

Associate of Science, Emergency Medical Services

Paramedic Portion of the Program Data

The data below is the cohort data for cohorts whose on time completion of the paramedic courses was in 2020.

Please note that this is not program completion. Students who leave a cohort are counted as a drop for that cohort. If they return and complete the program, they remain as a drop in the cohort. The retention rate is a cohort not a program retention rate.

Altamonte Springs	
Retention	No graduates during the 2020 Reporting Year
Placement	
Pass Rates	

Fort Lauderdale/Hollywood	
Retention	54.5%
Placement	83.3%
Pass Rates	50.0%

Gainesville	
Retention	No graduates during the 2019 or 2020 Reporting Year
Placement	
Pass Rates	

Miami	
Retention	15.4%
Placement	100.0%
Pass Rates	50.0%

Altamonte Springs 2019 Data	
Retention	75.0%
Placement	33.3%
Pass Rates	33.3%

Gainesville 2018 Data	
Retention	20.0%
Placement	100.0%
Pass Rates	0.0%

Retention reflects cohort retention based on on-time paramedic completion date.

Placement is graduates placed in field or in a related field.

Pass Rate is the % of graduates who sat and passed the Florida State Paramedic or National Registry exam. The annual data can change as graduates retest after initial posting of data.

Note: Fort Lauderdale and Hollywood programs are considered as one program for reporting purposes under the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP).
