or GEB3444 or MNA3037, and Senior standing
Credit Hours: 4

Management-Applied (MNA)

MNA1100  Principles of Human Resources
This course is designed to familiarize students with employment laws including the Americans with Disabilities Act, the Equal Pay Act, Worker’s Compensation, general provisions of OSHA, personnel practices, the hiring process, performance appraisal, employee rights and discipline, employee retention, and employee unions.
Prerequisites: None
Credit Hours: 4
MNA3037  Project Management and Planning

This class is a general introduction class in project management designed to give students an exposure in the general project management concepts. This course is meant to provide students with a framework on which to build project management knowledge that relates to their own specific subset of knowledge. The class will give students a platform on which to rest the knowledge that they gain throughout the rest of the program.

Prerequisites: Junior Standing  Credit Hours: 4

MNA3038  Project Estimation and Budgeting

The content of this class deals with two of the most important components of project management, the need for on-time and within budget completion. This class will familiarize students with these concepts and develop a set of skills that the students can use to ensure that these vital goals are attained. They will be able to work with limitations to achieve the goals of the project.

Prerequisites: Junior Standing  Credit Hours: 4

MNA3521  Quality Assurance and Evaluation

This course is designed to teach how aspects of the quality management framework apply to the conduct of a project as well as the product, process, or service developed as a result of the project. The class will give students the skills it takes to apply a quality philosophy and standard to the projects in which they will be involved. The course will also start to prepare students for the rigorous standards of customer service, both internal and external, that are expected in project management.

Prerequisites: Junior Standing  Credit Hours: 4

MNA4039  Project Risk Management

This course is designed to give insight into the problems that may arise in a project setting. This course will also give students the needed skills to identify risks and make preparations to diffuse and solve conflicts. This course will also allow students to become familiar in the preparation and skills used to diffuse risk in the project management setting.

Prerequisites: Junior Standing  Credit Hours: 4

MNA4574  Contracts and Procurement

This course will familiarize students with the cost side of project management. Students will be given a thorough overview of estimating project costs through discussion of contracts and procurement. Students will learn how to negotiate contracts for goods or services associated with projects as well as accurately identify and summarize the cost involved in a project. In addition there will be a focus on developing the skills necessary for students to be able to successfully negotiate a variety of aspects of a project such as resources, timing, scope, etc.

Prerequisites: Junior Standing  Credit Hours: 4

MNA4920  Project Management Seminar

To allow students to have a concrete first-hand experience in guiding a project from start to finish. The course is meant to deliver a real life project to students with the help of community organizations and allow students to participate in all aspects of the project while gaining experience in the field of project management. The experience is meant to allow them to have some exposure through real experience to the field in which they are to receive their degrees. As a capstone course, this class will provide a key assessment of the students' preparedness to apply their skills in a real world situation.

Prerequisites: Junior Standing  Credit Hours: 4

Marketing (MAR)

MAR1011  Principles of Marketing

The fundamental concepts of marketing principles and their functions are examined. Marketing dynamics and strategic planning are explored in the marketing environment.

Prerequisites: None  Credit Hours: 4  Offered Online: Yes

MAR2141  International Business

This course explains the fundamentals of international business in the challenging global environment. It explores and analyzes trade, investment, cultural and legal forces of international markets.

Prerequisites: GEB1011 or MAR1011  Credit Hours: 4  Offered Online: Yes

MAR2405  Principles of Sales

Presented in this course are the basic principles and techniques of selling. Emphasis is placed on effective presentations and communication skills. Selling is studied as a marketing process in retail and industrial markets.

Prerequisites: None  Credit Hours: 4

MAR3414  Sales Strategies

A study of various aspects of the salesperson's job, including fundamental sales skills, the buying process, principles of communicating effectively, adapting to the needs and unique styles of each customer, prospecting, planning, discovering needs, using visual aids, conducting effective demonstrations, responding to objections, obtaining commitment, and providing after-sale service. Students in this course should learn sales strategies and principles of selling so that they will have enough self-confidence to begin making calls if provided with no additional training by their employers.

Prerequisites: MAR1011 or MAR2405 or MAN2021  Credit Hours: 4  Offered Online: Yes
**MAR4503  Consumer Behavior**

This course examines cultural, social, and individual variables and how they are incorporated into buyer decisions processes and marketing practices.

*Prerequisites: MAR1011  Credit Hours: 4  Offered Online: Yes*

**MAR4156  Global Marketing**

An overview of the essential issues and the unique considerations confronting the marketing decision-makers in a global environment. The study will include comparative advantages, disadvantages, the interdependence of global marketing, and the importance of global research and market perceptions. Special attention will be directed toward the issues and differences confronting a domestic company wishing to do business in another country.

*Prerequisites: ADV1002 or MAR1011  Credit Hours: 4  Offered Online: Yes*

**MAR4333  Integrated Advertising**

An in-depth review of the shift from the conventional methods of advertising to the more widely recognized approach of implementing an integrated marketing communications strategy. This course conveys that one must recognize how a firm uses all of the promotional tools available to deliver a unified message to the consumer. The IMC perspective represents one of the most influential changes in business practices for the 21st century.

*Prerequisites: MAR1011 or ADV1002  Credit Hours: 4  Offered Online: Yes*

**MAR4403  Sales Management**

A study of various aspects of the sales manager's job, including fundamental sales skills, management skills, and the ability to train, lead, inspire and supervise salespeople. Students in this course should learn sales forecasting, public relations, advertising, sales promotions, planning, motivation, and what is needed to effectively and successfully manage and lead a sales team.

*Prerequisites: MAN2021 or MAR3414  Credit Hours: 4*

**MAT0002C  Essential Math I**

This course deals with the four basic mathematics functions: addition, subtraction, multiplication, and division. Students enrolled in this course will have demonstrated a need for training in and development of the above skills. Lab hours required: 20.

*Prerequisites: Placement through entrance testing.  Credit Hours: 4*

**MAT0012C  Essential Math II**

This course covers basic math skills such as percents, graphs, units of measurement, the metric system, rational numbers. It also includes an introduction to algebra and geometry. Lab hours required: 20.

*Prerequisites: MAT0002C or placement through entrance testing.  Credit Hours: 4*

**MAT1030  College Algebra**

This course provides the student with an opportunity to experience Algebra as a process that enhances logical thinking and a discipline that has real world applications. Skills such as operations with Real Numbers, Linear Equations and Inequalities, Polynomials, Exponents, Quadratic Equations, Roots, Radicals, and Cross Multiplication of algebraic expressions are practiced.

*Prerequisites: None  Credit Hours: 4  Offered Online: Yes*

**Mathematics - General and Finite (MGF)**

**MGF1106  Topics in College Mathematics**

Through a unique problem-solving approach, this course provides an insight into what mathematics is and what it accomplishes. Topics include logic, estimation, numeration systems, number theory, algebra, functions and graphs, geometry mathematical systems, probability, and statistics.

*Prerequisites: None  Credit Hours: 4  Offered Online: Yes*

**Mathematics - Technical and Business (MTB)**

**MTB1103  Business Math**

This course provides a review of the basic applications of mathematics relating to such calculations as bank and sales records, interest, promissory notes and interest variables, percentages, commission, cash and trade discounts, markup and other typical business calculations.

*Prerequisites: None  Credit Hours: 4  Offered Online: Yes*

**MTB1344  Algebra and Trigonometry**

This course is the study of the concepts and practice of algebra and trigonometry skills. Factoring, algebraic fractions, logarithmic and exponential equations, vectoring and graphing functions are practiced.

*Prerequisites: None  Credit Hours: 4*

**MTB2324  Calculus I**

This course is designed to provide the students with the concepts of limits and differential and integral calculus in the context of practical problems.

*Prerequisites: MTB1344  Credit Hours: 4*
Medical Assisting Technology (MEA)

MEA1226C Examining Room Procedures
This course introduces the student to medical office procedures. Included are studies of general pharmacology, vital signs, electrocardiography, patient examination preparation and procedures, identification and care of instruments and equipment, asepsis, sterilization, and radiology.

Prerequisites: HSC1531 and BSC1093 or BSC1094 or MEA2203 Credit Hours: 4

MEA1245C Phlebotomy Procedures
This course provides students with an opportunity to learn principles of sterile and aseptic technique, criteria for selection of site for fingerstick and/or phlebotomy withdrawal techniques. Emphasis is placed on the proper handling and processing of laboratory specimens. This course includes four hours of AIDS/HIV training.

Prerequisites: HSC1531 Credit Hours: 4

MEA1346C Computerized Medical Office Management
This course introduces the student to computerized medical office management using a current industry standard application such as Medisoft or Medical Manager. The student will learn how to set up support files and maintain patient information. The course includes instruction in accounting, communications, insurance claims processing, practice management, office management, appointments, clinical histories, billing and report generating.

Prerequisites: CGS1100C Credit Hours: 4

MEA2203 Pathophysiology
This course is a study of the diseases and disorders of the human body, including signs and symptoms, physical manifestations, anatomical abnormalities, etiology, diagnosis and treatment.

Prerequisites: None Credit Hours: 4

MEA2235 Medical Law and Ethics
This is a study of the interrelationship of law and medicine. Emphasis is placed on law of torts, administrative agencies, and consumer protection, as well as classes of contracts, breach of contract and remedies available under the law. Special emphasis is placed on ethics for a health care delivery team member. This course includes four hours of AIDS/HIV Awareness Training and two hours of HIPAA Training.

Prerequisites: None Credit Hours: 4

ME12257C Basic X-Ray Machine Operation
This course is a combination of lecture and demonstration of the use of radiographic equipment as related to patient care.

Prerequisites: None Credit Hours: 4

MEA2260C Clinical Laboratory Procedures
This course introduces the techniques for performing routine laboratory tests. These include physical, chemical, and microscopic examinations of urine and urine test interpretation; techniques for obtaining blood samples for hemoglobins, hematocrits, and differential counts from blood smears; agglutination and coagulation tests for pregnancy; and other common conditions tested in the physician's office. This course includes four hours of AIDS/HIV training.

Prerequisites: HSC1531 and BSC1093 or BSC1094 or MEA2203 Credit Hours: 4

MEA2803 Medical Assisting Externship
The student applies skills obtained through classroom and laboratory instruction to actual work situations. Medical Assistant students are placed with a physician's office or other suitable facility to provide a broad training experience and on-the-job performance evaluation. The student is required to complete a minimum of 160 contact hours.

Prerequisites: Completion of all Medical Assisting core courses and approval of the Director of Education/Director of Health Sciences Education Credit Hours: 6

Nursing (NU/NUR/NSP)

NSP3857 Principles of Teaching and Learning
This course covers fundamental information related to teaching and learning with adults. Concepts of adult learning theory are applied to the nursing clinical learning environment. Application activities present the opportunity to develop a personal philosophy of teaching and learning.

Prerequisites: NUR3805 Credit Hours: 4

NSP3858 Principles of Clinical Learning
This course provides foundational information for transitioning from a practitioner of nursing to a teacher of nursing in roles such as preceptor, mentor, and academic instructor. The student learns to assist learners to think critically and to safely and effectively apply theoretical principles to real life situations. Concepts covered include theoretical foundations, rights and responsibilities, and effective approaches to teaching in the clinical setting.

Prerequisites: NSP3857 Credit Hours: 4

NSP4859 Evaluation of Clinical Learning
This course examines methods for evaluation of learning outcomes in the clinical learning setting. The student learns to select or design evaluation tools appropriate to learning goals and practice environment.

Prerequisites: NSP3858 Credit Hours: 4
Nutrition (HUN)

HUN1206 Nutrition
This course introduces the student to the basic fundamentals of nutrition, including the micro and macronutrients found in food and how the body processes them. The relationship between diet and health is also discussed. Students will learn principles of planning a balanced diet and how to make healthier food choices.

Prerequisites: None  Credit Hours: 4

Paralegal/Legal Assisting (PLA)

PLA1003 Introduction to Legal Assisting
This course is designed to introduce the student to the purpose of legal assistants and the training required. It examines the role of the attorney and legal assistant in the modern legal practice; the ethical and professional practice standards applicable to both the attorney and the legal assistant; and surveys the various areas of law that are covered in the legal assistant program.

Prerequisites: None  Credit Hours: 4

PLA1058 General Law
This course covers the various fields of law related to persons, such as tort, criminal law, workers' compensation, etc. Also covered are the areas of commercial law, laws of personal property transactions, contract, and insurance law.

Prerequisites: None  Credit Hours: 4

PLA1103 Legal Writing and Research I
This course provides the student with information on how to write legal memoranda and briefs for both trial and appellate work. Emphasis is placed on in-depth examination of the law library and the process of legal research.

Prerequisites: PLA1003 or PLA1058 and ENC1101  Credit Hours: 4

PLA1273 Torts
This course investigates civil "wrongs" based upon general tort principles of negligence, strict liability, vicarious liability and products liability.

Prerequisites: PLA1003 or PLA1058  Credit Hours: 4

PLA1303 Criminal Law and Criminal Procedures
This course is designed to introduce the student to criminal law and criminal procedure. The course examines criminal law including the elements of a crime, types of crimes both in common law and by statute. The course reviews criminal procedure including the judicial process from charge to verdict as well as basic American Constitutional guarantees and protection.

Prerequisites: None  Credit Hours: 4

PLA2114 Legal Writing and Research II
A continuation of Legal Writing and Research I, this advanced course places emphasis on the use of the legal library and the process of legal research.

Prerequisites: PLA1103  Credit Hours: 4

PLA2401 Contracts and Commercial Transactions
This course offers procedural information on such topics as corporations, partnerships, agencies, business trusts, and other business vehicles. The course examines the fundamental principles of the law applicable to each area. The law of bankruptcy is also taught.

Prerequisites: PLA1003 or PLA1058  Credit Hours: 4

PLA2460 Bankruptcy Law
This course will cover the Federal Bankruptcy Code with emphasis on Chapters 7, 11 and 13. The student will become familiar with the different forms and procedures for filing in the State of Florida.

Prerequisites: PLA2740  Credit Hours: 4

PLA2610 Real Estate Law
This course provides an in-depth knowledge of real property and a survey of the more common types of real estate transactions and conveyances, such as deeds, contracts, leases, deeds of trust, etc., and the problems encountered in drafting these conveyances and closing statements.

Prerequisites: PLA1003 or PLA1058  Credit Hours: 4

PLA2740 Court Proceeding and Litigation
This course examines the court systems of the State of Florida and the related courts of the federal system. It also covers the civil and criminal procedures involved in practice before these courts.

Prerequisites: PLA1003 or PLA1058  Credit Hours: 4

PLA2800 Family Law
This course covers such topics as divorce, separation, custody, legitimacy, adoption, change of name, guardianship, support, court procedures, and separation agreements. Legal aspects of the drawing of wills, trusts, etc., and probating estates are presented. Procedures involved in accounting, administration, gifts, life insurance, and estate planning are addressed.

Prerequisites: PLA1003 or PLA1058  Credit Hours: 4

PLA2841 Immigration Law
This course covers a broad survey of immigration laws and procedures including the preparation of all forms and documents required to file with the immigration and naturalization service.

Prerequisites: None  Credit Hours: 4
PLA2950  Certified Paralegal Examination Review

This course prepares the paralegal student for the Certified Paralegal Examination which will include a comprehensive review of subject material that will be included in the exam.

Prerequisites: Completion of all Legal Assisting (PLA) courses.  Credit Hours: 4

PLA2940  Legal Assistant Externship

Legal assistant competencies are practiced and observed in an off campus professional legal environment. Externship is an integral part of the curriculum. The student receives a review and professional sequence of practical experiences in offices of professional attorneys, government agencies, and accredited legal clinics selected by the program coordinator and approved by the director of the College. This aspect of the student's training includes an opportunity to perform various legal tasks and procedures under supervision.

Prerequisites: Completion of all Legal Assisting (PLA) courses and approval of the Director of Education.  Credit Hours: 5

Philosophy (PHI)

PHI2014  Introduction to Philosophy

This course is designed as an introduction for students having no previous college work in comparative belief systems with the focus being the perennial issues of human existence. The fundamental assumptions, terminology, and schools of thought used to address issues in metaphysics, epistemology, ethics, and aesthetics will be examined. Major philosophical problems will be explored with emphasis placed on establishing relevance to personal philosophy.

Prerequisites: None  Credit Hours: 4

Offered Online: Yes

PHI4609  Ethics

Students will become familiar with the philosophy of ethics and moral theology. Emphasis will be on applying moral theory to practical moral questions of the twentieth century.

Prerequisites: None  Credit Hours: 4

Offered Online: Yes

Political Science (POS)

POS1041  American National Government

This course is designed to provide a comprehensive examination of the American political system. Through this course, students will become familiar with the theory, organization, principles, and functions of the American national government and various elements within the political system that work to shape policy outcomes.

Prerequisites: None  Credit Hours: 4

Offered Online: Yes

Private Investigation (PI)

PI100  Interviews and Statements

This course is an in-depth study of the proper methods used by private investigators while conducting civil interviews and interrogations. The student will learn how to prepare the interview format. Methods of using human psychology and observations of non-verbal language are studied and learned. The student will learn the taking of face to face and mechanical statements and practice taking declarations and interrogatories from claimants, plaintiffs, defendants, and witnesses.

Prerequisites: None  Credit Hours: 4

PI101  Principles of Private Investigation

In this course, the student will design, and initiate all components of the basic structure of civil investigation. The student will identify, plan, and implement the type of investigation needed for any given situation.

Prerequisites: None  Credit Hours: 4

PI103  Legal Investigations

The students in this course will learn the foundations of civil and criminal law. Trial activities will be closely studied including claims of the plaintiff, defense strategies, including those of insurance companies. The functions of administrators and litigators will be studied. The student will learn nomenclature of trial law relative to many pertinent legal issues and lawsuits.

Prerequisites: None  Credit Hours: 4

PI104  Investigative Report Writing

This course will prepare the student to produce well written investigative reports for a variety of investigation types. The student will be able to compile accurate factual reports that document the results of their investigation using several standard report formats and correct investigative phraseology. The importance on correct punctuation, capitalization and spelling will be addressed.

Prerequisites: None  Credit Hours: 4

PI106  Background Investigations

Background investigations introduces a variety of research tools, utilizing current investigative technology in addition to fact finding for businesses and individuals. This course is designed for students to master the pre-employment screening process to operate successful private investigative agencies. Competency in this field would provide comprehensive skills for careers as Background Investigators with state, local and government agencies.

Prerequisites: PI101  Credit Hours: 4

PI110  Asset Protection and Undercover Investigations

This course will prepare the investigator who has the additional duties of asset protection and corporate undercover investigations. The student will learn the necessary measures to protect the company and personnel from internal and external property loss.

Prerequisites: None  Credit Hours: 4
PI200  Criminal Defense Investigations

This course will introduce students to the components of criminal and civil litigation. Students will learn the basic components of a legal investigation in these types of cases.

*Prerequisites: PI100 or PI101 or PI103 or PI110  Credit Hours: 4

PI205  Fraud Investigation

During this course, students perform an intense and in-depth study of the recognition, preparation and investigation of all forms of fraudulent activity. The student will learn to solve problems dealing with inflated and fraudulent claims relating to vehicular and personal injury claims; vehicular theft and stripping; medical fraud; consumer fraud; bank and financial fraud including identity theft.

*Prerequisites: PI100 or PI101 or PI103  Credit Hours: 4

PI208  Insurance Investigation

Insurance investigation introduces the student to the largest, most complex category of professional investigations. The student learns to conduct the investigation of vehicular accidents and insurance claims. This includes personal injury claims, property damage, workers’ compensation claims and third party claims.

*Prerequisites: PI100 or PI101 or PI103  Credit Hours: 4

PI215  Private Investigation Management

This course guides the student through the steps of opening and operating a private investigative agency. Students will learn how and where to obtain the necessary licenses, permits and state required insurance coverage. Students will plan and organize the opening of office space including finding location, leasing, furnishing, and staffing. Students will be provided with numerous forms that will be required for office operation. The course will include the most economical methods of advertising and the proven methods of obtaining and retaining clients.

*Prerequisites: PI101 or PI103 or PI220  Credit Hours: 4

PI220  Criminal Investigations

This course will prepare the investigator to understand criminal legal terminology, forensic evaluations of crime scenes, types of criminal offenses, and procedural techniques of law enforcement investigators. The student will review common criminal events such as homicide and suicide, larceny, burglary and robbery, auto theft and arson, and physical and sexual assault.

*Prerequisites: PI100 or PI101 or PI103  Credit Hours: 4

PI274  Surveillance Investigation

In this course the student learns the care, use, and operation of still and video cameras. The following situations are studied and executed: crime scene photography, accident scene photography, surveillance and sub rosa photography and video taping. Emphasis will be placed on photographic documentation applying the basic principles of investigation.

*Prerequisites: PI101 or PI103 or PI110  Credit Hours: 6

PI275  Private Investigation Capstone

Private Investigations Capstone has students apply all components of Florida Statutes Chapter 493 in readiness to become a working professional through completing a course project that applies the skills they have acquired throughout the program.

*Prerequisites: Final Term and Program Chair Approval  Credit Hours: 4

PI280  Private Investigation Externship

For a minimum of 180 hours, students will work in a licensed private investigation agency; in-house for an attorney; in an insurance company claim department; in a business entity; or in a financial institution under the supervision of a licensed or trained investigator who will submit written reports on the externship experience. This experience is considered college coursework and will, as such, be recognized by the Division of Licensing toward the attainment of licensure.

*Prerequisites: Student must be in their final term of the program  Credit Hours: 6

Psychology (PSY)

PSY1012  Principles of Psychology

This course is an introduction to the field of psychology as the scientific study of the behavior of man. Specialized terminology in the field of psychology is introduced. Topics studied include the principles of behavior, the scientific method in psychology, perception, learning, thinking and problem solving techniques.

*Prerequisites: None  Credit Hours: 4
  Offered Online: Yes

Radio-Television (RTV)

RTV1000  Introduction to Broadcasting

Students are introduced to one of the fundamental qualities of a good broadcaster: a clear, articulate, animated delivery. The voice and diction portion of the course offers an overview of the mechanics of speech. The industry orientation portion of the course includes a complete examination of the structure of radio stations, the functions and qualities of various station staff members, regulatory agencies and industry terminology.

*Prerequisites: None  Credit Hours: 4

RTV1567C  Radio Studio I

In this introduction to radio, programming theory, industry terminology, the use of station logs, FCC requirements and broadcast law are discussed in a lecture setting. Additionally programming and on-air technique are introduced and explored through hands-on approaches to the mechanics of board operations and on-air announcing in a lab setting.

*Prerequisites: None  Credit Hours: 3
RTV1513 Introduction to TV
This introductory course exposes students to the operations of television stations and video production companies, examining the various responsibilities of staff members and techniques employed within the programming and production departments.

Prerequisites: None
Credit Hours: 4

RTV2102 Broadcast Journalism
In this course, students are exposed to the writing style used by broadcast news writers. In addition to writing and style guidelines, students will be presented with instruction in gathering news, reporting news and editing newscasts.

Prerequisites: None
Credit Hours: 4

RTV2568C Radio Studio II
In this continuation of Radio Studio I, students continue to apply technical and programming skills in a lab setting while obtaining valuable instruction in personality development, one-to-one communication, commercial and news delivery and remote broadcasting techniques.

Prerequisites: RTV1567C
Credit Hours: 3

RTV2510C TV Production
This course explores the practical concepts of television and video production. Students will study industry terminology and techniques in a lecture setting. Practice and experience in studio and location camera operations, on-camera reporting and interviewing, editing, directing, master control operations, teleprompter operations, titling, and script writing are gained in a lab setting.

Prerequisites: None
Credit Hours: 3

RTV2530C TV Production II
In this continuation of TV Production I, students will expand their knowledge of and skill level in television and video production techniques through application of extensive field production and post production. In the lab setting students will learn new techniques for camera work and elements of the post-production process. Emphasis is placed on the conceptualization, planning, and execution of television productions, specifically news magazines structures.

Prerequisites: RTV1513 or RTV2510C
Credit Hours: 6

RTV3569C Radio Studio III
In this continuation of previous Radio Studio courses, students will focus on polishing both technical and news reporting/on-air announcing skills while studying new material including multi-track audio production and commercial production. In addition, students will create a series of professionally produced audition tapes and realistic air-check tapes.

Prerequisites: RTV2568C
Credit Hours: 6

Reading (RD)

REA0010C Essential Reading I
This is a comprehensive activity-oriented course designed to teach basic vocabulary, reading and study skills. Emphasis will be on efficient reading abilities for comprehending college level reading material. Includes a combination of individual tutoring, conferences, classroom and lab activities. Lab hours required: 20.

Prerequisites: Placement through entrance testing.
Credit Hours: 4

REA0011C Essential Reading II
This course emphasizes critical reading strategies for mastering college level reading material. This is an activity-oriented course designed to increase analytical and inferential reading skills, reading speed, vocabulary development, and advanced study techniques. Includes a combination of individual tutoring, conferences, and classroom and lab activities. Lab hours required: 20.

Prerequisites: Placement through entrance testing.
Credit Hours: 4

Small Business Management (SBM)

SBM1000 Small Business Management
A study of management concepts underlying the operation of a small business including: planning, operating, evaluating and controlling the enterprise. Fundamentals of financing, budgeting, marketing, promotion and profit analysis are examined.

Prerequisites: GEB1011 or MAN2021
Offered Online: Yes
Credit Hours: 4

Sociology (SYG)

SYG2000 Sociology
This is an integrated survey of the fundamental sociological concepts of culture, forms of collective behavior, community and social organization, social interaction and social change. Students write a research paper based on some facet of sociology presented in class.

Prerequisites: None
Offered Online: Yes
Credit Hours: 4
SYG2430  Marriage and The Family
This course will examine families in terms of structure, roles and functions. Emphasis will be placed on understanding the family life cycle; change in motivation to marry, divorce, and remarriage; nontraditional relationships, parenting roles, and sex education.
Prerequisites: SYG2000  Credit Hours: 4

Sociology of Demography (SYD)

SYD4700  Race and Ethnic Relations
In this class, we will look at minority groups in the U.S. (racial, ethnic, cultural, and religious); discuss the relationship of minority status to socioeconomic and political stratification; compare U.S. ethnic social relations to that of minority groups in other societies and contexts; look at what anthropological and sociological theory tell us about the sociocultural processes of ethnic formation, maintenance, and inter-relationship; try to understand ethnic prejudice and discrimination and their causes; and look in depth on how these “global” processes act out locally in our community
Prerequisites: None  Credit Hours: 4
Offered Online: Yes

Spanish (SPN)

SPN1120  Spanish
This course will emphasize communicative skills, listening, speaking, reading, and writing. Students will make oral presentations, read short texts, and write brief Spanish compositions. Basic grammar skills will be introduced.
Prerequisites: None  Credit Hours: 4

Speech Communication (SPC)

SPC1017  Oral Communication
This course is designed to equip the student with better speaking skills, whether in business, social, or civic life. The student will develop the ability to speak clearly and effectively; to think and express ideas effectively; and to plan, compose and deliver speeches of various kinds. Special consideration is placed on purpose, scope and audience analysis and adaptation.
Prerequisites: None  Credit Hours: 4

Statistics (STA)

STA2014  Statistics
This course examines the essential issues and methods used to employ statistical techniques. The unique considerations of describing, summarizing, and analyzing statistical data are presented.
Prerequisites: MTB1103 or MAT1030 or MGF1106 or MTB1344  Credit Hours: 4
Offered Online: Yes

Student Life Skills (SLS)

SLS1201  Personal Development
This course provides the student with the dynamics to effectively implement behavioral changes, while developing the soft skills needed to reach more of the unlimited personal potential. This is accomplished with the guidance of Dr. Lou Tice and the Pacific Institute using the proven method as described in the course workbook “Thought Patterns for A Successful Career”. Students also will develop college success skills including time management, test taking, and goal setting.
Prerequisites: None  Credit Hours: 4
Offered Online: Yes

SLS2301  Professional Strategies
This course prepares each student for obtaining career positions through proven professional strategies. Resumé writing, interviewing techniques, job lead researching, communication skills and career planning are studied in detail. The application of the principles taught in this innovative course provides invaluable tools for professional career planning.
Prerequisites: None  Credit Hours: 4
Offered Online: Yes

Surgical Technology (STS)

STS1021  Surgical Observation
This course provides the student with an opportunity to experience the clinical setting as a prelude to the didactic program. Students will spend time weekly within the operating room observing a wide variety of surgical procedures. Prior to the initial extern placement the students will receive training in CPR, HIPAA compliance, and patient confidentiality.
Prerequisites: None  Credit Hours: 1

STS1302  Introduction to Surgical Technology
This course focuses on the basic fundamentals of Surgical Technology by introducing students to the surgical arena. Key concepts include scope of practice, physical environment, hospital organization, standards of conduct, professionalism, interpersonal communication, and teamwork skills.
Prerequisites: None  Credit Hours: 4
STS1307C  Operating Room Technique I - Instrumentation

This course will focus on the fundamental concepts of surgical technology in regards to instrumentation. This course focuses specifically on instrument classification, instrument names, instrument parts, instrument materials, instrument finishes and the uses of the instrumentation themselves. During the course the student will have the opportunity to learn the relationship between instrument type and usage. This course also focuses on the function, assembly, and care of specialty and accessory equipment used in a surgical setting. Finally, the course will review the various supplies used in the operating room.

Prerequisites: HSC1531  Credit Hours: 2

STS1304C  Operating Room Technique II

This course will focus on the fundamental concepts of surgical technology. Topics covered will include equipment and supplies used during surgery, instrumentation, patient positioning, proper techniques for setting up a surgical case, and circulating the sterile field. Key concepts include surgical asepsis, consent, case selection, instrumentation, room preparation, preparation of the sterile field, performing the surgical count, and monitoring the sterile field. The student will also learn the importance of the consent and preference card.

Prerequisites: STS1307C  Credit Hours: 4

STS1340C  Surgical Pharmacology and Aseptic Technique

This course focuses on the principles of asepsis and sterile technique, as well as the medications used in the surgical setting. Key concepts include surgical conscience, disinfection, sterilization, hemostasis, emergency situations, radiological and chemical injuries, biological warfare, basic principles of pharmacology as it relates the operating room and the fundamental principles of asepsis and the practice of sterile technique.

Prerequisites: STS1302 or HSC1531  Corequisites: STS1304C  Credit Hours: 4

STS2270  Clinical Aspects I

This course serves as the first of three externship experiences, with a focus on the integration of the theory and practical skills applied to the clinical setting. Students become familiarized with facilities, procedures, and practices of the working surgical environment. Students observe and begin participating in a wide variety of surgical procedures. Students are expected to maintain a weekly case log of all procedures, as well as detailed case reports of procedures where the student scrubbed in. All scrubbed cases are applied towards the 120 documented cases required for successful completion of the program.

Prerequisites: STS2270 and STS1304C  Credit Hours: 8

STS2271  Clinical Aspects II

This course serves as the second of three externship experiences, with a focus on the integration of the theory and practical skills applied to the clinical setting. Students become familiarized with facilities, procedures, and practices of the working surgical environment. Students observe and begin participating in general, genitourinary, gynecologic, otorhinolaryngologic, ophthalmic, oral and maxillofacial, plastic and reconstructive, neurologic, and orthopedic procedures. Students are expected to maintain a weekly case log of all procedures, as well as detailed case reports of procedures where the student scrubbed in. All scrubbed cases are applied towards the 120 documented cases required for successful completion of the program.

Prerequisites: STS2270  Credit Hours: 8

STS2272  Clinical Aspects III

This is the final of three externship experiences, with a focus on the integration of the theory and practical skills applied to the clinical setting. The student is expected to demonstrate the required skills of the surgical technology profession with little to no supervision. Students are expected to maintain a weekly case log of all procedures, as well as detailed case reports of procedures where the student scrubbed in. All scrubbed cases are applied towards the 120 documented cases required for successful completion of the program.

Prerequisites: STS2271  Credit Hours: 8

STS2325C  Surgical Procedures I

This course focuses on the principles of asepsis and sterile technique, as well as the medications used in the surgical setting. Key concepts include surgical conscience, disinfection, sterilization, hemostasis, emergency situations, radiological and chemical injuries, biological warfare, basic principles of pharmacology as it relates the operating room and the fundamental principles of asepsis and the practice of sterile technique.

Prerequisites: STS1302, HSC1531, BSC1085, BSC1086, BSC1085L, and BSC1086L  Credit Hours: 4

STS2326  Surgical Procedures II

This course will focus on the fundamental concepts of surgical technology. Topics covered will include floor plan design, the various support departments, equipment and supplies used during surgery, instrumentation, patient positioning, proper techniques for setting up a surgical case, and circulating the sterile field. Key concepts include surgical asepsis, consent, and case selection, instrumentation, and room preparation, preparation of the sterile field, performing the surgical count, and monitoring the sterile field. Students perform “mock surgery” and will demonstrate surgical procedure set ups for Orthopedic, Neuro, Plastic, Vascular, and Cardio-thoracic surgery.

Prerequisites: STS2325C  Credit Hours: 4
STS2936    Exam Prep

Upon completion of this course, the student shall be ready to attempt the national CST exam. This course will provide the student with the necessary review in order to give the best possibility of successfully attempting the national certifying exam. Materials covered will include a comprehensive review of all body systems, instrumentation, procedural methods, supplies, medications, as well as test-taking techniques.

Prerequisites: STS2271       Credit Hours: 1

Tuition and Fees
(Effective Fall Term, 10/2/2019)

1. APPLICATION FEE: This fee is assessed prior to enrollment and is non-refundable. This fee is waived for Veterans who produce a copy of their DD Form 214 at the time of enrollment.

2. REGISTRATION FEE: This fee is assessed upon enrollment and is non-refundable unless the student is not accepted by the College, or the student meets the conditions of cancellation as outlined in the REFUND POLICY.

3. TUITION: Tuition charges are assessed by the quarter and are payable quarterly before the beginning of classes. The Tuition and Fee Schedule details the specific tuition and program fee for each quarter of each program.

4. PROGRAM FEES: Program fees cover such items as labs, supplies, materials, parking, student awards, workshops, and career days. Program fees are assessed each quarter for every program. Program fees are payable on a quarterly basis and are not refundable after the beginning of classes.

5. TEXTBOOKS: Textbooks can be purchased through the online book store located at http://mybookstore.citycollege.edu OR on campus during the last few weeks and the first few weeks of each quarter. The cost of textbooks is not included in any of the stated tuition and fees.

6. CITY COLLEGE TRANSCRIPT FEE: The first transcript requested is free. Subsequent transcript requests are $5.00 each.
